 The recent hot weather played havoc with the apple crop. Besides burning the leaves of the trees the intense heat blistered the fruit and is causing much of it to fall from the trees. The terrific heat was something out of the ordinary, being within one degree of the record since the weather bureau was established in Portland in 1871.
 One need not be born with a veil or the gift of prophecy to foresee that lots between Fisk street in University Park and Macrum avenue in Northern Hill on Dawson street which extends through the center of that rapidly growing district between the rivers in Portland, and now selling for \$15 per front foot, will, within twenty years from today, sell for one thousand dollars per front foot.
 Those who intend going to the hop fields when the time comes to pick hops will be interested to learn that Conrad Krebs, one of the large hop growers of Salem, says that the price paid for picking hops will be the same as a year ago—\$1 a hundred or 50 cents a box. The Krebs yards at Independence will produce 1,000,000 pounds of hops. In the entire state of Oregon \$1,500,000 will be paid out to hop pickers this year.
 The frame of the new pumping station is up and the building will be ready for use in a short time. The building occupies a space 44x76 feet. It will be about three weeks before the engine will be pumping water into the tanks on the hill.
 Judging by the present growth of the city the school house, with the present addition completed, will not furnish sufficient room to accommodate all the pupils who will answer the bell at the beginning of the fall term, September 17th next. With the present improvements the central school will have twelve rooms and an assembly hall. St. Johns is growing fast, and it will tax the ingenuity of the school board to provide accommodations for the throngs of juveniles who are sure to seek entrance at the temple of learning.
 A pair of gold rimmed glasses are at the Review office awaiting the owner. They were found by Dr. Hartel. We know the owner very well, indeed. These same glasses were lost once before and returned through The Review. At the time the nice old gentleman who claimed them was told if they ever came into our possession again we would appropriate them for our own use. We cannot use them. If we did we would have to shut our left eye, and we are right-handed. There is a hole in one of the glasses. Come and get your property. You can use them, because you are left handed.

 If you have anything to sell, why not advertise it. Many a person has gone to Portland to make a purchase under the impression that the article wanted could not be bought in St. Johns. Let the public know you are in business, and tell the people what you have for sale. Young Mitchell Slain by His Own Sister.

Urged on by Mrs. Creffield, the widow of the Holy Roller, George Mitchell was shot dead by his sixteen year old sister Esther in the union depot at Seattle at 4:30 yesterday afternoon as he was about to board the train for Portland.

The revolver used was purchased by Mrs. Creffield. Just before the shooting the young girl greeted her brother with a smile and a hearty handshake.
