Relief from Rheumatic Pains.

"I suffered with rheumatism for over two years," says Mr. Rolland Curry, a patrolman, of Key West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale by St. Johns Drug Store.

ST. JOHNS

Locks the Trunkmakers Up in Their Own Valise.

A crowd that filled the bleachers and grand stand saw the St. Johns nine dole out nine pails of white-wash to the Trunkmakers at Hill's Ball Park last Sunday. Every man on the home team played classy ball, and the exhibition was one worth going miles to see. The only chance the visitors had to score was in the first inning, when they got a man as far as third. After this inning not one of the Trunkmakers passed first base.

In the third inning the home nine were retired with the bases full, and the Trunks were retired in one, two three order.

The balloon went up in the fourth, when every one of Moore's men crossed the home plate. Taylor, of the Trunks, was taken out of the box, but the clouting of the ball went merrily on.

St. Johns added three runs in the sixth and the visitors drew blanks until the end of the game.

NOTES.

Porterfield played third base for the home team like a major leaguer. There was a snap and a dash to his play that caught the crowd.

The attendance of ladies was the largest of any of the series.

The pitching of Charlie Moore was something that the visitors could not solve.

Shortstop Jaeger gobbled up everything that came his way with ease and precision.

The peculiar feature of the game was that not one of the home outfielders had a single put out to their credit.

Charlie Moore made the record of six strikes with six balls and struck out two men. Some pitching!

In removing one of the Trunks who was smoking a cigarette on the coaching line Umpire Rankin enforced the rules to the letter.

The catching of Otto Moore was up to his usual standard.

"Our Jack" was a spectator and remarked that he "saw #3 that looked good to him."

Umpire Rankin did well and gave excellent satisfaction by his decisions.

Next Sunday's game will be with the Brainerd's, and an interesting contest is looked for.

Pascal Hill contemplates an addition to the grand stand.

St. Johns now holds second place in the Tri-City League.

BUSINESS CHANGE

Calef Bros. Sell a Half Interest in Their Store.

An important business change took place in St. Johns the first of the week when Arthur C. Gesler of Hastings, Mich., purchased a half interest in the popular furniture store of Calef Bros. on North Jersey street. Mr. Gesler is an experienced man in the furniture and house furnishing business and comes highly recommended by his business friends in his former Michigan home.

The many customers of this popular store in St. Johns and vicinity will find Mr. Gesler a thorough business man and one whom it is a pleasure to meet, and all are cordially invited to call and become acquainted.

Peary Should Look in Dakotas for North Pole.

To explain the reason why some people have left the prosperous prairie states, we clip the following from the Volga, S. D., Tribune of May 2: Our correspondent from Medary makes a pat saying when he says—"samples of next winter have arrived," and probably expressed the thoughts of every one on the subject. Early last Saturday morning it began to snow and all day Saturday it snowed and blowed and on Sunday morning there were drifts in this city and surrounding country from three to four feet deep. It is reported that the gauge at the Agricultural college showed sixteen inches of snow, which is probably the most that has fallen at any one time during the winter. Since Saturday the weather has been more pleasant and during the day the sun has come out bright. The nights, however, are cold and it will be several days before all the snow is melted, and it will likely be the middle of next week before farmers will be able to do any work in the field. Altogether the spring has been very backward and farmers are greatly delayed with their work.

Everybody should use stationery containing the map of St. Johns. It will show your friends where you live.

COUNCIL

What Was Done at the Meeting Tuesday Night.

The city council met in regular session at the city hall last Tuesday evening with the mayor in the chair and all members present.

The minutes of the last meeting were read and approved.

Petitions were received for the placing of fire hydrants at the corner of Jersey and Richmond streets and at the corner of Columbia boulevard and Oswego street. Accepted and placed on file.

The Marine Iron Works presented a petition asking for the vacation of a portion of Charleston street, wishing to use the same for the purpose of enlarging its plant. Referred to the street committee.

The following bills were allowed: St. Johns Hotel, feeding pris. \$2.40 Rent for safe. 3.50 Rent for fire dept. 8.00 Street cleaning. 54.70

The following bills for work and material on the city hall were presented and ordered paid:

Godsey bks.	\$10.45
Edmondson	5.10
P. & G. Hardware	4.55
Weimer, hauling	.55
Cement	48.75
Lime	3.20
Lumber, St. J. Lumber Co.	51.57
Black, labor	51.50
Finch, labor	4.00
	\$179.77

In regard to the excess tax of M. L. Holbrook the matter was referred back to his attorney with the suggestion that his action is against the county officials.

The complaint in regard to the sewer at the Portland Woolen mills was referred to the board of health.

The notice offering the sale of the city improvement bonds were ordered advertised in the Daily Abstract.

At the suggestion of the experts who are examining the accounts of the city officials a committee was appointed to purchase a new set of books for the present officials, with instructions to report at the next meeting.

The ordinance relating to the extermination of thistles and other obnoxious weeds was read and laid on the table.

The ordinance granting a franchise to the O. R. & N. railroad for a side track was taken up and referred back to the company to ascertain the terminals asked for, as the same was not stated in the ordinance.

A plat of the Byers addition to the city of St. Johns was presented and accepted.

Should Stop at All Crossings.

Business men on North Jersey street complain that while the street cars stop at the postoffice they will not take on passengers at Chicago street, and mention instances where ladies accompanied by children have been left standing at the street crossing. It does look as though the street car company or its employees would suffer no inconvenience if they would accommodate patrons by picking them up at this point. St. Johns is certainly metropolitan enough to be allowed the convenience of having the cars stop at all street crossings within the city limits. In fact, we believe the crossing at the corner of Chicago and Jersey streets is the only one where the cars do not take on passengers.

Oil the Business Streets.

Again we ask why would it not be a good plan to arrange for the sprinkling or oiling of Jersey and Burlington streets in the business section? Already the dust has become almost intolerable and unless something is done it will continue to annoy and inconvenience all on these streets. The clouds of dust raised by each of the incoming street cars is enough to drive one to distraction, while the constantly passing vehicles also do their share towards keeping the air full of the powdered dirt. If the matter of sprinkling is taken in hand before the hot weather sets in the result will be a thoroughfare that will not annoy residents or visitors.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened it is pleasant to take. For sale by St. Johns Drug Store.
