

Why man— we made this cigarette for you!

# Camel CIGARETTES

CAMELS fit your cigarette desires so completely you'll agree they were made to meet your taste!

Unique flavor, fragrance and mel-low-mild-body due to Camels quality and expert blend of choice Turkish and choice Domestic tobaccos are a revelation! You will prefer the Camel blend to either kind of tobacco smoked straight!

With Camels you can go the limit without tiring your taste. They leave no unpleasant cigaretty after-taste; no unpleasant cigaretty odor!

To get a line on why Camels win you so completely compare them puff-for-puff with any cigarette in the world at any price. You'll prefer quality to coupons or premiums!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

**Old Bell Splendidly Preserved.**  
In an old graveyard in County Antrim, Ireland, a farmer, while plowing, unearthed a bronze church bell weighing more than 100 lbs., and believed to be over 300 years old. The bell is in a splendid state of preservation, with a clear, powerful tone. The old Kirkmoyle parish church, where the bell was made, has been in ruins since 1622.

**Peculiar Chinese Music.**  
Chinese music is not written. The words of some of the famous songs have been preserved, but the music has been handed down from father to son for generations and goes far back before the day of the troubadours. When music is played it is played according to the memory of the musician and his ideas of interpretation. A musician varies the performance as his judgment dictates and the strings, reeds or brass may break in almost any time.

## Powell Butte News

New Years was ushered in at Powell Butte homes by several parties and a watch night service. Hall to the new year, may it bring us prosperity and peace!!

Mrs. Mary V. Charlton has gone to Salem, where she will visit with her daughter, Mrs. Ida Foster, for about two months. This is Mrs. Charlton's first vacation in about five years.

Mr. and Mrs. Roy Roberts entertained New Years' Eve with a card party. Mr. and Mrs. E. H. Stewart, Mr. and Mrs. E. R. Agee, Mr. and Mrs. Roy Roberts, Mr. Jackson and Carl Charlton were the guests. A delicate luncheon was served and the party greeted the new year at its dawning.

There was a watch night meeting at Community Hall New Years' Eve. A large crowd attended and enjoyed it very much. Songs, sermons, a short program, a dandy fine hot supper was served and a joyous greeting of 1921 hand shaking prayers and tears were mingled by a united community for a prosperous and a happy new year.

Rev. Brown, pastor of the Redmond-Powell Butte M. E. church, attended the watch night meeting at Community hall and gave a short address which was worthy of careful thought by all present.

Connie White and son of Brownsville, left on the Thursday morning train to return home after a pleasant visit with his sister and husband the J. A. Riggs.

Roy Oliver and family will move onto the ranch owned by Mrs. Sue Wilcoxen. They have rented the place by the year. Several of our young people attended the New Year ball at Red-

mond. Among them were Lloyd and Fay Bussett and Fred McCaffrey. Grandma Spray enjoyed a visit with Mrs. Martha Foster over the New Year.

Miss Gladys Pauls has returned to her school at Lone Pine Gap after a very pleasant vacation spent at her parents home here.

Mr. and Mrs. E. H. Stewart and Carl Charlton went to Bend last Wednesday and returned the same day. They report the roads very bad.

Mrs. Roy Roberts was hostess to the Powell Butte Ladies Aid last Thursday. Mrs. Roberts is a lavish hostess and her luncheons are a delight to discuss. She was assisted by Mrs. Naomi Agee and Mrs. Anna Jackson Stewart. The women had work and much was accomplished. They plan on holding a bazaar before long and will have many useful articles to sell.

Mr. and Mrs. Frank Kistler and Miss Bertha Stevens were shopping in Redmond last week.

J. A. Riggs went to Prineville last week and while coming up the new grade broke a connecting rod in his car. He was obliged to send a car from the garage to tow his car back to town, where he left it for repairs.

### WHY WINTER DEMANDS A LOW COLD TEST OIL

"If the oil in your engine will congeal, or thicken excessively, at 15 degrees above zero, you should hardly expect it to splash and flow freely at 12 degrees above zero", said Mr. Campbell, special agent of the Standard Oil Company, yesterday.

"Yet some motorists wonder why it takes so long to get the engine to run freely these cold mornings. The cold engine, not getting sufficient

lubrication is subject to excessive and damaging friction. The oil pump cannot circulate congealed oil, so there will be an insufficient supply thrown upon the cylinder walls—until the struggling motor has warmed up the oil so it will flow more freely. "A zero cold test oil flows freely at all temperatures down to zero, that's why it is called a zero cold test oil. Zerolene Medium (or Zerolene Light for Fords) is a zero cold test oil. It is correctly refined from selected California crude oil and flows freely and splashes freely at all temperatures down to zero. This zero cold test oil gives the same correct lubrication to your engine during these cold days that you are used to getting during the summer months."

### YOU NEED COLD MEDICINE

When you get up in the morning feeling all out of sorts, your bones aching, your head stopped up and you do not care whether school keeps or not, you need Rexall Laxative Aspirin (E. D. Co) Cold Tablets. These are a scientifically prepared medicine made especially for relieving such conditions and breaking up a cold.

If a cold is not treated when the first symptoms show themselves, it will frequently develop into more serious complications. Why take the chance of becoming ill, which means suffering loss of time and money?

Get of us a box of these Cold Tablets today. Take them according to directions the moment the first symptoms appear and you will obtain real relief.

We guarantee them. PRINEVILLE DRUG COMPANY The Rexall Store Prineville, Oregon

## Terrebonne NEWS NOTES

The basket ball game between Redmond and Terrebonne, Wednesday, was in favor of Terrebonne, by a score of 23 to 6.

A carload of baled hay was shipped from here this week by J. Foss. Mrs. Winifred Osborne returned to her home in Culver Friday.

Mrs. Blanche Ray of Bend, returned home Sunday, after visiting her grandparents, J. Brown, during the holidays.

Mrs. Millie Leighman has been visiting Mr. and Mrs. Robert Morris. Loren Cyrus has returned home again from Prineville, after visiting an aunt there.

The school here has to their credit \$1,602 in Liberty Bonds and war stamps, thrift stamps and work. There are 72 pupils in attendance, and during the Red Cross stamp sale, they sold 1,150 seals.

F. Knorr went to Portland Friday. Mrs. Earl Raiston went to Culver Friday.

The Ladies' Pioneer Club held their regular meeting with a good attendance, and it being election of officers, the following were elected: Mrs. H. Gates, president; Mrs. J. Mc. Clay, vice president; Mrs. W. Pickett treasurer; and Mrs. Van Tassel secretary.

Mr. and Mrs. W. Pickett went to Sisters Sunday and came home Monday.

A brother of the late Charles Douglas came Monday from Nebraska.

**Couldn't Be Supposed to Know.**  
I helped my little niece on her tricycle over a crossing by taking hold of the front part of the tricycle and lifting it onto the sidewalk, writes a correspondent. She explained that that was not the right way to do it; I should have pulled her up by the handle, and then, with a sweet desire to find an excuse for my ignorance, she quickly added: "But, of course, you wouldn't know how, because you are not the mother of a child."

**Ink Spots.**  
Fresh ink spots may be removed by soaking in milk. Old ink stains that have dried may be taken out by washing in hot lard. Wash just as one would with water, wash again and again, finally washing out lard with soapy water.

**Paradox of Rail Wear.**  
In a single track line railroad, the wear on the rails is seldom greater, and is frequently less, than in a double-track line, says the Scientific American, an apparent paradox which is probably explained by the reversal of direction of traffic, which tends to neutralize coldrolling actions in the surface of the rail-head.

**The Interest in an Etching.**  
The art of etching has no mechanical attractiveness. If an etching has no meaning it can interest nobody; if its significant lines are accompanied by many insignificant ones, their value is neutralized.—Phillip Gilbert Hamerton.

**We Took the Advice.**  
People continue having trouble with the well-known and highly esteemed English language. A placard seen on Washington street runs: "Don't fail to take this sale of shoes."—Boston Transcript.

**The Species.**  
Irritated Official—I must try not to let these bug visitors annoy me. What kind of human insect was it this time?  
Office Boy (timidly)—It was a lady bug, sir.

**Lake's Peculiar Migration.**  
Near Valdosta, in Georgia, there is a lake three miles long and three-quarters of a mile wide, with an average depth of twelve feet of water, which disappears every three or four years and then comes back again. It disappears into natural subterranean passages, taking two or three weeks in the process and leaving a beautiful sandy basin. After a month or so the water begins to come back, and in a couple of weeks it is the same old lake.

**Mica Indispensable.**  
The main importance of mica in modern industry lies in the fact that it is one of the best nonconductors of electricity and is, therefore, indispensable in electrical engineering. On this account the British government took over part of the mica field in India and worked it as a state industry in order to make sure of having a constant supply.

**Utah's Bird Sanctuary.**  
The most remarkable bird colony in the world is on Hat Island, in the Great Salt lake, Utah. The island is about twelve acres in extent, and on a rocky pinnacle 100 feet above the brine, with not a drop of fresh water to be found and apparently nothing to attract the birds except the sense of security which the island offers.

**The Old Knocker Knocks.**  
In every small town there is a tough old backslider who likes to point with pride to the fact that Tommy Brown, who was the worst boy in town, is now a preacher; and that Willie Green, who was the best boy in Sunday school, is now in the pen.—North Powder (Ore.) News.

**Elegance.**  
Elegance is something more than ease—more than a freedom from awkwardness and restraint. It implies a precision, a polish and a sparkling which is spirited yet delicate.—Hazlitt.

**Let Them Tell It.**  
The proverb doesn't state it quite correctly—there are better fish in the sea than were ever caught, in view of the enormous ones that just managed to get away from all the anglers.—Boston Transcript.

**Origin of Dollar Mark.**  
Some claim that it is a modification of the English symbol (£) for the pound. Another explanation is that it came from the letters U. S. written one over the other. Yet another theory is that the two upright marks represent two pillars of brass before the temple of Solomon, which early appeared on our coins and became intertwined with a scroll.

**Burning Cork Pungent and Spicy.**  
To remove the odor of burned food and to sweeten the air of a room generally, put a piece of ordinary cork on a hot stove lid or other iron plate and let it smolder and turn black. It will give off a fresh and fragrant odor which will overcome any other odor present.

**Eugenie Invented the Crinoline.**  
Among the late Empress Eugenie's numerous claims to fame not the least interesting was her invention of the crinoline skirt, which she is said to have been the first to devise and wear a few months before the birth of the Prince Imperial.

**Appetite of Birds.**  
Birds are usually voracious eaters. Some birds consume two and a half times their weight of food in twenty-four hours. The heron, which has a light weight of four pounds in spite of its size, is a striking example. White pigeons are among the greediest eaters.

**Hunting New Pearl Beds.**  
The pearl fishermen of the Orient and of the South sea are hunting for new beds of pearl oysters. The demand for pearls is so great and the fisheries are being worked so continuously that new pearls do not have time to grow.

**Thick Coal Bed.**  
The brown coal beds of Victoria are said to be the thickest in the world. At Morwell 780 feet of coal has been passed through in a bore of 1,010 feet. The four principal areas of occurrence cover approximately 1,200 square miles of an average thickness of 50 feet. The depth of the coal seams below the surface varies from 60 to 500 feet, the average being near to the first figure.—Exchange.

**Superstitions of Siam.**  
In Siam all babies receive the same name at birth. This name is Dang, which means red, and it is the only designation for some months. At birth a cord blessed by the priests is tied round the outside of the house and three balls of rice are thrown in "lucky directions."

**Italian Superstition.**  
One of the numerous superstitions of the Italian peasantry is that rows of teeth hung around the necks of little children will assist them in teething.

**Victor Over Misfortune.**  
Happy is the man who can endure the highest and the lowest fortune. He who has endured such vicissitudes with equanimity has deprived misfortune of its power.—Seneca.

## "NOW-A-DAYS" says the Good Judge

A man can get a heap more satisfaction from a small chew of this class of tobacco, than he ever could get from a big chew of the old kind. He finds it costs less, too. The good tobacco taste lasts so much longer he doesn't need to have a fresh chew nearly as often. Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles  
W-B CUT is a long fine-cut tobacco  
RIGHT CUT is a short-cut tobacco  
Wm. W. Johnston Company, 807 Broadway, New York City

## Just to remind you—

BUYING Oregon-made goods is largely a matter of habit.

Before you buy anything, think for a moment—isn't that article you need supplied by an Oregon manufacturer?

Then ask your merchant for the Oregon made article.

He will be glad to fill your needs with Oregon goods, because he knows that every time he sells an Oregon product, he helps Oregon, and everybody who lives in Oregon. He knows, too, that Oregon Products are the finest in the land. Tourists from all over the world marvel at the wonderful flavor of our fruit, vegetables, nuts and cheese. Our manufactured products are sold from Maine to California.

BUY OREGON MADE Start to form the habit today.
