## THE LIGHT THAT'S BRIGHT

ELECTRIC LIGHT is pre-eminently the light of happy content. It dispels gloom, dinginess and discouragement. Light homes make light hearts.

ELECTRIC LIGHT is practical light—a light that is at once clean, convenient and economical. At the prevailing rates for current on meter basis, it is well within the means of all, and when used sensibly—economically—electric light is as cheap as it is good.

### Do not Crowd the Season.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by St. Johns Drug Store.
