

Columbia University.

University Park and Portsmouth.
Mr. Young and family have moved to Arbor Lodge.

Mr. Canfield is stopping at the Jensen boarding house.

Mr. and Mrs. Mulden have left Club Hall and gone to the city.

Mrs. Wheeler leaves the Park for her home this week, where she intends spending the summer months.

The shingle mill was closed down for a week in order to install new and heavier timbers, and is now running in first-class shape.

Mr. and Mrs. VanNest and children are comfortably installed in Mr. Gray's house, where they have a fine collection of pictures. Mrs. VanNest is quite an artist.

Quite a number of Portland people are coming out to the Park for the summer, owing to the high rents in town—and some say they never will leave this beautiful suburb.

Miss E. M. Wohlforth, 749 Johnson street, Portland Parlor Millinery. Up-to-date work at your home with old or new materials. References given. Phone main 6478.

Residents of the Park are enthusiastic over the reported sale of the railroad to an eastern company; they had commenced to believe they never would be accommodated in a proper way, but, now, if the report is true, we may look for big things in the near future.

We are in hopes that the city engineer will not show undue favoritism when he comes to inspect our new sidewalks on Fisk street. Some residents are doing their own work, and doing it so much cheaper, they claim, than the city can do it, that quite naturally it looks rather cheap and amateurish in some places. When the people of the Park demanded a sidewalk, they wanted a good one, and the majority of Fisk street property-holders are willing to pay for it.

COLUMBIA UNIVERSITY ITEMS.

The '05 pins and caps of the academic graduates are quite nifty. The fair grounds viewed from the University bluff are a thing of beauty—especially when illuminated.

The Junior Literary society held a very enjoyable meeting Tuesday. The cornet solo by Eddie Nordhoff was very well received.

The baseball team defeated the high school lads on May 17 by the score of seven to one. Mangold received right-angled support and had his opponents completely at his mercy.

The May number of the Columbia has a very acceptable new dress. The stories are up to the usual standard. Many thanks are due the athletic editor for the Columbia track team records.

The best players at handball in the different divisions are: faculty—F. Gallagher four, Prof. Tierney; boards—A. Weber and F. Weber; day scholars—T. Monks, and R. Case; juniors—S. Leavy and E. Wilkinson.

On Wednesday the team met the soldiers of Vancouver on the barack grounds in a four to one complete. Wilkinson had his opponents completely at his mercy. The batting by both teams was heavy but not always opportune.

The second team high school defeated a pick-up team by the score of seven to two. The features of the game were Meamy's pitching for Columbia, having 15 strike-outs to his credit, and Spenser's playing at short, missing six easy chances.

Tomorrow the track team tries its conclusions with the boys of Pacific College, Newberg. We are conceded first place in all events except the mile run. Kelley, Columbia's star man, will enter in a number of events and is easily the winner of every event he enters. Walsh, Weber, Rae, Quinn and Meamy ought to capture points. Quinn is expected to land the weight events. This will be the last meet for the season.

In a very interesting and well-played ball game the Juniors defeated the second Multnomah Juniors by the score of seven to five. The rains compelled the youngsters to battle in the gymnasium. The mighty Skeer was the star artist for the wearers of the gold and blue, and kept his opponents constantly guessing. Douglas, of Multnomah, pitched a very clever game—but weakened at the close of the contest. O'Brien, at second, was the star player of the game, and his batting was very good. Leavy, at third, was somewhat off color.

Score by innings:
Columbia Juniors 0 3 0 1 2 0 X
Multnomah Juniors 1 0 2 1 0 1 0 0 0

Friday the team sojourned to Salem where defeat was administered to the Willamette university, in one of the best games played in the capital city, by the score of four to three. Wilkinson pitched for Columbia and was very effective—taking eleven scalps as the reward of his day's labor. Jennan pitched for Willamette and kept the boys of the purple and white constantly on the rack. On Saturday, the two teams again met and Columbia met defeat for the first time this year. The support given Mangold could not have been worse and the result was that Willamette piled up eleven runs against him; while the best

the Columbia boys could do was to send five men across the plate. It is more than probable that a third game will be played in Portland to decide the state intercollegiate championship. Hinkle's severe injury in the first inning in Saturday's game blighted the hopes of Columbia and the infield was far below its brilliant record. Errors and the umpire lost our first game.

Will Get Advertising.

There are several houses in this vicinity that have been rented by parties who are coming to Portland to visit the fair and have a general outing—and there will be many demands for small cottages ere the summer is over.

This will be a splendid opportunity for Saint Johns to forge to the front as a city of homes—where expenses may be kept at an economical figure, and where there shall be found no holdup prices. While there will be cases of exorbitant rates in the northwest this city can get many bouquets by being conservative in all prices asked—and, no doubt, gain residents who will be permanent.

It is to the interest of the entire community to put the best foot forward and show the visitors that we have many advantages not possessed elsewhere. Low carfare and frequent and convenient service will bring a host of "fair" visitors to us; and it is possible that many may be induced to invest and build homes.

If every resident will consider himself a committee to push along the work of encouraging visitors by best serving them Saint Johns will merit and receive a vast amount of paying advertising.

Will Visit Schools.

On the afternoon of Monday, May 29, eight members of the Grand Army of the Republic, will visit the schools of Saint Johns. These will be Joseph Sommer, N. L. Smith, H. B. Thompson, Philip Brady, D. J. Horsman, T. C. Ristig, R. A. Rowly and J. L. Wells.

At two o'clock the first, second and third grades will render the following program:

- 1—Salute.
- 2—Song by First grade.
- 3—What Can We Do?
- 4—Flower Song.
- 5—Recitation—"Comrades At Rest."

At the same time the fourth, fifth, sixth, seventh and eighth grades will give the following program:

- 1—Exercise—"Our Flag."
- 2—Song—"Review of Veterans."
- 3—"United Country"—Four girls in costume.
- 4—Poem—"The Sleepers."

A general invitation is extended to all those interested to be present upon this occasion.

Will Use Brick.

In a very few weeks our people will have an opportunity to use local made pressed brick of good quality in buildings—brick made here in Saint Johns. The opening of the first kiln is very anxiously awaited—both by the promoters of the enterprise and the general public.

High prices have heretofore made the use of brick prohibitive—and builders have used lumber exclusively. It is believed that the brick now to be turned out can be furnished at a rate that will induce their general use—and it must be remembered that every brick building in a block means a lower insurance rate for that block. The first brick turned out will be used in the construction of the new bank building—and the work at the brick plant is being pushed as rapidly as possible.

Safe is Here.

The splendid manganese safe for the Peninsula bank arrived on Wednesday and is now in place in the temporary office. It was the intention of this bank to open for business on Thursday, June 1, but as that is a holiday the commencement will be postponed. Then it would never do to open a good business plant on a Friday—and to open it on Saturday would seem sort of lazy.

Besides all that it is a question whether the wood finishing will be solidly dry by the date at first contemplated. The woodwork is very handsome and will finish nicely if plenty of time be allowed. Beyond all cavil the bank will doubtless open for business on Monday, June 5—but a large announcement in these columns next week will be authentic and definite.

Met With Accident.

This morning about eight-thirty while working on a wheeler in grading Jersey street (north) Verg Hanna was caught in the trip and narrowly escaped a couple broken legs.

Mr. Hanna is a young man not tall enough and not heavy enough to handle one of those wheelers without risk. He was thrown in between the trip and crossbar, and both legs between the knee and ankle were badly contused and skinned.

Dr. MacLachlan was at once summoned to the home of Pascal Hill, where the injured man was promptly carried. The injuries will not be long in healing.

Just what you need to make you better: some of that fine pastry at the Saint Johns Bakery—opposite the Review office.

Our Local Grist

Only the best is sold by the Saint Johns Bakery.

Now that everybody seems satisfied let's get together and push along.

A woman who can get dinner with only green wood to burn figures she is sure of heaven.

F. C. Messenger, of Vancouver, is grading his lot on Burlington street and will erect a residence thereon.

Anyway, it was a "wet" town last Monday—and the covered sidewalks were crowded with people telling why.

A. W. Dickson was over from University Park on Tuesday—and was a welcome caller at THE REVIEW printery.

Mr. and Mrs. Z. M. Knight and family spent Sunday in Portland, guests of Mrs. Knight's brother, J. C. Windle, and wife.

Mr. and Mrs. Willis Moxon are arranging to spend a few months at Seaside. Mr. Moxon owns property in that sandy community.

This office turns out only one class of job work—the good, ahead-of-the-minute kind. Let us do your next job—and you will be pleased.

Rev. H. L. Pratt, presiding elder of the Evangelical church, of Portland, was the guest of Rev. and Mrs. E. E. McVicker Wednesday.

Memorial services will be held at the Methodist church next Sunday morning at eleven o'clock. The address will be given by Rev. C. H. Campbell.

Potter & Goold, the hardware men, sold Pascal Hill three road scrapers the first of the week for use in excavating on the road work now being performed by Mr. Hill.

Remember: THE REVIEW desires the help of every citizen of the town to aid in issuing a lively local paper. Every individual knows some bit of interesting news. Come in and tell it.

E. W. Harbaugh, formerly of a Loveland, Colorado, paper—but now representing the Pacific Lumberman, of Seattle, was in town on Thursday in the interests of his paper.

Dr. W. E. Hartel, graduate of the North Pacific Dental college, will open an office in the Freedman building here, and do all kinds of dental work. He will be here Monday, May 29.

A new ad this week appears for Potter & Goold. If our advertisers will really and carefully test the merits of THE REVIEW we shall have to enlarge the paper sooner than we had intended.

At the Evangelical church Rev. G. L. Tufts, of Portland, gave a very entertaining talk Sunday evening upon the advantages possessed by an anti-saloon town. A large audience was present.

Some time ago a collection was made to defray expenses of collecting and making an exhibit by the schools of Saint Johns. A complete report of this matter will appear in next week's issue of THE REVIEW.

It was voted at the school meeting Wednesday evening to devote the balance of the cash left from the school exhibit fund to the school library fund. The sum of \$110 was raised—and the balance remaining is \$24.37.

It was expected that several officials of the Knights of Pythias fraternity from Portland would be in Saint Johns last Sunday to confer with local brethren regarding the formation of a lodge here. The meeting was postponed.

There was a tremendous rush at the "opening" of the Saint Johns pharmacy Tuesday evening—when free soda and free ice cream was dispensed to every caller. The frequent small boy did excellent service by the multiplicity of his visits—but none were refused.

THE REVIEW spent all day Monday in installing a splendid 10x15 job press of the best model and a paper cutter of sufficient size to cut all ordinary brands of paper. Just as rapidly as possible new apparatus and type will be added. THE REVIEW improved, and all will be up-to-the-minute.

Conductor Monohan suffered a badly injured arm last Thursday—a swiftly revolving brakehandle coming in contact with it. Mr. Monohan was on car 196 when the airbrakes gave out and refused to do duty—and the action of the handbrake was unexpected. He had an X-ray of the bruise and found no bones broken—but suffered much pain.

The Congregational people have erected a large tabernacle one block east of the Evangelical church, where they will hold services while building their church. The first service will be held Sunday evening next, beginning at seven-forty-five. Rev. Upshaw will preach and the male quartet will sing. The tabernacle will be comfortably seated and well lighted, and everybody will be made welcome.

The next regular meeting of the Susan B. Anthony club will be held next Wednesday afternoon at the home of Mrs. Adams at No. 27 North Ninth street, Portland. The members and friends will all please leave Saint Johns on the 1:30 car. A called meeting of the club will be held tomorrow afternoon at 2:30 in Dr. MacLachlan's office. A matter of special importance is to be discussed.

Mr. Keogan Better.

Dick Keogan, who met with an accident at the University shingle mill a few weeks ago, is improving rapidly.

Dr. Jones and Dr. DeVaul, in consultation, made an examination of the injured man and found three ribs of the left side and one of the right side fractured, but no internal injuries of a serious nature. It was feared that his back was badly hurt, but, beyond a slight numbness where he struck and a consequent weakness, Mr. Keogan is better than the most sanguine could have hoped for, owing materially to his rugged constitution.

With the aid of a pair of crutches Mr. Keogan hopes to be out in a week or so, for, as he says, "good men are scarce," and we can't afford to lose him.

Trolley Lines Sold.

Once more has the deal whereby Portland's electric railways have been bought by an eastern syndicate been pushed through—according to the daily papers. Every little while one of Portland's papers springs this "scoop" to the public—and, soon after, denies it. This time there are six million dollars in the deal—but no one knows how high the next figure will be.

RESOLUTION

Notice is hereby given that at the Meeting of the Council of the City of Saint Johns, Oregon, held on the 21st day of April, A. D. 1905, the Following Resolution was adopted:

RESOLVED: That the Council of the City of Saint Johns, Oregon, deems it expedient and proposes to improve Richmond street from southerly line of Portland Boulevard to southerly line of Willis Boulevard.

The improvement of Richmond street shall consist of grading full width of street and to establish the sidewalk grade. Said improvement to be made in accordance with the Charter and ordinances of the City of Saint Johns and the plans, specifications and estimates of the City Engineer filed in the office of the Recorder of the City of Saint Johns.

The cost of said improvement to be assessed as provided by the City Charter upon the property specially and peculiarly benefited thereby, and which is hereby declared to be all the lots, parts thereof and parcels of land within a line 100 feet from the outside line of each side of said Richmond street.

The Engineer's estimates of the probable total cost for the improvement of said street is \$916. The plans, specifications and estimates of the City Engineer for the improvement of said Richmond street are hereby adopted.

RESOLVED: That the City Recorder of the City of Saint Johns be, and is hereby directed to give notice of the proposed improvement of said Richmond street as provided by the City Charter.

Remonstrances against the above improvement may be filed in writing with the undersigned within 15 days from the date of the first publication of this notice.

By order of the Council,
J. W. HANKS,
City Recorder.
First insertion, May 26, 1905.
Last insertion, June 9, 1905.
