### Is Your Money Supporting the Government?

At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States government. Would you like to do your share and help, by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system, where it will always be ready for you when wanted.

## "Yours for Real Tobacco" says the Good Judge

Men are getting away from the big chew idea. They find more satisfaction in a little of the Real Tobacco Chew than they ever got from a big chew of the ordinary kind. Costs you less, too—the full, rich tobacco taste lasts so much longer. Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

**Last Big Block of the Canadian Pacific Reserved Farm Lands**  
 THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. Until this block is disposed of, you can secure at low cost a farm home in Western Canada that will make you rich and independent. The country is ideal for mixed farming as well as grain growing. Later, the same lands can be bought any from private owners—and naturally, prices will be higher. Never again on the North American Continent will farm lands be offered at prices so low.  
**Your Last Big Opportunity**  
 This block contains both fertile open prairie and partly tilled lands in the Leopold and Hamilton Districts of Central Alberta and Saskatchewan. You may buy farm lands on the rich prairie of Manitoba, Saskatchewan and Alberta at prices averaging about \$10 an acre. Or land in Southern Alberta under an irrigation system of canals water from the river and up.  
**20 Years to Earn and to Pay**  
 The Canadian Pacific offers you this land under a plan of long term, easy payments that is unequalled in the history of farm investments. You pay down 10%. Then you have no payment on the principal until the end of the fourth year. Then fifteen annual payments. Interest is 6%. In Central Saskatchewan, George Wheeler grew the world's prize wheat. World's prize wheat grows at Lethbridge.  
**Lands Under Irrigation**  
 In Southern Alberta, the Canadian Pacific Railway has developed the largest individual irrigation undertaking on the American Continent. This district contains some of the best lands in Canada. An unending supply of water is administered under the Canadian Government. Prices range from \$5 an acre up, on the same easy payment terms. \$2000 worth in improvements. Twenty years to pay back.  
**No Taxes on Improvements**  
 There's a small tax on the land—nothing more than \$10 an acre for all purposes but there are no taxes on your live stock, buildings, improvements, implements or personal effects. Good schools, modern schools, roads, churches, post-offices, make farm life desirable and attractive. Here you can achieve independence.  
**No Sale Without Investigation**  
 The Canadian Pacific will not sell you a land until you have inspected it. You may be satisfied—and every question answered—free taking up your home. Investigation is invited and made easy. This announcement calls attention to the last great block of Canadian Pacific Reserved Farm Lands.  
**Special Rates for Home-seekers**  
 and Full Information  
 Special rates for first time home-seekers. Special rates for those who have been in the army, navy, or air force. Special rates for those who have been in the merchant marine, or who have been in the service of the government. Do not delay. Write TODAY!

## Scarcity of Telephone Equipment

As new subscribers a number of individuals have recently placed orders with us for telephones. Old subscribers have asked for service at new locations. They have been told by our representatives that immediate compliance with their desires was impossible owing to lack of "telephone facilities" in a particular locality. "Why," one will say, "The poles and wires are on the street and the house is already wired."

We wish that the problem were as simple as it sounds. There may be poles and wires, but every wire may be in use in giving service to others. There may be a cable, but every circuit may be assigned to 'phones already installed. There may be spare wires and circuits but no switchboard apparatus at the central office to which they can be connected. There may even be sections of switchboard but not available for operation on account of the lack of necessary accessories such as ringing keys, relays, etc.

The reason for the shortage of telephone equipment is simple. During the war period we were unable to maintain our reserve or stock plant as the same materials we use were required and taken for Government purposes and for industries properly favored by the Government. Since the war, with the unexpectedly prolonged problems of reconstruction, production and delivery of materials needed to meet even current demands have been delayed. Every business concern is having similar experiences. The manufacturers of telephone equipment have been bending every effort to fill our orders, but they in turn are meeting the same difficulties in securing rubber, paper, silk, glass, porcelain, tin, thread, shellac, metal parts and other articles not generally associated in the public mind with telephone service.

At the same time with this abnormal situation with reference to materials there exists an unprecedented demand for telephone service, and even under these circumstances our record is one of fulfillment of demand. In the first eight months of this year we have added 6863 telephones in the State of Oregon. In the eight months prior to our declaration of war we gained 2655 telephones.

We desire to give service as much as a patron wishes to receive it. We desire to promptly comply with the suggestions of public authorities who have taken a proper interest in the situation. We are facing abnormal conditions but we will—of necessity gradually—overcome our difficulties.
