ELECTRIC LIGHT is pre-eminently the light of happy content. It dispels gloom, dinginess and discouragement. Light homes make light hearts.

ELECTRIC LIGHT is practical light—a light that is at once clean, convenient and economical. At the prevailing rates for current on meter basis, it is well within the means of all, and when used sensibly—economically—electric light is as cheap as it is good.

The Dallas Itemizer says that a practical woman remarked the other day that the most interesting things in a newspaper are the advertising columns. "Long ago I quit buying of those who did not advertise. It always seems to me that the merchant who advertises invites me to trade with him; while the one who does not advertise impresses me with the idea that he does not care enough for my trade to ask for it. Then too, I have found that the merchant who advertises has fresher goods, for the reason, I suppose, that he sells more goods."

One of the deputies in the assessor's office in the city hall at Portland received a copy of The Review last week, and takes exception to the article in regard to the appraisal of property in St. Johns last summer. The Review last week said the person who made the levy in this city must have been blind, and it still says so. We are not from Missouri, but from St. Johns, and can show Assessor Sigler or any one from his office who cares to make the trip down here. There is a double-breasted kick all along the line over the valuations of St. Johns property. The Review believes the assessor or any of his deputies will be willing to acknowledge an error has been made when the matter is explained to them.

The Western School of Music and Elocution of Portland, under the leadership of Prof. William Rasmus, will give an entertainment in St. Johns, Friday evening, Mar. 22, for the benefit of the Methodist church. Tickets will be on sale soon.

When asked in regard to the mission of the recently organized Republican club, Postmaster Valentine, president of the club, said: "The placing of a ticket to be voted upon at the coming city election was talked of at the meeting, but several thought it unwise. If the club thinks itself strong enough a ticket will be nominated. If it does not, it won't. It all depends on whether we think we are strong enough."

A Republican club was organized in the city last Monday evening. About a dozen people met in the rear room of the building formerly occupied by Valentine's confectionery store and perfected organization by electing F. W. Valentine president and Harry C. Hunter, secretary. Candidates for the various clubs to be elected at the coming election were discussed, and an attempt was made to place a ticket in the field, but the more conservative of those present thought this move ill-advised, and no action was taken. The exact object of the club cannot be ascertained.

The Review is in receipt of half a dozen letters during the past week from people in the middle west asking about Oregon and the prospects in store for a new comer. The recent severe winter has set the migratory bee to buzzing in the land of the blizzard.

The electric line is using one of the trolley work cars to do its plowing along the right of way between St. Johns and Piedmont. A heavy timber is lashed to a flat car. This timber projects over the side of the car so that a chain can be fastened to it and adjusted at will. A plow is attached to the chain, and the motor car does the rest. This is a novel way of accomplishing the necessary work, and it is done in half the time in which men and a team could do it.

Some of us who imagine that something has been the matter with the Oregon weather during the past three months may be interested in a letter from one of our readers at Devils Lake, N. D. He writes: "We have had an exceptionally hard winter in this state, the thermometer registering as low as 48 below zero, and it stormed almost every day up to Feb. 8. Since that time it has been comparatively pleasant." Think of it: Forty-eight degrees below, and storming!

A petition has been circulated and generously signed asking for the appointment of a justice of the peace for St. Johns. It is said that the person to fill the office has already been selected. The Review has been unable to learn his name.

It is the intention of the council to have the polling places of the first and second wards as near to each other as possible. The second ward people will cast their votes at the city hall, as usual, while those of the first ward will try and elect their favorites in the brick building adjoining the New St. Johns Hotel. The idea is a good one, and will meet with the approval of all.
The time allowed by law in which the taxpayers may receive the benefit of the three per cent rebate will expire on Friday, March 15. Taxes must be paid between March 15 and April 1, the date when they will become delinquent, without penalty or interest, but after the latter date a penalty of ten per cent and interest at the rate of 12 per cent per annum will be added. However if any taxpayer pays one-half of his or her taxes before April 1, an extension of time is granted to pay the remaining one-half, if not later than October 1, without penalty or interest, but if the remaining one-half is not paid on or before October 1, then the same will become delinquent and the penalty with interest dating from April 1 will be added.
Said one our merchants to The Review: "I wish you would try and impress it upon the people of the city that they should be loyal to their own interests and patronize the home institutions. This will be nothing more than fair. St. Johns people can buy anything they want at home at the same price they pay for it in Portland, besides they can save their car fare. Let the people consult the advertisements of the various home firms and they will be convinced. The merchants are here to assist in building up the city, and they should be encouraged. Let prospective buyers ascertain the prices at home before they transfer their patronage. If the home merchants cannot satisfy their customers none of them will have a chance to complain. But give them a chance."
Messrs. W. H. Hogan of Albany and C. F. Cecil and Chas. Lillaro of Prineville, were in the city last Monday as the guests of H. G. Ogden and Dr. Whiting. These gentlemen are old friends and the reunion was a happy one. They began the visit by working, hunting and fishing in eastern Oregon, and discussing real estate in St. Johns. The three first named gentlemen are large stock owners in eastern Oregon, and their herds contain some of the finest animals in the west. Dr. Whiting was at Albany last week and claims that Mr. Hogan is the owner of the finest lot of horses in the state. In all his veterinary experience he has never seen more perfect animals. To show the value of Mr. Hogan's animals, Dr. Whiting says he was shown a colt nine months' old for which the Albany horseman recently refused \$500.

Private Sam Downey stands out like a huckleberry in a pan of milk as the only Democrat eligible to admittance into the Jeffersonian Democratic club soon to be organized. Sam declares there are not so many of him as there ought to be, but he is loyal to himself and his party and swears that he will work tooth, nail, hammer and claw for the party and vote its ticket straight. At times Sam feels like a lone, lorn orphan. To revive his drooping spirits he takes down the election returns from Mississippi, and after reading a few stanzas he is ready for all comers.
