FRIDAY, MARCH 2, 1906

NOTICE TO SUBSCRIBERS!

AFTER the tenth day of the present month (March) the price of THE REVIEW to all subscribers outside of Multnomah county will be increased to one dollar and fifty cents (\$1.50) payable in advance.

In order to explain this increase in price it is merely necessary to state that no paper as good as THE REVIEW can afford to be sold at the price at which this paper was started. It is an absurd idea to suppose that one can devote so much work for "the love of the thing" unless there be an additional incentive. And it is this incentive we are after.

Those who are now on the list outside of this county will find that the paper will come to them regularly at the old price until their subscription shall expire; but after that date the price will be (\$1.50). To those here at home the price will continue as it has been till a farther notice. If there are those who are intending to send the paper to some eastern friend as a gift it will be to their advantage to get the subscription in before the tenth day of this month.

Remember that till the close of Saturday, March ten, all subscriptions will be taken at the present price—\$1 if paid in advance. After that date those outside of the county will pay \$1.50—or not have the paper.

THE ONLY WAY.

IN selecting the tickets to be voted upon next month in the city election it would be well if the council would make a ruling that the question of license or no license be voted upon separately—rather than have tickets made up of those who are pledged to support one or the other of the two measures.

By adopting the former method there may be secured better men for the positions than if the latter method is followed. Too often it is the case in small cities that a man is selected as a candidate—not because he is peculiarly fitted for the place but because he will vote a certain way when certain matters come before the legislative body. Each "side" feels bound to vote for any old fossil who will consent to run because on the license question he has expressed himself; and in that way there has resulted, too frequently, a gang of sticks.

If the question can be voted upon by itself the result is a better governed community.

NOW SUBSCRIBE.

IT may be noticed in another column that the price of THE REVIEW is to be increased to all subscribers outside of Multnomah county. This is a necessary step to the advances we intend to make along lines of improvement in the columns and in the size of the paper. The present management stands ready at any time to do all possible for this city and the whole peninsula—but it cannot long stand the strain of a paper at "one dollar per."

HELP THEM.

THERE will be an opportunity to help the fire department of the city by patronizing the dance this evening. It is understood that the department will receive all the money taken in except the actual expenses—and these have been made as low as possible. In fact, no one will make any money out of the affair—except the fire department.

FAIR PLAY.

IF a gang of Chinamen should come to America and endeavor to introduce their religion to our people—and labor assiduously to turn our Protestants and Catholics over to the worship followed by the yellow boys, how long would it be before there was a riot and how many chinks would climb the golden stairway? And the great American people would say that the correct thing had been done to prevent any such innovation!

Yet what a hue and cry goes up when some of our missionaries are killed in China for doing exactly as we would not permit them to do here! To be sure, people feel a shudder of horror at the news of the outrages there; but, calmly considered, one realizes that the Americans were intruders who have been warned for lo these many years to keep away.

With millions of the unenlightened within our own boundaries, and vice and wickedness abounding upon every hand, it seems that the more humane plan would be to keep our hands off China's religion—and put our efforts forth to bring our own people to God. If the chinks are satisfied with their own religion it is a most decided point that they should be let alone.

America has her hands full with the Smoot case; and, by the way, we are acting fully as despotic with some of our religions in this country as the chinks are with ours in their own domain.

LET'S VOTE BONDS.

THERE could be no more appropriate time in the history of this city to secure bonds for a city hall than at the coming election in April. The need for such a building is most apparent—and the people feel that a handsome building would add prestige to the city.

St. Johns has a splendid site already bought for such a building—and the people have once voted bonds for that purpose; but those bonds were declared illegal. It seems that at this time the call might be made in a legal manner—for it is a positive fact that the people still desire the building.

The present city council could do no act which would rebound more credit upon that body than to make a call for these bonds, and allow the people to vote upon the same at the coming election. Such a vote can be secured at a less expense when the regular election is being held than if the vote was to be taken at a later date and by itself.

The council should take this matter into consideration, and secure the feeling of the tax-payers. So far as can be learned at this time there seems to be a general opinion that the movement would be a good one.

Let's have the call made and then see what the general sentiment is when it comes to a showdown.

WHICH IS WORSE?

"LAST year," says the Pacific Searchlight, "1253 children in the United States were murdered by intoxicated parents." All right. Last year, according to the best belief of physicians throughout America, more than 50,000 children were murdered by high-class parents who were averse to the Rooseveltian theory—and the parents were not intoxicated, either. Which of the two is to be the more severely condemned? And how can either of the practices be stopped?

REMEMBER THIS.

NO matter what may be the issues of the coming campaign THE REVIEW desires to impress upon its constituents that in no sense of the word is this paper to be used as a mudwagon for any party or clique. It might be well for some who are contemplating that THE REVIEW is to be used for a mud-spray to cut this item out and paste it in their hat.

COMING.

FOUR weeks from today will be the city election. Get on your gum running shoes!

Praised By The Governor.

Miss Ella McKinnie, who is corresponding secretary of the Christian Endeavor of the Evangelical church, read before that society last Sunday the following letter from the governor of Oregon:

STATE OF OREGON

EXECUTIVE DEPARTMENT

SALEM, February twenty.

DEAR MISS MCKINNIE:

I take pleasure in extending to the members of the Keystone League of the Christian Endeavor of the Evangelical church of St. Johns the hope that the meeting shortly to be held by them may prove both pleasant and profitable. I believe that this society and those of a kindred nature organized for the purpose of bringing the young into closer communion and fellowship for the purposes of good are most potent factors in the state for a better and more patriotic citizenship. The greatness of a state or nation depends upon an enlightened citizenship, and all that tends to this enlightenment ought to receive the hearty support and encouragement of all.

Again wishing you and your society success, I have the honor to remain,

Yours very respectfully,
GEORGE A. CHAMBERLAIN,
Governor of Oregon.

Scalded From Waist Down.

Sunday afternoon a son of Professor and Mrs. W. C. Alderson was sitting beside the stove at his home when in some manner a kettle of boiling water was spilled upon him. The water struck him mainly upon the lap, and from his waist to his ankles his flesh was parboiled. The lad is twelve years old. Medical aid was at once summoned and relief given as promptly as possible. For a while it appeared as if his injuries would prove fatal—but at this time the sufferer is progressing nicely toward recovery.

Bought More Property.

The lot whereon is the building used as a hospital by Dr. Jensen has just been purchased by the firm of Shepard, Dobie & Peterson—who now have it on the market. The lot is 50x178, and the building on the same is a good residence. It could have been bought eight months ago for \$2600; the sale price to the present owners was \$4200.

FRED W. MULKEY

Candidate for Republican Nomination FOR UNITED STATES SENATOR For the Short Term.

Fred W. Mulkey was born in Portland, Oregon, and is a resident of his native city. He is a young man with every accomplishment which should qualify him for this high office. He is a graduate of the State University of Oregon, the New York Law School of New York City, and is a lawyer of high standing, a man who has traveled extensively in our own country as well as abroad. He has studied our institutions and compared them with foreign countries. He is a logical thinker, a forceful speaker and an adept parliamentarian. He has many friends, both rich and poor, for he is a courteous gentleman at all times.

He is a republican always. He has supported all the nominees of the republican ticket at all times. He is as loyal to his party as to his friends. He has confidence in the people and is willing to abide by their decision at the primary election.

Oregon needs such men as Fred W. Mulkey. The republican party needs such men, and the voters should see that such men are nominated and elected.

We assure the public that we will continue to render first-class work and modern service in every way.

ZELLER-BYRNES COMPANY.

Foolish and Dangerous.

The other evening when a coon show was given in the M. W. A. hall some miscreant cut the pipe supplying the hall with what little light it has. This pipe carries gas under pressure, and, of course, when the break was made the supply of gas went out into space—and the lights went out. The room quickly filled with gas, and had someone lighted a match at that time there is a great chance that an explosion would have occurred. There was a fair-sized audience present, and had the explosion happened there would have been a panic in which many lives would doubtless have been lost. Whoever may have done this act possibly never thought of the seriousness of what a chance for disaster was opened; but in any event, accident or no accident, the culprit should be severely punished if found.

A Plea For Manhood.

The young men who are seen in a half-drunken condition "surely know better than to drink—as well as do those who are made sick by tobacco know better than to chew. "A fragrant cigar is a solace" but chewing is a filthy habit "and a wise man would have none of it." The philosophers have said, "Let your moderation be known to all men." And again, "Be ye temperate in all things." I would urge the youth of St. Johns to beware of intemperate habits—as they will be known by the company they keep.

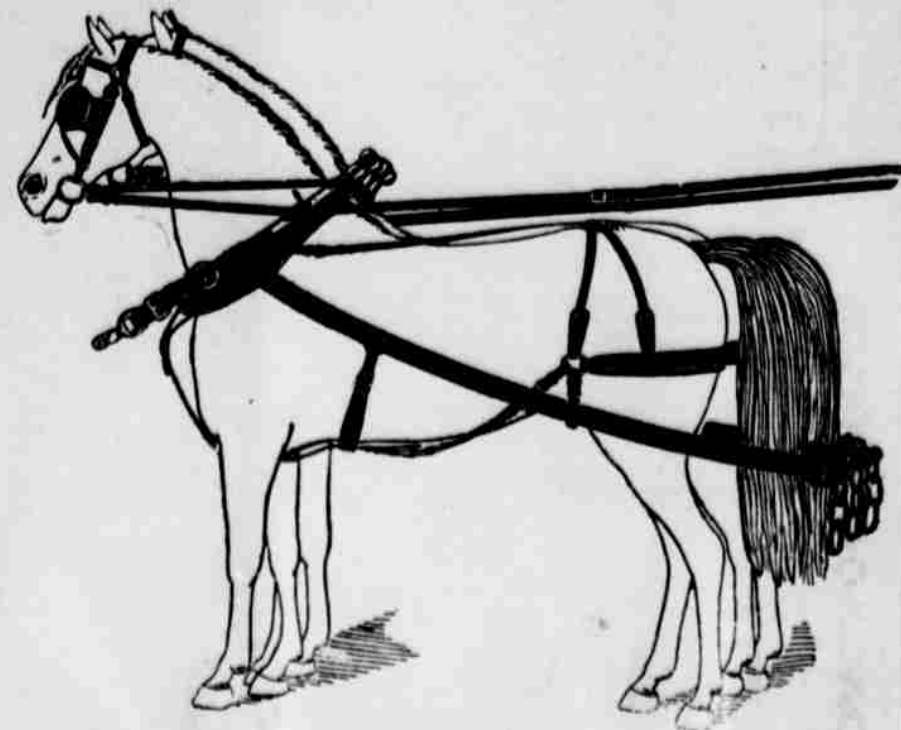

"Prohibition" is an acknowledgment of moral cowardice—and as such is an advertisement to the world. The manly youth, not the saloon youth—is the one sought by all employers; all avenues of trade are open to the qualifications of moral courage—not to prohibition's petrified micro-pusillanims. There is more intemperance in eating than there is in drinking; note the gluttony, appendicular, colicky faces one sees each day in the marts of trade, and of others in their vinegary, pickle-eating ideas of speech and hypocrisy!

To the youths of St. Johns: Shun all places that plainly read "This is the way to an ignoble ending of Life's hopes, Life's ambitions, Life's glories, Life's pleasures!" Remember that "character" in this world is "capital" in the next. In all institutions and in the lodge the intemperate drinker is shunned: Cut it out!

To the W. C. T. U.: Provide for the youth of this city reading rooms. Library habits are the ones searched for by the employers of large renown.

RESOLUTION

Notice is hereby given that at the meeting of the Council of the City of St. Johns, Oregon, held on the 14th day of February, A. D. 1906, the following resolution was adopted:

RESOLVED: That the Council of the City of St. Johns, Oregon, deems it expedient and proposes to improve Leavitt street from the northerly line of Hayes street to the southerly line of Jersey street in the following manner, to wit: To establish the necessary grade for paving and to improve said Leavitt street, lay side walks, grade, etc. Said improvement to be made in accordance with the Charter and Ordinances of the City of St. Johns, and the plans, specifications and estimates of the City Engineer, filed in the office of the Recorder of the City of St. Johns. The cost of said improvement to be assessed as provided by the city charter upon the property specially and peculiarly benefited thereby and which is hereby declared to be all the lots, parts thereof, and parcels of land within a line 100 feet from the outside line of each side of said Leavitt street.

The Engineer's estimate of the probable total cost for the improvement of said street is \$207.67.

The plans, specifications and estimates of the City Engineer for the improvement of said Leavitt street are hereby adopted.

RESOLVED: That the City Recorder of the City of St. Johns, be, and is, hereby directed to give notice of the proposed improvement of said Leavitt street as provided by the city charter.

Remonstrances against the above improvement may be filed in writing with the undersigned within 15 days from the date of the first publication of this notice.

By order of the Council.

RESOLUTION

Notice is hereby given that at the meeting of the Council of the City of St. Johns Oregon, held on the 14th day of February, A. D. 1906, the following resolution was adopted:

RESOLVED: That the Council of the City of St. Johns, Oregon, deems it expedient and proposes to improve Ivanhoe street from the easterly line of Burlington street to the westerly line of Richmond street in the following manner, to wit:

To establish the necessary grade for paving and to improve said Ivanhoe street, lay side walks, grade, etc. Said improvement to be made in accordance with the Charter and Ordinances of the City of St. Johns, and the plans, specifications and estimates of the City Engineer, filed in the office of the Recorder of the City of St. Johns. The cost of said improvement to be assessed as provided by the city charter upon the property specially and peculiarly benefited thereby and which is hereby declared to be all the lots, parts thereof, and parcels of land within a line 100 feet from the outside line of each side of said Ivanhoe street.

The Engineer's estimate of the probable total cost for the improvement of said street is \$1,408.33.

The plans, specifications and estimates of the City Engineer for the improvement of said Ivanhoe street are hereby adopted.

RESOLVED: That the City Recorder of the City of St. Johns, be, and is, hereby directed to give notice of the proposed improvement of said Ivanhoe street as provided by the city charter.

Remonstrances against the above improvement may be filed in writing with the undersigned within 15 days from the date of the first publication of this notice.

By order of the Council.
