All communications abould be addressed to The Beview, St. Johns, Oregon. THE REVIEW is entered at post office in Saint Johns, Oregon, as mail matter of the second class under the Act of Con-

gress of March 3, 1879. Official Newspaper of the City of St. Johns

Phone East 6186.

FRIDAY, DECEMBER 21, 1906

After next Tuesday the family purse will look like an elephant tramped upon it.

St. Johns leads any city of 3,500 inhabitants in the number of homes erected within its borders during the past year.

With the "System" pounding the life out of the stock markets, where was Tom Lawton when the lights went out?

Wonder if the shoe men and the street car men were in cahoots on the strike. Anyhow, both expect to gain at the expense of the public's discomfort.

Union men are great fellows to howl for liberty but are very anxious that their employers are not allowed any when it comes to hiring and discharging their men.

--White paper has been boosted another 25 cents a hundred by the paper trust. This means quite a Christmas present to the octopus by the papers of the coast. However, the subscription price of The Review will remain at the old figure.

Again The Review calls upon Col. Monahan to pull the dingers out of the thinglebob on the electric wires that the lights may shed their effulgent rays on the supper table strong enough so that the head of the house may not mistake a plate of fried razor clams for one of parsnips.

The street car strike inaugurated by outsiders last Saturday night was a dismal failure. It was not a strike of the street car employes, but one that was the product of the walking delegates. Had the employes been consulted the result might have been different. Outside of the mob wrecking a few cars and the inconvenience to the public for several days nothing came of the attempt.

That St. Johns is a healthy infant may be seen from the lists showing the valuations of taxable property in School District No. 2 for the past five years. The figures given below were secured from Clerk Tauch and were used as a basis of the tax levy for school purposes. A careful perusal of them will enable all tay payers to gain an idea what levy will have to de made at the special school meeting next Thursday

mgnt:		
1892	ATTRICTURE CONTRACT	182,373
	PERSONAL PROPERTY.	300,491
	CERCEPHENNE	420,033
	Access to the	1,643,380
1896	gregories and	2,952,290

The rapid increase in taxable property in St. Johns will not only suprise outsiders, but many of our citizens as well. We doubt whether there is a place in the state that can make as good a showing. And there has been no boom. The growth has been steady and natural and still continues. Next year will be the best St. Johns has ever had Besides no one is pushing St. Johns. She is forging to the front on her own merits.

We note that the Monmouth Normal school is going to make a tremendous demand upon the state treasury at the coming session of the legislature. This is one of the state institutions that never had any shame. It has always asked for large appropriations, and always got there. It possesses a most capacious maw. Nothing seems to satisfy it. It has an idea that the world would stand still if its doors were closed. It rests with the legislature and the governor to see that its outrageous request is denied. Of late years there has been a great deal of discussion regarding the uscfulness of our Normal Schools, That four are two too many has been almost universally admitted, and most of our representaives have pledged themselves to cut down the number to one, or two at most. It is earnestly to be hoped that they will stand by their pledges. On account of the rapacious disposition and the superlative gall of the Monmouth school people, we would suggest that the Monmouth Normal be the first to fall. Let the pruning kuife be vigorously applied to these so-called Normal schools, and let Monmouth get it where the hen got the ax. From all we can learn, our advice would be to close two of the schools and let Ashland and Monmouth be the two. Eastern Oregon is unquestionably entitled to one and southern or central Oregon be the other. We believe they are not only the best schools, but they have not been in the habit of demanding

the earth.

Store open evenings until after Christmas.

# STOCK REDUCING SALE FOR CASH

A short notice sale of very nearly every article in the "Big Store." In fact the big sale was not to begin until after Christmas, but at a meeting of the stockholders of the company it was decided to request the local manager to give a full report of the business not later than January 10, 1907. It's now up to our manager to immediately turn the stock into cash to save time in taking stock. EVERYTHING MUST GO.

#### GROCERY DEPARTMENT

Main Floor.

Look where the big knife has been applied in the big grocery department. No more new goods to be brought in until after the big reduction sale and stock taking is completed.
