IT'S YOU!

If you want to have the kind of home town, like the kind of town you like, you needn't slip your clothes in a grip and start on a long, long hike; you'll only find what you left behind, for there's nothing that is really new. It's a knock at yourself when you knock your town; it isn't the town—it's you.

You wouldn't expect, if you mined your soil, bumper crops that you used to get; nor aught but runts from feeding that stunts; nor payment without a debt. One gets returns from what he earns—something must first be due. If your town doesn't pay, look at it this way: It isn't the town—it's you.

Real towns are not made by men

afraid that others will get ahead. When every one works and nobody shirks, you can raise a town from the dead, and if, while you make your personal stake, your neighbors can make one, too, your town will be what you want it to be; it isn't the town—it's you. —Anonymous

BUILD NOW!

THERE is considerable argument, pro and con, relative to the advisability of building at this time. To those who have looked into the situation and carefully studied the facts, there is only one answer to the question. That is--**BUILD NOW!**

Not since the war have building materials descended to such a low price level as they are to-day. There is no shortage of any commodity—Lumber, Brick, etc.—which would check the determination of any prospective builder. Even labor realizes the importance of this reconstruction period and has allowed a readjustment of its wages that are of utmost benefit to those who seek to build a home.

If you need help to finance it, we will guarantee a loan.

Get away from the time-worn custom of paying rent. Use that money on a home of your own. Come in and talk the topic over with us to-day. We are prepared to give plans of a home that will be within your means and can furnish estimates on the cost thereof, with no expense to you whatsoever.

A Novel Diet.
A correspondent sends us a capital Spoonerism, one that is entirely new to us. It appears that a young clergyman was temporarily filling a city pulpit and in his prayer he said: "May the brother who ministers to this flock be filled full of fresh veal and new rigor."
Tree Marvelously Preserved.
Discovery has been made in the Holman iron mine near Taconite, Minn., not far from the source of the Mississippi river, of the trunk and branches of a prehistoric tree in an excellent state of preservation, with the cones on it. The tree is not petrified and the wood is perfectly sound.
