Prineville Defeats Culver.
 In the second game this season for the C. C. H. S., played last Saturday at the ball park, with Culver High School, the local team came out victorious with a score of 11 to 7.

Having a better field on which to play, the team showed an improvement in their playing over the game played at Madras the week before.

The local line-up is as follows, Smith p.; Chambers, c.; McKenzie, ss.; Laughlin, fb.; Mark O'Kelly, sb.; Mills, lb.; Wright, lf.; Leuelling, cf.; Marion O'Kelly, rf.

Next Friday afternoon the team goes to Bend to play.

 As a result of the tennis try-out, Oden Mills will represent Prineville in singles, while Raymond Smith and Chester McKenzie will take doubles. A preliminary was to have been held here with Bend last Saturday, but the Bend players failed to appear.

In girls tennis, Veva Bolter will play singles; also playing doubles with Lela Laughlin. All the schools not having entered girls in tennis, no preliminaries are necessary in this division before going to Redmond for the finals.

Senion Program
 The Class of '21 are preparing a big program before graduation. On May 18th, class night will be held. At this time the Class Will, Class Poem, and Class Prophecy will be held. Instead of the usual manner of holding this part of the program, the Seniors plan on giving it thru the medium of a gypsy camp. This will be quite a novelty, and will prove a convenient means of disposing of that phase of the program that is usually held on Commencement night, and which takes away from the dignity of such an occasion. In addition a short play is to be given.

On Commencement Night, all the music is to be furnished by others than the seniors. The Principal speaker for this night is Rev. W. L. Van Nuys.

In the Inter-society track meet held at the Fair Grounds, last Friday afternoon, the Alpha Literary Society by 17 points. Before the meet took place, the Ochoconians had the result "doped out" in their favor, but the Alphas succeeded in turning the tables and beat their opponents by a score of 63 to 44.

Wright, for the Alphas, was high score man of the meet, with 24 points, and Rannels, Ochoconian, was second with 15 points.

The contest between the two societies also served the purpose of a tryout to determine who should represent the Crook County High School at Redmond in the Track Meet that is to take place on May 14. Entries for the discus was not decided upon at the tryout last Friday, but will be determined before the team goes to Redmond.

STEIN OPENING SATURDAY
 J. A. Stein and Son will open their men's wearing apparel store in the location formerly occupied by Johnson's Sweet Shop in the Kamstra building, next Saturday.

Men's furnishings of all kinds will be carried in stock at reasonable prices. Later in the year, ladies wearing apparel will be added, as well as a general line of dry goods.

The interior of the sales room has been remodeled for the new business counters and shelves being added, as well as the display window being equipped with an attractive background. All interior fixtures were made by Mike Trapman.

The Steins need no introduction to local people, as they have been in business in this vicinity for a long time.

TRY-OUT VERY SUCCESSFUL
 The public school declamatory tryout held last Friday afternoon, was very successful from all standpoints, each and every child showing much talent and careful preparation, and the judges confessed a hard time picking the winners.

In division one Billy Ireland took first, Veva Shattuck, second. In Division two, Helen O'Neil first, Howard Kidwell, second, division three, Frances Saunders, first, Edna O'Neil second, division four, Frances Kidwell, first, Kathrine Elkins, second.

Darrel Wilhoit is the only entry thus far to compete against the Prineville winners for the county honors. He will speak against Helen O'Neil in division two.

Stanley Balfour made a business trip to Bend on Tuesday, taking a load of Prineville people with him.

AN OPEN LETTER TO PRINEVILLE PEOPLE

Have you ever stopped to consider the silent eloquence of the empty pew. It speaks of your duty and privilege to share with us the inspiration and delight of the church service, the music, the singing, the association and the sermon which helped others and sent them out a better man or woman might just as well have thrilled you also. If you made it your business to fill an empty pew it would yield a net gain to all. It would improve the sermon which can never be better than the congregation. No minister can fill the pulpit of a half filled church. That empty pew acts as a short circuit. He cannot throw the current of interest across it.

Every empty pew could be filled every Sunday without the expenditure of a single extra cent and with infinite profit.

Sermon, music, warmth, are all supplied whatever the attendance. As a matter of economics, success here is certainly cheap, failure is expensive. There is nothing in the church so extravagant as the empty pew.

It costs as much to preach to wood as folks, and pays nothing back. Fill the pew, and you have not only given but you have gained.

Now the sole cost to you of making the services more inspiring, the music more charming, the fellowship wider, the atmosphere more congenial, is a little extra energy on your part to see that the empty pew is filled.

Sincerely yours,
 M. R. GALLAHER.

WOULDN'T YOU

If I should sff up late at night
 Beneath the candle's gleam,
 If I should work with all my might
 A-doping out a scheme,
 A plan to make my business grow,
 A thought so crisp and new
 I wanted all the town to know,
 I'd print it—wouldn't you?

And if I wanted folks to read
 My pamphlet, card or book,
 If I expected them to heed
 And give a second look,
 I wouldn't let the matter rest
 With Something-that-will-do,
 In other words, I'd want the BEST
 IN PRINTING—Wouldnt you?

Accurate Balances.
 The British mint contains some wonderfully accurate and sensitive balances. In one of the rooms there are two large pair of scales kept in glass cases, suspended on pulleys. The pair used for weighing out postage stamp, but even more sensitive is the balance one used for gold. It will show the difference in weight between two absolutely identical pieces of paper, one of which contains a signature and the other does not.

October—A Definition.

Riley's poems had been read to the children on numerous occasions until they were familiar with many of them, but it took four-year-old Robert to show what a word painter the Hoosier poet really was. While out walking with his mother in the early fall he kicked up the leaves to his heart's content, then turning to her, he said: "I tell you, mother, 'Old October knocks me out.'"

NEVER HAPPENED IN PRINEVILLE

Every town and country has its knockers, and it is a sure thing that this community does not escape that variety of pests. A prospective land buyer while in town this week was given a severe jolt by a local chronic

croaker who belittled the country in general, not knowing that he was injuring himself as well as others who are desirous of building up a country. Mr. Knocker, you do not belong in this town. Get the h—1 out of here. —Crane American.

To the Workers of Oregon

By Otto R. Hartwig
 President, Oregon State Federation of Labor

DURING these days of reconstruction and uncertainties, it becomes more than ever necessary for the citizens of Oregon to patronize the industries of Oregon by buying such products as are made in this state.

Industries of Oregon cannot be expected to grow and furnish continuous satisfactory employment to the workers of Oregon if we spend our money for products manufactured elsewhere.

It is a well known fact that on the whole, Oregon workers are receiving better wages and working under more satisfactory conditions than is true of the workers in many of the eastern centers where a good deal of the products that the careless purchaser buys comes from. It is the height of stupidity and selfishness to demand decent working conditions from the Oregon employers and then turn around and use the money earned in Oregon to buy products made under sweat-shop conditions that exist in many of the eastern and middle states.

Let's buy Oregon Products!
