We wish tobacco manufacturers would quit using tags the size of a two-bit piece. We get tired reaching down with the fond anticipation of digging a quarter out of the dust. Sometime we are liable to pass right by a piece of money for fear it might be one of those daddled tobacco tags.

What might have been a serious accident occurred last Friday evening at about 6 o'clock. Bonham & Currier's delivery team ran off and headed down Burlington street toward the river. They went down the steep grade at a breakneck pace with the driver keeping a death grip on the lines. When near the foot of the hill the team ran into a large pole placed in the ground and came to an abrupt halt, throwing the driver onto the horses. Fortunately no damage was done outside of a few bruises and a badly demolished wagon.

The Seventeenth and Eighteenth Batteries, Columbia division of Uncle Sam's army, who have been stationed at the Vancouver barracks for some time, have been ordered to Cuba to assist in quelling the disturbance there. With the exception of about 25 "tin soldiers" who joined the army to strut around in their uniforms and tell people how brave they are and deserted as soon as any danger of an engagement became apparent, the two batteries departed Monday for the scene of activity.

Ten dollars down and ten cents a day are the terms on which University Park lots are sold. University Park lots are selling right along while others stand still, because University Park has the largest payroll on the peninsula, because it has Bull Run water, a university which brings a cultured class, a liquor restriction which excludes saloons, Portland public schools, and first and foremost it believes that a steady growth and good morals pay best in the long run. Francis I. McKenna is the selling agent for University Park lots.

While the matter of selecting a site for a new school building is before the people it will be well to arrange for a large plot of ground. Several have expressed themselves that two blocks should be provided. This would include a street, which could be vacated. With the building in the center of this tract both sexes would have a large play ground. With plenty of room for the pupils the work of the teachers would be easier and the results far more satisfactory.

WEDDINGS

Of Messrs. Bonham and Currier, the Enterprising Merchants.

Two weddings in which both members of the firm of Bonham & Currier, proprietors of the Jersey street grocery, were participants were events that surprised the many friends of these popular young men. Edmund S. Currier was the first to join the ranks of the Benedicts. He quietly slipped away several weeks ago, leaving his friends under the impression that he was simply going off on a vacation, but the truth was made known when announcements of his wedding were received here. The lady of his choice was Miss Alice Huis-camp, a handsome and popular lady of Keokuk, Iowa, at which place the ceremony took place on Thursday, September 27th. The bride and groom are expected to arrive in St. Johns in the very near future, and where, of course, they will take up their residence.

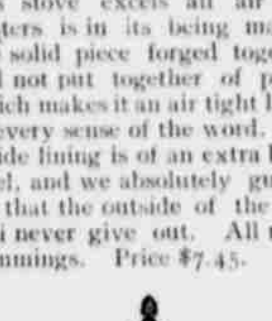

Not to be outdone by his partner, Harry W. Bonham decided there was no reason why he should not go and do likewise. Accordingly he got on the trolley and made his way to Piedmont Wednesday and was united in marriage with Miss Alice M. Bond, an attractive and accomplished young lady. The affair was a quiet one and was solemnized in St. Marks Episcopal church at 5 o'clock on Wednesday afternoon, October 3, at Piedmont. After the ceremony an elegant wedding dinner was served at the home of the bride's sister, Mrs. Frank Barrow. The happy young couple have already gone to housekeeping at 931 N. Hayes street, which residence had been prepared in anticipation of the event, and where they are at home to their friends.

Besides these we have all sizes of wood and coal heaters from \$6.00 up.

Also pipes, elbows, dampers, stove boards, and in fact everything for the use of stove users.
