### FARMERS REFUSE TO SELL WHEAT

Walla Walla.—Practically the entire 1920 wheat crop of the Walla Walla valley remains just where it was first laid—in the warehouses and grain bins on the great farms of the valley and up on the flat lands north of this city, according to farmers and buyers alike, who were interviewed.

Farmers, coming into the city Saturday afternoon as usual, stated in almost every case they were not looking for grain buyers, and when questioned closely declared that they believed little if any of the 1920 crop would be moved for less than \$2.50. They thought that when the price came to that figure things would loosen up considerably, and added that if the price remained down the local growers would hold their grain all winter, if necessary, to get what they considered a fair price.

### FRAUD EVIDENCE IS FOUND

Prosecutor Charges Wholesale Bribery in 1919 Race.

Los Angeles.—Evidence of "wholesale bribery" of players in the 1919 season by a ring of gamblers, has been discovered according to an announcement by W. C. Doran, chief deputy district attorney, who is conducting the investigation begun by the Los Angeles county grand jury into the alleged corruption in Pacific coast baseball league games.

Mr. Doran stated evidence already given the investigators indicated scores of games were "thrown" for money last season.

Mr. Doran made the definite statement that prosecutions would follow possible indictments under the California statute making it a felony to conspire to commit a felony.

### AGRICULTURAL CREDIT IS HELD AVAILABLE

#### Federal Reserve Board Replies to Protests of Agricultural Conference.

Washington.—Bank credit "has been steadily available for the successive seasonal requirements of agriculture," according to a statement by the federal reserve board, designed as a reply to agricultural objections which appealed to the government for a further extension of agricultural credit.

Recent disturbances in price and demand which have been manifest in agricultural markets are "inevitable and unavoidable consequences of the economic derangements occasioned by the war," the statement said. It added, however, that the gradual and regular movement of the crops was to be expected.

"Between January 1 and October 1 about 800 leading member banks, which report their condition weekly, and they represent approximately 75 per cent of member bank resources, have increased their loans for agricultural, industrial and commercial purposes by an amount exceeding \$1,800,000,000. This great increase in the credit extended has in the main been possible by the accommodation attended member banks by the federal reserve banks."

After consideration of the statement issued by the federal reserve board, the joint committee of the recent agricultural conference left here to deal with the matter submitted in a report to Chairman Charles S. Barrett of the conference, in which it was stated:

"The statement issued by the federal reserve board not only does not attempt to meet the situation and will not alter conditions, but is even couched in terms to support the price declines. The board's declaration that present disturbances are inevitable and unavoidable is indefensible in this crisis."

"We advise that the next meeting (of the full conference) be held here on October 23, to complete plans already discussed in executive session."

### DRY LAW TANGLES UP DEPARTMENTS

Washington.—Disclosure of a number of prohibition snarls in which three government departments and members of the diplomatic corps are involved was made when the state department issued a statement saying it "assumes that no official of the government would attempt to pry into the baggage of a foreign diplomatic officer."

The unusual course of the state department in making what appeared to be a public appeal to other government officials was adopted. It was learned, after the treasury had amended customs regulations to require baggage of diplomats to be examined and liquor removed. Back of the action of the treasury department, it was disclosed, was an opinion rendered by the attorney-general. It was said to hold that the Volstead Act withdrew from the diplomats the exemption from customs examination of their baggage heretofore accorded.

Diplomats have made no formal protest. The state department, however, has seen evidence of irritation among them.

## "Capital and Industry---Keep Out!"

**WOULD YOU, AS A PATRIOTIC CITIZEN OF OREGON, PLACE SUCH A SIGN ON THE BORDERS OF THE STATE?**

That is exactly what you will help to do if you do nothing to prevent the passage of measure No. 314 and 215 on the November ballot entitled, "Constitutional Amendment Fixing Legal Rate of Interest in Oregon."

This measure proposes to limit the rate of interest in Oregon to 5 per cent. You can, by law, fix the rate of interest in Oregon, but you cannot by law, force the loaning of money in this state, when a much higher rate can be secured elsewhere. The passage of this measure would force the withdrawal of the millions of foreign capital which is today loaned on factories, business and real estate in the state and send your local money owners outside of the state to better investments.

Passage of this measure would mean foreclosure of thousands of mortgages; would result in financial paralysis, and would mean widespread unemployment.

You, no doubt, understand the viciousness of this measure, but have you talked to your neighbors and friends about it? We urge you to do everything you can to defeat this measure. Oregon's reputation as a sound state for investments requires that this measure be overwhelmingly defeated.
