It's toasted

Neighborhood NEWS

Mrs. Fred Lippincott, who lives near the dam, is very ill.

Lynn Nichols left last night on a business trip down the line.

Seth Rodman of Dufur was a business visitor in town last week.

Ira Higgins, the Paulina sky pilot, has been making a visit in town.

Mrs. C. B. Harman of Hampton Butte is visiting friends in this city.

The Shumia Club will meet with Mrs. Jay Upton next Tuesday, March 15th.

Archie Gibson of Post is in the city today visiting friends and relatives.

Mrs. Susan Hiney is slowly recovering from a severe attack of influenza.

J. W. Johnson, rancher of the Post country, arrived in town Tuesday for a short visit.

Porter Quinn, a resident of the Suplee country, is in Prineville, on a business trip.

Roy Gray is in town this week in connection with business during the present term of court.

Rev. M. R. Gallaher left Monday night for Spokane, where Mrs. Gallaher is ill in a hospital.

Howard Davis left Tuesday night for Bend, where he will visit with friends for several days.

Mr. and Mrs. Manford Nye are spending several days in this city. Mr. Nye is on the jury list.

The old location of the Ochoco Creamery has undergone a thorough cleaning and painting the last week.

J. W. Gilchrist, Powell Butte rancher, spent yesterday in town paying taxes and attending to other business.

The sheriff's office is just completing the sending out of the thousands of tax receipts to property holders in Crook county.

Mrs. Addie McCoy was elected as Master Artisan at the last meeting of the order, and Eugene Hiney was elected inspector.

Robert Osborne, an old-time sheep herder of Crook county, arrived the first of the week. He has been located at Marshfield for some time.

Mr. and Mrs. C. J. Wolf left Monday night for Los Angeles. They have been making a long visit with their daughter, Mrs. Fred Hoelscher.

The Methodist ladies aid met at the home of Mrs. Pickett last Thursday. An enjoyable program was rendered, and the hostess served delicious refreshments.

The rock crusher started to work in earnest Tuesday, near the Crooked River bridge, and took out 48 yards for use on the road. Up to that date time has been used in getting the machinery set up and in working order.

A baby girl was born to Mr. and Mrs. V. V. Harpham in this city on Tuesday. Mr. Harpham is the well-known forestry supervisor for this section, and Mrs. Harpham formerly worked as bookkeeper for J. E. Stewart & Co. The little lady has not yet been named.

The ladies aid of the Christian church met for a social time last Thursday afternoon at the home of Mrs. Lily Wonderly, it being her 55th birthday. Twenty ladies of the church were present and enjoyed the program. Ice cream and cake were served.

The K. of P. hard time, old time dance, which occurs the 17th is being widely advertised by the means of very unique posters in the different windows of the business houses. They were painted by HI Roller, and range all the way from a hobo's view of the affair, to the version of Jiggs. The dance will surely be one hot old time, if all reports can be believed.

Ike Ward, Wade Houston and George Noble formed a party which inspected the Ochoco road Tuesday, as far as Jones' mill. Walter Barney, of the highway department, took them over the road. Mr. Ward nearly fell in the Ochoco, losing his balance, when he was trying to determine how deep the water was by means of a stick, but Mr. Huston rescued him before any serious damage was done to his temper.

The members of the Carnation Club will be hostesses to their families at the Masonic Hall on Friday night, March 25. This is the first large social event that the club has given since the new rooms have been in use, and extensive plans are under way to insure the enjoyment of a good social time. The officers of the club, Mrs. M. E. Brink, Mrs. Geo. Euston and Mrs. Reppa Hamilton, have charge of the evening.

James Ingalls was a Friday visitor in Prineville from Suplee.

Robert Carland of Maupin registered at the hotel on Monday.

J. M. Baker of Madras was a business visitor in this city Saturday.

Colonel Johnson returned Tuesday morning from a trip to Portland.

Lawrence Lister is among those down from Paulina as one of the jurors.

Vernon Faxton is the court reporter for the March term. He is from Portland.

Judge N. G. Wallace returned yesterday morning from a short trip to Portland.

The little daughter of Enos Rose has been very seriously ill during the last week.

George Senechal, Suplee rancher, has been a business caller in Prineville this week.

Ray Schee was called to his old home in Iowa Saturday morning on account of the illness of his father.

Mr. Asa W. Battles left Saturday night for a two week's visit with her mother and other relatives in Portland.

Mrs. Charles Elkins attended the spring fashion opening at the Lynch & Roberts store in Redmond last week.

O. L. Babcock, Indian Agent on the Warm Springs Reservation, was in town a couple of days this week on agency business.

W. P. Myers and H. H. DeArmond, Bend attorneys, have been in Prineville this week in connection with the session of court.

Charles Houston of Roberts was a business visitor in Prineville Tuesday. His son Sumner Houston was also in town from Powell Butte.

Mr. and Mrs. Dick Bryant arrived yesterday for a visit with relatives in Prineville. They are located on the K. D. Huston ranch at Paulina.

Otto Gray and son Harold of Paulina are in the city this week. The former is attending court and the latter is visiting at the H. P. Belknap home.

L. J. Ogden, who recently sold his property in Central Oregon, is leaving this week to make his home near Crookston, Minn. He expects to live on a farm in that country.

Mrs. Alta Bowman carried off the honors at both the afternoon and evening bridge clubs during the last week. Mrs. Henry Howard entertained the afternoon club last Friday at her home, and Miss Louise Jordan was hostess to the evening club Tuesday night at the home of Mrs. Ted Carlson.

This past week has been bounty week in the clerk's office. Norman Evans, of Brothers, collected bounty on three coyotes, Olvin Thompson of Hampton Butte on one, Kenneth Thompson three, Frank J. Reif of Combs' Flat three coyotes and three bob cats, and Ira B. Higgins of Paulina brought in for bounty 23 coyotes and four bobcats.

WANTED—To buy, 150 range cows, or 100 steers. Write B. L. Harris 314-S 9th Ave., Yakima. 25-26.

STRAYED—One bay mare, 6 years Diamond brand left shoulder, about 1100 pounds. One bay gelding, 2 years old. These animals will be sold within 10 days, if not called for. Hamilton Stables. 25p.

ABOUT OCHOCO LANDS

The Ochoco Irrigated Farms are situated on the Ochoco project, all less than eight miles from Prineville, in the geographical center of Oregon.

This land was placed under irrigation by the creation of an irrigation district, under the state laws, in 1917, and received a fifty percent supply of water for the first time in 1920.

The canal system and storage reservoir has been entirely completed since the irrigation season opened in 1920, and in 1921 will for the first time have all the water necessary for the thorough irrigation of these lands.

All indications at this time point to a reservoir full of water long before the irrigation season opens this year.

A part of the lands have been under irrigation for a number of years and alfalfa and other profitable crops have been produced on parts of the district for many years.

The lower lands in the project are underlaid with artesian water, more than a dozen strong wells, none over 265 feet deep, being scattered along the bottoms.

The lands are practically all suitable for irrigation, and while rolling in some instances, have no rock and no hardpans, but have a soil and gravel covering at least to the depth of the artesian wells, or 265 feet, all of which appears to be of washed formation.

Rural mail delivery six days per week touches many of the tracts, telephone lines owned by the farmers are available for everyone. Two electric power lines pass through the center of the district, and the City of Prineville Railway passes through the project, with two sidings on the lands for the benefit of the farmers.

Six daily trains, with an occasional extra freight, have been running over this road for the past year and a half, carrying a heavy traffic to the connection with the Oregon Trunk at Prineville Junction.

The altitude is 2865 feet at Prineville, and is not more than 3050 at any point under the system.

Sunshine for about 325 days per year is the rule, and the temperature rarely gets below zero in winter and above 100 above in summer, although the district is subject to the same unusual extremes as all other parts of the world, as -34 degrees below zero, recorded in 1919, during December, clearly proves.

The lowest temperature this present winter to the end of January was 4.5 degrees above zero.

The project, which comprises 21,987.7 acres, is being watered by impounding the flow of Ochoco river five miles east of Prineville, the dam having a capacity of 47,000 acre feet, to which should be added the flow of McKay, Johnson and Lytle Creeks, and the excess flow of Ochoco, during the busy part of the irrigation season, which will flow into the dam while it is being drawn out.

Filings under the state laws provide title to all the above mentioned waters.

Area water surface at elevation of crest of dam, about 1180 acres.

Length of reservoir, 3.38 miles.

Length of shore line, 10 miles.

Storage capacity, 47,000 acre feet.

Ochoco Dam

Maximum height above river bed, 125 feet.

Volume, about 506,000 cubic yards.

Length along crest 1000 feet.

Width on top, 20 feet.

Thickness at base, up and down stream, 600 feet.

Spillway capacity, 10,000 cubic feet per second, normal; 20,000 cubic feet per second, extreme emergency.

Greatest recorded flow of Ochoco Creek, 1050 cubic feet per second.

The canal system, dam, water rights and all property included in the system are property of the land owners under the project, and were built and paid for by the issuance of \$1,350,000 six per cent bonds, some of which have been issued for three years with a maturity date of twenty years.

Interest on these bonds is paid by direct taxation, which also provides a sinking fund, which under no circumstances should make a greater tax payment than \$5 per acre annually, for the period mentioned, after which the land owners will own without debt, the entire system.

Control of the district and its affairs is provided by the election of a board of three directors who have absolute charge of the district's affairs.

Meopotamian Language.

The characters of the language of Mesopotamia, like the Egyptian, were originally hieroglyphic, and the several hundred groups of wedges by means of which the language was expressed in writing, may now be traced to the original hieroglyphic. One of the early picture-words was a crescent and star, and the picture was employed to express an incantation or exorcism, or anything capable of driving the evil spirit from the body of which it had taken possession.

Illumination of Manuscripts.

The art of painting manuscripts with miniatures and ornaments is an art of the most remote antiquity. The Egyptian papyri containing portions of the Ritual or "Book of the Dead," are ornamented with drawings and colored pictures. The Persians, Hindus and Chinese have illuminated manuscripts with great beauty, none of which compete with those of the western nations in antiquity.

Capri.

I wish you could have walked down to the Piccola Marina with me yesterday. It is down one of those wonderful roads hewn out of the side of the cliff, which one grows used to here, and I came back up the old steps. Such views! The sea in afternoon light, the Faraglioni rocks below, so often painted and photographed, the splendid cliffs of Capri to right and left! . . . —James M. Taylor (Letters).

Working of Pearl.

There are two kinds of shells used in the manufacture of small articles, the porcelaneous and the nacreous. The former are extremely hard and can be worked only with the apparatus used by the lapidary. The latter are more generally used and may be sawed, filed and turned with some facility. The pieces should be roughed out on a common grindstone. After turning they should be smoothed with pumice stone and water, and polished with rotten stone with sulphuric acid slightly diluted.

Had Warning Enough.

A West Norwood man who described himself as a poet told the magistrates that he had twice been knocked down by a motorcyclist. Our opinion is that he should have given up poetry when he was knocked down the first time. —London Punch.

Experiment with Air.

A man wished to measure the force that drives the sap upward in trees and shrubs. He cut a vine and tied a bladder over its end. In two hours the bladder was greatly distended, and inside of three hours it burst with a pop, so great was the force that drives sap upward.

FARMERS

I have the following implements at low prices to sell for cash, in order to close out--

| | Regular | Cash |
|---|---------|----------------------------|
| 3 OLIVER 12-inch CHILLED PLOWS, | \$22.00 | for \$15.00 |
| 1 OLIVER 16-inch CHILLED PLOW, | \$27.50 | for \$21.00 |
| THREE OLIVER 16-inch STEEL PLOW, | \$36.50 | for \$28.00 |
| ONE OLIVER SPRING TOOTH HARROW, 17 teeth | \$42.00 | for \$34.00 |
| ONE 25-tooth SECTION SYRACUSE HARROW | \$15.00 | for \$11.00 |
| ONE 30-tooth SECTION SYRACUSE HARROW | \$16.00 | for \$13.50 |
| ONE 14-tooth GARDEN CULTIVATOR | \$14.50 | for \$11.00 |
| ONE 7-tooth GARDEN CULTIVATOR | \$13.50 | for \$9.00 |
| ONE 14-foot WHEELBARROW ALFALFA SEEDER | 18.00 | for \$10.00 |
| ONE 3-inch MITCHELL REGULAR WAGON GEARS,..... | Special | \$110.00 |
| 200 rods 28-inch PAGE STEEL FENCE, | Special | at 60c per rod. |
