There is a great demand for tenant houses in St. Johns. Every day inquiries are made at this office concerning houses to rent. It would surely prove a paying proposition for capitalists to build a number of residences to let. The population of our city is rapidly increasing but not so fast as it would if tenant houses were available.

The Review was in error in stating the school meeting for the election of two directors to fill the vacancies caused by the resignation of Messrs. Brice and Ogden would be held tomorrow evening. It will be held this (Friday) evening at the Central school building at 8 o'clock. No other business outside of the election of the two directors will be transacted. Be on hand and vote for the man of your choice.

One need not be born with a veil or the gift of prophecy to foresee that lots between Fisk street in University Park and Macrum avenue in Northern hill on Dawson street which extends through the centre of that rapidly growing district between the rivers in Portland, and now selling for \$15 per front foot, will, within twenty years from today, sell for one thousand dollars per front foot.

Miss Eliza Cole gave a surprise party on the eve of the departure of her niece, Miss Maudie Cole, for her home in Svensen, Oregon. There were eighteen guests, mostly playmates of Miss Maudie. Singing, recitations and games, followed by ice cream and cake, made the evening pass in a pleasant manner. Miss Cole had attended school here the past winter and made many warm friends who were loth to have her depart.

If there is anyone in St. Johns desiring to make improvements on their property on a street where the grade has not yet been established they may have the grade defined by petition at a cost of about \$28 per mile. This will enable all who desire to improve to govern the height of their foundations and lay their sidewalks so that everything will be uniform and systematic when the street improvements are complete. Call at the city hall and Recorder Thorndyke will explain.

O. Arvitsen was relieved of \$65 in cash about 12 o'clock Wednesday night by a fellow who was acting as a guide to show him his way home. The theft took place in front of the Arvitsen home near the pumping station. Mrs. Arvitsen was attracted outside by the noise made by the men, and knocked the hat of the light-fingered man off his head. The hat is now at the city hall, and may be the means of identifying the robber. It is a soft black hat, size 7 1/2. Although the fellow is known there is no clue as to his whereabouts.

The people of St. Johns were treated to the sight of a lifetime Wednesday morning when Admiral Goodrich's squadron of battleships passed down the river. When in front of the city the boats formed in line, the flagship Chicago passing from the rear to the head of the procession, followed by the gunboat Princeton, the torpedo-boat Preble, the battleship Boston and the torpedo-boat Paul Jones, in the order named. With the exception of the Paul Jones, which went to Santa Cruz, all the ships steamed north for Puget Sound points. Many people witnessed the grand sight from every point of vantage.

With several miles of sidewalks to be laid in the city many property owners are debating whether they will follow the instructions of the council and build a wooden walk or whether they will lay the everlasting cement walk instead. The rapid decay of a wooden sidewalk and the constant repairs necessary to keep it in a safe condition have led many to consider putting in the more durable cement. The life of lumber in a walk is variously estimated from four to eight years. The cost of a cement walk is but a trifle more than one of wood, and when put in by one who understands the business the expense of maintaining an absolutely safe walk ceases.
