Is Your Money Supporting the Government?
 At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States government. Would you like to do your share and help, by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?
 You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system, where it will always be ready for you when wanted.

"Yours for Real Tobacco"
 says the Good Judge
 Men are getting away from the big chew idea. They find more satisfaction in a little of the Real Tobacco Chew than they ever got from a big chew of the ordinary kind.
 Costs you less, too—the full, rich tobacco taste lasts so much longer.
 Any man who uses the Real Tobacco Chew will tell you that.

Last Big Block of the Canadian Pacific Reserved Farm Lands
 THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. Until this block is disposed of, you can secure at low cost a farm home in Western Canada that will make you rich and independent. The country is ideal for mixed farming as well as grain growing. Later, the same lands can be brought only from private owners—and naturally, prices will be higher. Never again on the North American Continent will farm lands be offered at prices so low.
Your Last Big Opportunity
 This block contains both fertile open prairie and park lands in the Lloydminster and Battleford Districts of Central Alberta and Saskatchewan. You can buy farm lands on the rich prairie of Manitoba, Saskatchewan and Alberta at prices averaging about \$15 an acre. Or land in Southern Alberta under an irrigation system of unending water from 80 to 200 feet and up.
20 Years to Earn and to Pay
 The Canadian Pacific offers you this land under a plan of long term, easy payments that is remarkable in the history of farm investments. You pay down 25%. Then you have no payment on the principal until the end of the fourth year, then fifteen annual payments. Interest is 6%. In Central Saskatchewan, sugar beets grow the world's price wheat. World's price oats were grown at Lloydminster.
Lands Under Irrigation
 In Southern Alberta, the Canadian Pacific Railway has developed the largest individual irrigation undertaking on the American Continent. This district contains some of the best lands in Canada. An unending supply of water is administered under the Canadian Government. Prices range from \$20 an acre up, do the same easy payment terms. \$1000 loan in improvements. Twenty years to pay back.
No Taxes on Improvements
 There's a small tax on the land—nothing more than the tax on all purposes but there are no taxes on your five stock, buildings, improvements, implements or personal effects. Good markets, modern schools, roads, churches, amusements, make farm life desirable and attractive. Here you can achieve independence.
No Sale Without Investigation
 The Canadian Pacific will not sell you a land until you have inspected it. You must be satisfied—and every question answered—before taking up your home. Investigation is invited and made easy. This announcement calls attention to the last great block of Canadian Pacific Reserved Farm Lands.
Special Rates for Homeseekers and Full Information
 Special rates for homeseekers who apply early. Send now for free illustrated pamphlets, prospectus, or complete listing. For more about land values, acreage, prices, country, transportation, etc. Do not delay. Write today.

The Telephone Situation
 In the engineering of a telephone plant—switchboards, conduits, cables, pole lines and general mechanical equipment—we have always tried to anticipate the growth of a community and provide therefore by advance construction. This course has enabled us to more promptly comply with requirements for service with better construction and at an ultimate expense less than that involved in waiting to meet demands as they arise.
 In the war period we were unable to maintain this reserve plant, as the very things we needed for telephone purposes were required and necessarily taken for government purposes. The demand for telephone service did not decrease and our reserve facilities were practically absorbed in meeting it.
 As every business man knows, the problems of reconstruction following the war have been acute and prolonged to an entirely unexpected degree. Unusual conditions are prevalent throughout the entire manufacturing, mercantile and social world. The telephone industry has had to meet all the difficulties and handicaps of retarded production, distribution and transportation.
 This advertisement is not meant to be one of apology, but one of explanation and even accomplishment. In the face of an unprecedented demand for telephone service in the last few months, hampered by the exhaustion of our reserve plant and difficulty in securing materials, we have added more telephones than for this year in the State of Oregon than in any similar period of telephone history.
 In the State of Oregon, in the eight months ending August 31, we have added 6863 telephones. In the eight months ending July 31, 1917—before the war—we gained 2655 telephones.
 In the State of Oregon we have approximately 2600 unfilled applications for telephone service. A similar situation exists all over the United States. We will continue to secure all the equipment possible, and the desires of the public will be met as soon as it is humanly possible to do so.
 The Telephone Company regrets the inconvenience to prospective subscribers. It is as anxious to give service as the patron is to receive it. The Company is doing all in its power to remedy conditions and furnish service in accordance with normal standards.
