Dr. and Ms. Fox returned home Wednesday to Prineville where he will try and rest up a few days. Dr. Edwards is attending him.

TO PREVENT CREEPING RIMS

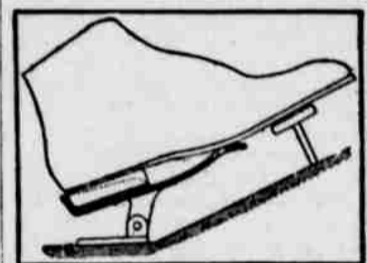

Excellent Plan to Tighten Lugs by Dropping Thereby Avoiding Too Much on One Side.

When the shoulders on the wheel designed to hold the demountable rim become worn, the rim and its tire will creep on the wheel. Naturally this makes the valve stem project at an acute angle and if continued long enough may cut it off. If the valve stem is held firmly by means of a cap the strain falls upon the lower portion of the stem and that part of the inner tube which surrounds it. In this connection it is well to call attention to the need for tightening the rim lugs by degrees. If they are fully tightened one after the other and all the way around the wheel there is apt to be too much space on one side of the wheel and too little on the other. The proper way is to tighten one lug and then the one nearly opposite it and so on.

FOOT COMFORT FOR DRIVERS

Device Gives Smooth Action on Accelerator and Prevents Choking of Engine on Bad Roads.

A readily adjustable heel support for the foot which operates the accelerator is constructed so that it may be

moved forward or backward. Its use is said to give a smooth action on the accelerator and prevent choking of the engine on rough roads, wearing of the heel of one's shoe, wearing holes in the floor mat and wearying of the leg.

LOCATING SQUEAK IN SPRING

All Doubt Can Be Removed by Running Car Over Smooth Road With Ruts in It.

Most everyone knows the noise of a squeaky spring, remarks a contributor of American Motorist.

"But if you doubt whether it actually is that," he continues, "run your car over a smooth road which has a few small holes now and then. Drive over these holes at the rate of about 15 miles an hour. If your car squeaks only when you go over the holes, and rides silent while on the smooth parts, you may be sure that your springs need oiling."

REMOVAL OF TIGHT WHEELS

Simple but Often Effective Expedient Is to Loosen Nut and Drive Car Short Distance.

Sometimes one needs to remove a stuck wheel on an occasion when no wheel puller is available. As a simple but often effective expedient, jack up the wheel in question, put the car in gear, and after removing nut, key, etc., shake the wheel back and forth, pulling at the same time. If this does not work replace the key, drive car a short distance. This method will loosen a wheel even when a puller won't budge it.

VALVES ARE NOT REVERSIBLE

Can Be Inlet on Engine Operated by Piston's Suction Downward—Exhaust is Mechanical.

An automobile valve cannot be either an inlet or an exhaust. It can be an inlet only on the engine, operated by the piston's suction downward. The exhaust valve must be forced open against pressure of the burned gases in the cylinder and therefore must be mechanically operated.

Regiment Proud of Long Service.

The Third Infantry, the oldest regiment of our army, which dates from 1784, has developed its arms to show its early service in Mexico. One interesting device used by this regiment is a baton crossed with an oldtime bayonet back of the shield. The baton which figures prominently in the regiment's history was made from the flagstaff of the capitol of the City of Mexico and was taken when the city was captured. It is still one of the most highly prized possessions of the regiment.

The Fourth Dimension.

The fourth dimension is merely a mathematical speculation. It is assumed to be the property of matter that should be to solids as solids are to planes. Mathematical investigations are made on the assumption of an indefinite number of dimensions.

Custom Long Kept Up.

Up to a few years ago a horse, saddled and bridled, stood in the stables of the Vivians (Vivian, as it was spelled in the old days) of Trelowarren (Cornwall, Eng.) ready for use night and day. For 900 years horses had succeeded each other in commemoration of the escape on horseback of a Vivian who lived in the days of the memorable flood which submerged the land, some say in 1014 and others in 1059.

ALFALFA ITEMS

A special meeting of the Farm Bureau was held Wednesday evening. Some very special matters were up for discussion.

Mr. Janes returned to Portland after an extended visit with his son Milton and family.

Henry Fowler of the Bend Bulletin staff was a Sunday visitor at the Crows Nest.

Tom Dealy was summoned Friday to the bedside of his father who is seriously ill at Prineville.

Mrs. Barnes and sons, Glenn and Farrell of Prineville, Mr. and Mrs. Edger Barnes and little Robert of Culver spent Sunday at the Shulta ranch.

Mr and Mrs. Donn of Bend are now permanently located on their homestead at Alfalfa.

John Hohnstein and Earl Brant made a trip to Redmond Friday.

Mr. and Mrs. Dean Covert returned to the ranch Friday, after a few week's sojourn in Portland.

Mr. and Mrs. Ralph Smock of the community grocery store made a business trip to Bend Monday.

FOR SALE—Binder, good as new, has been used to cut 50 acres. Will sell on terms. H. F. Powell. 42-43c.

NOTICE TO CREDITORS

Notice is hereby given by the undersigned, the administratrix of the estate of Robert Marion Templeton, deceased, to all creditors of said deceased and to all persons having claims against said estate to present the same, with the proper vouchers, to the undersigned, at the office of M. R. Elliott in Prineville, Oregon, within six months from the date of the first publication of this notice. Dated and published the first time July 7, 1921.

Jennie M. Arnold Administratrix of the estate of Robert Marion Templeton, Deceased. 42-46c

NOTICE OF SHERIFF'S SALE ON EXECUTION

Notice is hereby given by the undersigned that by virtue of execution and order of sale issued out of the Circuit Court of the State of Oregon for Crook County, on the 6th day of July, 1921, and to me directed in the suit of Annie Malling Walker vs. H. H. Cofoid et al, I will on the 6th day of August, 1921, at 10 o'clock in the forenoon at the front door of the County Court House in Prineville, Oregon, sell at public auction to the highest bidder for cash subject to confirmation by the court the following described premises, to-wit: The west half of the northeast quarter, the southeast quarter of the southwest quarter and the southeast quarter of section sixteen in township fourteen south of range fifteen east of the Willamette Meridian in Oregon.

Dated this 7th day of July, 1921.

OLIE H. OLSON Sheriff of Crook County.

CARD OF THANKS

We wish to take this means to thank all those who in any way helped during the illness, death and funeral of our mother, "Grandma" Sprays. For the flowers, the music, the tenderly spoken words of sympathy, and those who carefully planned for us; we thank you all.

Mr. and Mrs. C. M. Charlton and family

PORTLAND WINS

IN THE MORNING

Tuesday morning the two losing teams of the previous games, Portland and Antelope, played and Portland won by 8 to 0.

Portland swamped their opponents in the second inning by tramping in seven runs. After the second a real game of ball was played by both teams.

Riggs, a Portland man, pitched for Antelope. He showed good work but had no support when he needed it most. Although luck was against him in the second inning he came back stronger than ever during the remainder of the game.

RHE
Portland 8 6 3
Antelope 0 3 7
Batteries—Portland, Larson and Poff.
Antelope, Riggs and Bonney.

PORTLAND LOSES TO

MAUPIN 6 TO 3

The Portland Woolen Mills evidently found what they were looking for when they played Maupin Monday afternoon and were defeated by a score 6 to 3. When Portland came up to play, some one in the team made the remark that they hoped they would find a team that could play. By the end of the game all appearances indicated that they found what they wanted.

Morrow, the Maupin pitcher, allowed eight hits but struck out nine Portland batters, while only two Maupin boys struck out.

RHE
Portland 3 8 2
Maupin 6 6 1
Batteries—Portland: Breece, Larson and Golden. Maupin: Morrow and Rentick.

A Series of Human Interest Talks on Insurance

What is Legal Reserve Life Insurance?

I have been asked this question many times.

Some think Legal Reserve life insurance is a gamble where you must die if you are to win.

What is your aim in life? To create an estate for yourself and family, isn't it?

When you buy a policy from Oregon Life you buy an interest in a group of mortgages and bonds on the installment plan.

Mortality tables scientifically foretell how many are going to die and how many are going to live.

This enables Oregon Life to know exactly how much each must pay in order to set aside the funds—invested in bonds and mortgages—to pay a given contract. These funds are protected by state laws and must be held in reserve to mature your policy.

Only by dealing with groups are we able to do this. We have always paid in full.

Think it over and talk with

T. L. QUINN
The Oregon Life Man
PRINEVILLE, OREGON

Woodchuck Living Room.

The burrow of a woodchuck at first descends obliquely into the earth; it then passes nearly horizontally for several feet, rises moderately for the last half of its length, to terminate in quite a spacious and round chamber which constitutes the "living-room" of the entire family, says the American Forestry Magazine. Such a burrow may be at least thirty feet in length—so long that one never dreams of digging a hole.

Put It Up to the Teacher.

It was Jimmy's first day in school and he appeared to be very much interested and was very attentive to everything the teacher said. In one class the teacher asked Jimmy how many fingers he had. The little fellow stuck out his fingers and said to the teacher: "There they are: count 'em."

World's Greatest Runners.

For speed and stamina, we do not believe there are any runners in the world capable of beating the Tarahumare Indians, of whom about 15,000 survive in Mexico. They are in great demand as government couriers, for they are said to be able to cover 170 miles a day on foot, and have been known to run 600 miles in five days.

Woman Started First Daily Paper.

The first daily paper in the world is said to have been established by a woman, Miss Elizabeth Mallet, in London, March, 1702. She polished and edited the Daily Courant, which she founded "for the purpose of doing greater justice to women in general through the elimination of impertinences which the ordinary papers contain."

Then and Now.

The old-fashioned man who used to retire with a few hundred dollars now has a son who spends a few hundred dollars each day before he retires.

During the Hay Harvest we will be glad to extend every accommodation to our country friends. If we are not in the store when you need anything, feel at liberty to call

BLACK 691

and we will cheerfully supply your needs in any kind of Men's Furnishings.
