Gathering Poison.

As many as 20,000 serpents had to be captured by a single explorer in order to obtain enough venom of the species to make a proper analysis of the poison. Similarly, the examination of bee poison means the capture of 200,000 bees and the isolation of their venomous juices.

No Right to Unpleasant Moods.

Many mean things are done in the family, for which moods are put forward as an excuse, when the moods themselves are the most inexcusable things of all. A man or woman in tolerable health has no moral right to indulge in an unpleasant mood.—J. G. Holland.
