

### Is Your Money Supporting the Government?

At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States government. Would you like to do your share and help, by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system, where it will always be ready for you when wanted.

#### Thatched Roofs Last Long.

Thatched roofs in Holland are exceedingly durable, and some of the oldest buildings still have the original roof in place doing good service. There are many instances of a thatched roof 200 years old.

#### His B. V. D. Dress.

Mother sent her five-year-old son upstairs to get a clean dress for his little baby brother. He returned shortly with a cross-barred dimity one, saying: "Here's his B. V. D. dress; is this all right, mother?"

#### Not "Playing the Game."

Too many men will play the game their own way or not play at all. Such men are either suffering from egotism or are not inclined to play fair. Especially is this the case in the industrial world. Yet no man is necessary in everybody's game.

#### Usefulness of Cedar Chests.

Cedar is used in various forms for repelling insects. The chips from pencil factories are distilled for their oil or ground up and sold for use in protecting rugs and woolen garments from moths. The resistance to moths of chests made from Tennessee red cedar and Spanish cedar is widely advertised. But the resistance to insect pests is due not so much to the cedar odor as to the fact that such chests are well made with tight covers and are thus physically exclusive.

#### The Impossible.

A Kansas judge says a minimum length of courtship should be fixed by law to prevent hasty marriages. The judge may know a lot about law and the power of the courts and what ought to be done to regulate society, but it's a cinch he doesn't know much about the impossibility of preventing from getting married two people who have made up their minds to marry.

#### Take Time to Enjoy Walk.

One fault in those who walk for pleasure is hurry. Why hasten as if to catch a car? Why strive to be first at the goal—and miss the joy of the eye? Walk leisurely, not dawdling, but steadily, and thus enjoy the quiet and the change of environment. —Detroit Free Press.

#### How to Succeed.

Orison Swett Marsden, well known as an apostle of the cult of optimism, cheerfulness and business efficiency, gives the following formula for success: "Exactly in proportion to the degree in which you increase your self confidence by the affirmation of what you are determined to be and to do, your ability will increase."
