POWELL BUTTE PROVES TO BE LIVE WIRE COMMUNITY

The big June Ball given by the Powell Butte Co-Operative Association at the Community Hall, Friday evening, June 24th, was another one of those enjoyable evenings for the dancers. A large crowd attended from Prineville.

The music was well up to the standard and full of pep. Refreshments served at midnight consisted of generous portions of cake, strawberries and shortcake, and were enjoyed by all.

The dances are becoming popular, and will soon necessitate the enlargement of the Community Hall. Improvements are being planned, which the completion of the Mackenzie Highway, will make this Hall the popular center of Central Oregon.

The proceeds from the dance are used in the various activities of the Powell Butte Co-Operative Association, which is the commercial organization of that Community.

The midsummer Ball will take place on the eve of July 15, and will have added features to make it the event of the summer season. Further announcements will appear before the event takes place.

BUILDING BEING FINISHED AT THE STATE FARM

Foreman W. E. Roberts has just about completed the erection of four of the small buildings at the state farm, the poultry house, brooder house, hog house and machinery shed all practically ready for paint.

The barn and dwelling are all supplied with concrete foundations

MODERN CRANKCASE CLEANING SERVICE

We use CALOL FLUSHING OIL AND ZEROLENE

and form a model farm group. The farm will be under full operation by fall, and will be of great value to this part of the state as a demonstration of what can be done with proper buildings and farming methods.

WANTED—Good farm hand, a man who understands irrigation. Three months work or more to right party. Address W. E. Roberts, state farm, Prineville, Oregon, or inquire at Journal office. **tlc**

OBITUARY

Bozeman, (Mont.), Daily Chronicle—The body of Mrs. Lillian Walrath Towner, wife of Frank S. Towner, who died Sunday at Prineville, Oregon, is expected in Bozeman on the Northern Pacific train at 2:40 this afternoon, and funeral services will be held Thursday morning at 10:30 at the home of her mother, Mrs. Harlet Walrath, 302 Third avenue north. Interment will be in the Bozeman cemetery.

Deceased was born in St. Lawrence County, New York, November 25, 1872. When she was about six years old she moved with her parents to Michigan, and she was educated at Ferris Institute, Big Rapids, Michigan, becoming teacher. She came with her parents Mr. and Mrs. Amos Walrath, to the Gallatin Valley in the fall of 1895, and they located on a homestead near the present town of Amsterdam. Miss Walrath was a teacher in the county for a time, and she was married to Orlando Foley, a daughter, Reetha, from this union surviving the mother.

On December 13, 1913, Mrs. Foley was married to Frank S. Towner, and they have since resided in Prineville, Oregon, where she died after a brief illness from pneumonia. She is survived by her mother, Mrs. Harlet Walrath, of Bozeman, by one brother, A. J. Walrath, and one sister, Miss Alice Walrath, both of this city.

Puritan Custom Also Chinese.
The Puritans of old England and New England were unconsciously imitating the Chinese when they called their children Faith, Mercy, Hope, Prudence, Perseverance, Temperance, Charity, Love, Glory and Felicity. All these names have been used in China for 3,000 years.

Mary's Little Lamb.
Regarding the authorship of "Mary's Little Lamb," a recent number of a London magazine says: "There have been many claimants to the distinction, but most of the evidence seems to show that the real author was Mrs. Sarah Buell Hale, who for a number of years edited the Lady's Magazine, the leading journal of its kind for almost half a century in the United States. She was the author of many popular poems for children, and her son, Horatio Hale, stated that the poem was first published by his mother in 1830."

Question About Cancer.
That cancer appears by preference at the point of lowest resistance is well known, although surgeons speak simply of precancerous lesions or areas of irritation, says the Medical Record. But when they say that the growth results from trauma or chronic irritation alone they go too far—else every excessive smoker would have cancer.

How Rainfall is Recorded.
The government gauge for recording rainfall consists of a cylinder two feet high, eight inches in diameter, upon which a funnel of the same diameter fits. Within that is a brass cylinder of the same height, the diameter a little over two and one-half inches. In it is a measuring tube, the area of which compared with the area of the funnel is as ten to one, so that when a one-hundredth of an inch falls in the funnel it becomes one-tenth of an inch in the measuring tube.

Indian Name of Quiet Old City.
The Indians called a strait "Kebec," and the name was given to the site of the present city of Quebec from the peculiar configuration of the St. Lawrence river at that point, for the river there grows narrow and from its deep waters rises the bold height on which the ancient city stands. The French-Canadian still pronounces the name Kebec.

Merchandising Road to Millions.
A careful statistician recently made a list of 4,047 American millionaires and what each made his money in. The result showed that general merchandising is the best road to millions in the United States, and presumably everywhere else, too.

Why They Are Blind.
The Lancet states that from one-quarter to one-third of the inmates of institutions for the blind are there because their eyes were not adequately treated when they were born.

Washing Bottles.
Put crushed egg shells in small bits or a few carpet tacks or a small quantity of gun shot into a bottle. Then fill one-half full of strong soap suds; shake thoroughly. Then rinse in clear water and the bottle will be cleansed.

Bachelors and Children.
According to one eminent literary authority the best descriptions of children and of child life have been written by bachelors.

Prince Albert's a new note in the joys of rolling 'em!

Talking about rolling your own cigarettes, we'll tell you right here that Prince Albert tobacco has 'em all lashed to the mast!

You've got a handful-of-happiness coming your direction when you pal it with P. A. and the makin's papers! For Prince Albert is not only delightful to your taste and pleasing in its refreshing aroma, but our exclusive patented process frees it from bite and parch!

And, for a fact, rolling up Prince Albert is mighty easy! P. A. is crimp cut and stays put and you whisk it into shape before you can count three! And, the next instant you're puffing away to beat the band!

Prince Albert is so good that it has led four men to smoke jimmy pipes where one was smoked before! It's the greatest old buddy-smoke that ever found its way into a pipe or cigarette!

Goodrich 30x3 1/2—five Points of Excellence

1. One quality
2. Extra size
3. Specially designed
4. Anti-skid
5. Fair price

The name of Goodrich on a tire means one quality only. Like all other Goodrich tires this 30x3 1/2 is one quality. This standard is a fixed principle, and that quality must be the best our resources, skill and experience can produce.
