While unhitching his dray team Monday night Roy Wilcox met with an accident that for a time was thought to be serious. He had his young son with him and while he was unhitching the horses left the boy sitting on the wagon seat. While Mr. Wilcox was unsnapping the neck yoke the young man on the seat struck one of the horses a sharp cut with the whip. As quick as a flash the animals leaped forward, knocking Mr. Wilcox down, cutting his head and badly bruising his back. Dr. McChesney was called and rendered surgical aid to the injured man. The team enjoyed itself by running several blocks before they were caught.

### PROPERTY VALUES

The Assessor Making Inquiries for Assessment.

Deputy North, Assessor Sigler's right hand man in the county assessor's office, was in town Monday making inquiries in regard to property values so as to be able to make up his assessment roll satisfactorily to all concerned.

"What we want to do," said Mr. North, "is to give everybody an even break on their values. We try to do it every year, but there is generally a kick. Twenty estimates on the values in St. Johns could be made up, and there would be something the matter with each one. The people can help the assessor's office out if they will. We are not estimating the value of the improvements, but are after the real valuations of the land. These values are based on the valuation of the land on March 1 of the present year. An estimate of the values of property in St. Johns that will please everybody is out of the question, but if the property owners and tax payers will cooperate with the assessor St. Johns values will be as near correct as experts and owners can make them."

To allow examination and to obtain suggestions Mr. North left a map with the values of all property in the city plainly marked, with the Commercial club. Any person interested may examine this map and suggestions as to the actual values of real estate in any part of the city will be thankfully received. The assessor and his deputy are entitled to a great deal of consideration for the interest they have taken in the matter, and it is to be hoped that every courtesy will be extended to enable them to get at facts that will help them to render a fair and impartial appraisal of the city's real estate.

### BIG DREDGES

At Work Preparing Ground for the Packing Plant.

Two big centrifugal dredges began work Wednesday deepening the channel in Columbia slough near the Columbia river, on the grounds of the Swift Packing plant. All the machinery is of the latest type and the work is on a scale never before attempted in the West. About 3,000,000 yards of earth will be moved. From 75,000 to 100,000 yards will be pumped a month. The low lands where the packing plant will be built will be filled to a point above the high water mark.

In addition to those employed on the dredges about 40 men are employed clearing off the timber. These men are camped on the ground.

It is expected that the packing plant will be in operation within a year. It will be the largest of its kind in the West. The plant will daily handle 500 cattle, 1000 hogs and 1000 sheep. Besides the packing plant, other industries that will handle the by-products will undoubtedly be built.

Immense stock yards capable of handling all the stock offered will adjoin the plant. The Portland & Seattle and O. R. & N. railroads and numerous lines of steamers will afford unsurpassed shipping facilities. Not only the markets of the coast will be supplied, but those of the Orient and Alaska. Before the plant is complete over \$1,000,000 will be spent.

The Memorial service of the Odd Fellows held at the Evangelical church last Sunday night was one of the most impressive and earnest, and was largely attended. The members of the Order marched into the church in a body, filling the first five pews. The floral pieces and decorations were very artistically arranged, one piece in which the three links, symbol of the Order, were interwoven in purple and white, was especially noticeable. The interior was photographed on Monday, and afterward the flowers distributed among the sick of the city.
