COOL BREEZES ON HOT DAYS.

No matter how sultry or uncomfortable the day, an ELECTRIC FAN will insure comfort for the business man at his desk, for his employes at their work, for the customers in his store, and for the entire household at his home.

The cost for all this SUMMER COMFORT is a mere trifle. A 16-inch fan can be operated at a cost not to exceed one cent an hour, and a 12-inch fan can be run for even less. Think of ten hours of solid comfort for less than ten cents.

Keep your store cool and breezy and your customers will find shopping a pleasure, and your store an inviting place in which to linger. ELECTRIC FANS will increase your business, whether it be a restaurant, an ice cream parlor, a dry goods emporium or an iron foundry.

We have fans of all kinds, all styles, suitable for every purpose. Don't delay—order your fan TO-DAY.

ELECTRIC LIGHT and the ELECTRIC FAN make a strong combination for summer comfort.

Send us a post card with your name and address—we will do the rest.

Other members of the family are at a convenient distance admiring "Pa" and "Pete."

Ten dollars down and ten cents a day are the terms on which University Park lots are sold. University Park lots are selling right along while others stand still, because University Park has the largest payroll on the peninsula, because it has Bull Run water, a university which brings a cultured class, a liquor restriction which excludes saloons, Portland public schools, and first and foremost it believes that a steady growth and good morals pay best in the long run. Francis I. McKenna is the selling agent for University Park lots.

Schroeder's dancing academy will open in Bickner's hall Saturday evening, Sept. 15. All the latest dances, including the new Floradora, will be taught. BOOSTED

For the State Fair and For a Knitting Mill.

Seventeen members were present when the Commercial Club was called to order by President Rogers Wednesday evening. The meeting proved very interesting throughout.

Clarence Bishop introduced the matter of St. Johns doing a little advertising at the state fair at Salem, stating that transportation could be obtained for a nominal sum and a most enjoyable day spent if the people of the city were so inclined.

Others spoke on the subject and all became enthusiastic over the proposed trip. It was decided to procure suitable advertising to be distributed on the grounds and secure banners to hang on the outside of the cars. Badges will also be provided for all to wear on the trip. It is proposed to let the people know that St. Johns is alive and ready to help others and at the same time let everybody know the best town in the state is right here on the peninsula.

L. Walker was present and explained the knitting mill proposition. In a brief speech he made a very favorable impression. It was shown a mill would pay here. The location, raw material, labor and shipping facilities were all within easy reach. All that was lacking was the enterprise to go ahead. To see what can be done in the matter the chair appointed the following committee: Messrs. Bishop, Perkins, King, Chipman and Ogden. These gentlemen will report at the next meeting.

By a unanimous vote D. C. Rogers was selected as a member of the committee to revise the city charter, as per request of the city council that an additional member be chosen.

WILL BE READY

For Occupancy When the Term Opens September 17.

Although numerous school buildings in the county will not be ready for occupancy when the bells ring announcing the opening of the fall term of school, the repairs on the St. Johns school will be completed and everything in first class shape for the teachers and pupils.

As one steps into the front door of the remodeled building the first impression is that Contractor Adams has done a first class job. The old chimney and partition have been removed, and an assembly hall thirty feet wide and running the full length of the building with a stage 12x25 feet greet the eye. This assembly hall is 120x30 feet and 600 people can witness all that may be done on the stage. The first floor arrangement is bound to please everyone.

With the three additional rooms just built the building will have thirteen rooms. The late arrangement gives each room plenty of light and roomy cloak rooms for each. About 600 lineal feet of first class blackboard has been added, and some of the inferior blackboard put in the rooms a year ago will be replaced.

An additional toilette will be installed and new toilet rooms for both sexes have been arranged in the basement. It is only owing to the non-arrival of the toilet fixtures that the building is not already turned over to the school board.

The work and material is in accordance with that of the plans and specifications. The fact that the contractor has not been asked to change any of the material used shows that nothing has been slighted by the contractor. We honestly believe every patron of the school will be pleased.

LOOK OUT

For the Full Program in Next Week's Review.

To provide a new piano a novel entertainment will be given in the assembly hall of the schoolhouse Monday evening, Sept. 17.

Short stories and music will be the features of the evening. Among those who will participate will be Mayor Lane, Tom Richardson of the Portland Commercial Club, President Jefferson Myers, Editor Bennett of The Dalles, Editor Levinson of the Oregonian, Senator Beach and Prof. Huglison.

COUNCIL

Minutes of Last Tuesday Night's Meeting.

The rumored resignation of F. W. Valentine as mayor of St. Johns drew a full house to the stuffy little room where the business of the city is transacted by the council last Tuesday evening. Ald. Bredeen was the only absentee.

As soon as the lengthy minutes of the previous meeting were read and approved the mayor pulled a paper from his pocket and handed it to the recorder, who began to read as follows:

To the Honorable the City Council and Citizens of St. Johns:

Owing to facts with which you are all conversant that there is a question of the legality of one person holding the office of mayor and the office of postmaster—that being the attitude now confronting us—and wishing only to contribute my efforts and energy for the welfare of the city of St. Johns and good fellowship to all of its citizens, I deem it expedient to resign the office of mayor and do hereby tender my resignation.

And, gentlemen of the council, with it you have my heartfelt thanks for the earnest support you have given me in our many undertakings which we have considered for the common good of our city.

To the citizens I will say that what I have done while mayor I have considered for the best interests of our city. While there may have been some friction recently, I hope it may soon be forgotten by all. I can assure you it will be by me.

F. W. VALENTINE.

From the way the document was received all anticipated it.

Ald. King arose and said he hoped the mayor would continue to act.

On motion of Ald. Norton the mayor was asked to preside until the end of the session, which he did.

W. F. Stine asked for and secured permission to build several frame cottages at the corner of Ivanhoe and Tacoma streets, within the fire limits.

On motion of Ald. Hewitt an ordinance was ordered drawn to govern the action of the council in similar cases that may come up.

F. W. Prasp was given permission to open Cedar Park today (Friday) to entertain the Woodmen of the World.

Mr. Woodhouse addressed the council and by an elaborate map showed the new grade on Philadelphia street.

A representative of a chemical engine company again urged the council to purchase his wares. The matter was postponed for a week.

The Kaddery Transfer Co. registered a complaint against the obstruction of the city dock by the barge used to convey the workmen to and from the Northern Pacific bridge, and the chief of police was instructed to order its removal.

A petition for an electric light at the corner of Gilbert and Hartman streets was referred to the Light committee.

A remonstrance against the acceptance of the Ivanhoe street sidewalk was accepted on the ground that the specifications were not followed.
