
The Cornett Co. Idea

TO DO THE RIGHT Thing at the right time, in the right way; to do some things better than they were ever done before; to eliminate errors; to know both sides of the question; to be courteous; to be an example; to work for the love of the work; to anticipate requirements; to develop resources and to recognize no impediments. To master circumstances and to act from reason rather than rule. To be satisfied with nothing short of perfection.
