Published Every Friday
BY MARKLE & BYERLEE.
Subscription rates, \$1.00 per year in advance...

THE REVIEW is entered at post office in Saint Johns, Oregon, as mail matter of the second class under the Act of Congress of March 3, 1879.

Official Newspaper of the City of St. Johns. Phone East 6186.

FRIDAY, JULY 5, 1907.

SALUTATORY.

With this issue of the paper the St. Johns Review makes its bow and bid for public favor under the new management.

First, we wish to advocate those measures and movements which will give St. Johns continued advancement, permanent and extensive. We are not in favor of anything which will result in a step backward, nor will we willingly or knowingly support such a measure.

Second, we wish to gather the news happenings in St. Johns and surrounding country. We do not wish to miss an item of news, and it will be esteemed a great favor for our friends and readers to assist us in this work, and such assistance shall be reciprocated so far as we are able.

As for The Review it will be enlarged and improved as rapidly as the advertising patronage and moral support of the paper will permit. No labor, care or expense will be spared to place and keep it in advance of the needs of our city.

With this brief outline of our objects, we beg to subscribe ourselves, Yours for a bigger and better St. Johns, MARKLE & BYERLEE.

The effects of the Sunday closing law is already quite noticeable in St. Johns, and the Portland boosters who came down here Sundays to fill their tanks are now giving our police force a chance to attend church.

What makes a man feel out of sorts is to sprinkle his lawn and garden nicely, take a short, well earned rest on the front porch and then see a nice gentle shower of rain drop over the work he has just finished.

The outlook for St. Johns becoming a manufacturing center continues to get brighter and brighter. New industries are coming this way in a gratifying manner, and scarcely a week passes but a new plant purchases a location or makes an investigation with that end in view.

The Reed-French Piano Co. of Portland had a number of our residents guessing and endeavoring to think up all the old chestnuts they ever heard of to find something appropriate for a catch-phrase for this enterprising firm.

The Haywood trial is still an absorbing topic of interest, and has been the cause of many heated discussions. From the evidence adduced it is hard to forecast what the result will be; but one thing is sure, and that is, if the many men who were murdered during the mining troubles were properly avenged, the rope trust would do a rushing business for awhile.

METROPOLITAN EDITOR.

D. N. Byerlee has sold his farm west of this city and has purchased a one-half interest in the St. Johns Review, of St. Johns, Ore. Mr. Byerlee is one of the old pioneer newspaper men of Hood River. He served for many years on the Hood River Glacier and at present is serving as city editor of the News Letter of this city.

We reproduce the above clipping from the Hood River Glacier that we may be able to remove a wrong apprehension from the minds of the readers of that progressive paper. The city editor of that publication, Mr. C. D. Nickelsen, who is responsible for the above effusion, has here given prima facie evidence of a very "fertile imagination" and a hard heart to send us down here with such a reputation. We are not like the Arkansawyer "half horse and half alligator," but like our friend Chris, our paternal ancestors used to wear wooden shoes and eat sauer kraut and hot wienies in Der Vaterland; our mother was a little Hoosier girl and notwithstanding the "wassergeschlichkeit" taint in our makeup we glory in the fact that we are a full-blooded American citizen, and while the first part of the above clipping would lead us to think that Chris had been eating "hashes" we are grateful to him for his closing remarks and assure him that his good wishes are fully reciprocated.

As an instance of sublime faith in humanity ex-Mayor Schmitz takes the cake. He has the gall to profess to believe the people will elect him mayor. A mayor presiding in prison garb would present an edifying spectacle.

Science has at last firmly secured (in their own minds) the cruel fact that kissing is unhealthful and absolutely dangerous at times. If this decree of unromantic and stony hearted science is taken seriously the light of the world will grow dim. Shades of the old apple tree, what next?

The murders that now occur throughout the United States under the protection of the "unwritten law" are getting to be something fierce. If the thing keeps up it will not be safe to walk down street with another man's wife, and as a consequence, life would lose half of its pleasures for many.

Circular No. 19 of the railroad commission of Oregon has been received and if the provisions of the commission are carried out faithfully, there is no doubt but the shippers will be greatly benefited. It is also true that the overworked agents will not hail the arrangements with delight. Now, if the commission will do a good stunt in compelling the railroads to furnish adequate help at overburdened stations they will do as much to facilitate shipments as they have in this car schedule.

The garbage question is one of the toughest propositions the city fathers have had to battle with thus far. The question where to secure a suitable location for the refuse dump is the sticking point. Nobody wants it within seven miles of their residence, and when any one possessing what might be thought an ideal locality for the nauseous deposit is approached by a member of the committee having the matter in hand, they shy off and break for cover as soon as the project is mentioned. What to do in the premises is the quandary. It is needed, badly needed. Suggestions have been made such as building a furnace and consuming the city's off-fallings in this manner, but this would require a fireman. Other remedies have been advanced but nothing definite has been settled upon. The council is still open to conviction, and if some kind hearted individual with the interest of the city at heart will please step forward and offer some feasible solution to the conundrum he will receive all honor and glory and a sorely tried council will rise up and call him blessed.

CITY COUNCIL IN SESSION

Lengthy But Interesting Mass of Business Transacted Tuesday Evening.

The council was called to order about 8 o'clock Tuesday evening by Mayor Couch with every member of that honorable body in his chair, and the recorder and city attorney on the side. The minutes were read and approved.

Mayor Couch then gave a representative of the Norris Safe & Lock Co. an opportunity to present that firm's proposition for putting in the cell cages of the city bastille. These cells he proposed to build four in number, 4 feet 6 inches wide, 6 feet 6 inches long, 6 feet 6 inches in height, of Bessemer steel, all corners 2x2 inches, angles firmly riveted and to be built of 1/4 inch steel. The front lattice to be made of 1-2x1-2 steel bars, the upright bars to be 2 inches apart and horizontal 12 inches apart riveted at the intersections. The steel is to be openhearted steel having a tensile strength of 80,000 pounds to the square inch. His price was \$1185. Proposition was referred to the building committee.

Attorney Parker presented the claims of the Marine Iron Works for the vacation of Charleston street in a very forcible manner and wanted the business done right then and there. As it had not yet been possible for the county engineer to make the necessary survey of Richmond street, the mayor informed Mr. Parker that as soon as this could possibly be accomplished he would have the petition acted upon without delay.

A communication from the city engineer stated that the second payment of \$500 to Crook & Walton for inside work on city hall was due and payable. On motion of Alderman Leggett the payment was ordered.

A little bit of interesting history bobbed up here in the communication from the Daily Bond News enclosing a bill of ancient lineage in the amount of \$37.50 for bond ad. It seems that there is no one connected with the city who ordered the advertising covered by the bill, or who has any certain knowledge of the same. The Daily Bond News called attention to the disreputable reputation the failure to pay this bill would give the city, and that when other bonds were issued the city would likely be up against it hard to find any one to float the bonds if they did not pay this bill.

The fact that the party sending the bill has sent duns similar to this to three or four of the council or other officers and citizens accusing them of ordering the advertising done, none of whom ever made any such order to the best of their recollection leads them to think there is a nigger in the fence. Mayor Couch requested Attorney Greene to look up the records for any history of the transaction that might appear, and instructed Recorder Esson to write the claimant requesting him to mail the original order to the bank here, and if it proves a true bill it will be paid.

The following bills were presented: John O'Hare for labor on pillars and other concrete work \$874.52. This bill created considerable discussion, but the council did the only thing left for them: on motion of Councilman Raser ordered bill paid, all voting affirmatively except Alderman Dobie who voted, No.

Closing out the Youngferdorf &

Uncle John D. says "it is all off," and he is going to "fess up." What is the topic coming to? Must all us trust magnates give up the secrets of our profession?

Peary should give the north pole a rest and take a shot at the south pole instead. The wily old stork at the north end, however, continues to be the center of attraction for the pole hunters.

A Portland woman came almost marrying her own father recently through the kind agency of a marriage bureau. This courtship by proxy is sometimes a dangerous thing to monkey with.

Good reports are being received from all the fruit sections of Oregon. The crop is satisfactory, the prices are good at the present time and the prospects for the fall fruit crop are the brightest in the history of the state.

The Apaches near Fort McDowell, Ariz., are putting on the war paint and the palefaces in that section are a shade or two paler in consequence. The row started over a shooting of an Indian by the resident Indian agent, said to be in self defense. It sounds like an

Son contract; on motion of Councilman Walker was ordered paid.

On motion of Councilman Raser the above were ordered paid.

The matter of putting toilet in basement and doing necessary concrete work for the same was discussed and on motion of Councilman Leggett the building committee was instructed to have work done.

Expert Accountant Downs, who is engaged in experting the city recorder and treasurer's accounts of bygone days, reported to the council that he was wrestling with the matter, and would make his final report at the earliest date possible.

Mayor Couch instructed Recorder Esson to notify the electric light company that the lights in the old location would not be needed and the telephone company of the city's desire to have their phone changed from the old city hall to the new.

The matter of leveling the park in front of the city hall was discussed but no final action taken. It seemed to be the consensus of opinion of the city fathers that the lot should have the sidewalks built and lot graded down to an even grade with the surrounding territory and surplus dirt, if any, removed.

Gas franchise ordinance was presented and discussed, and the committee instructed to take the matter up for further information.

On motion of Councilman Dobie it was decided to subscribe for a copy of the Portland city directory.

The report of Recorder Esson was read and accepted on motion of Councilman Raser.

The matter of disposing of the city garbage was brought up and thoroughly discussed without arriving at any definite conclusion, it being a problem beyond the ken of our lawmakers. Mayor Couch became enthused with the spirit of the approaching national birthday and suggested that a city hall without a good flag pole and the stars and stripes fluttering in the breeze would be as homely as a bob tailed dog and generously offered to furnish at his own expense the necessary rope and pulley and lend the city his five ten-foot flag until some good modern Betsy Ross supplies the city with one of its own. The mayor was heartily seconded by the council and on motion of Councilman Dobie the building committee was instructed to erect a suitable flag pole on the east end of the city hall.

A short discussion on the "good of the order" was indulged in by the members of the council and others. Mayor Couch complimented the members of the building committee on their good and earnest work on the city hall, particularly Councilman Leggett, who has been on the ground almost every day since he went on the committee and to whose energy and good judgment much of the present success of their work depended.

Attorney Greene expressed himself in the same vein and Attorney Dey seconded the idea of Councilman Dobie that the proper thing would be to have an opening, a sort of an old fashioned house warming to celebrate the occasion of the occupancy of the new hall. This suggestion was approved by all present and arrangements will be made accordingly.

BASE BALL SUNDAY

Frakes Win An Uninteresting Game at Hill's Park.

Standing of the Tri City Teams. Won Lost P. C. Frakes 10 2 .833 Woodburn 10 2 .833 St. Johns 9 3 .750 Kelso 5 4 .556 Cubs 4 8 .333 Astoria 3 7 .300 Trunks 2 9 .182 Brewers 3 11 .214

The Frakes and the Trunkmakers occupied the center of the stage at Hill's ball grounds Sunday during the absence of the local club. The contest from start to finish was a fine exhibition of how not to play the national game. The Frakes did not have to play the game to win and their chief endeavor seemed to be to keep their score down. Incidentally it might be stated that the Frakes, in the opinion of the local fans, have been having entirely too easy picking. While the local club has been bumping against the toughest propositions in the league the Milliners have been having the easy marks to toy with and fatten the club's percentage. This gives them a decided advantage because it is obvious, to all who have kept tab on the league's progress that at least three of the clubs will be compelled to retire from the league or else greatly strengthen their respective teams.

The patronage at the grounds will keep on dropping off unless the schedule soon takes a turn for the better.

The score at the end of nine poorly played innings stood 5 to 0 in favor of the Frakes.

ST. JOHNS AT KELSO. The St. Johns club won an interesting game at Kelso Sunday afternoon. Many brilliant plays were made by the visiting team, and the Kelso boys at no time had a chance to win. Charlie Moore's superb pitching was the stumbling block for the home club. The Moore brothers, Ripley and Brown were the star performers for St. Johns. The score:

ST. JOHNS. R. BH. P. O. A. E. Hinkle, lf 1 2 0 0 0 O. Moore, cf 1 3 7 0 0 Clarke Moore, 1b 0 2 11 1 0 F. Gains, cf 0 0 3 0 0 Ripley, ss 0 0 1 3 1 McKay, 2b 0 0 1 3 0 Brown, 3b 1 2 1 1 0 Brock, rf 0 0 1 0 0 C. Moore, p 2 2 2 10 0 Total 5 11 27 18 1

GAME AT OREGON CITY.

The Breakers of St. Johns went to Oregon City last Sunday and defeated the Oregon City Grays in a 10-inning game. The Tumwater boys thought the game was all their own until Norene took off his cap. That settled it. Pitcher Gee of the Grays went up in a balloon and the Breakers went right in and broke up the game to the tune of 6 to 5 in their favor. It was the first game the Grays have lost on their own grounds this season and they were greatly surprised to find they could be beaten on their home diamond.

St. Johns Loses to Woodburn.

The St. Johns club lost a game to Woodburn Wednesday at Portland grounds by a score of 6 to 5. It was a hard game to lose as the locals made almost twice as many hits and had only half as many errors as their opponents. A rank decision by Umpire Rankin in calling a three base hit made by Clark Moore in the ninth with two men on bases a foul, was the cause of it all. It looked like a barefaced robbery to the spectators. Rankin's work heretofore has been of a high order and it is unfortunate he fell down at such a critical moment. This made the third straight defeat the locals have suffered at Woodburn's hands, and in the three games each one was lost by one little run.

The finest of calling cards at The Review office.

ST. JOHNS PARTY

Visits the City of Angels and Tells All About It.

A party of St. Johns people—Mesdames Learned, Sutherland, Braasch and Mr. and Mrs. Mills, started on May 2 with the Shriner's excursion for Los Angeles, Cal., arriving there the following Sunday morning with only two stops of a few hours each, one at Sacramento and one at San Francisco; a few minutes stop was also made at Shasta Springs, long enough to allow us all to get out and drink at the spring.

Los Angeles was gaily decorated and the people and bustle there made it seem any other day but Sunday. The next night the Shriners of America marched through the streets, 300,000 people cheering the most gorgeous pageant in the city's history, many blocks long, and with bands from the different states. Detroit had the biggest patrol which boasts of the tallest and shortest drum major in the world. A division of mounted men in gorgeous caballero costumes pleased the crowd, then came the floats, all very beautiful. Tuesday our crowd went out to Venice, one of the many beautiful beaches California can boast of. A delightful day was spent. The next day was a gala day at Hollywood, Paul DeLoonpre giving a reception at his beautiful home. It was a pleasure to go through the great artist's studio, see the beautiful pictures and then through the summer houses where they served refreshments. All were given bouquets of flowers. The band played all day. Friday was Flower carnival. A fine parade. Saturday went to Long Beach, which is fine. Sunday we went to the auditorium to hear Robt. Burdette of Pasadena, Cal., preach. Monday the Shriners went to Ma onic home where everything was done to make the visit delightful. Band and a hall for any of the young folks that wanted to dance, and at lunch time served a splendid dinner. They sent us to San Gabriel mission, a little way from there, which was built 135 years ago; saw the largest grapevine in the world there, then a few miles in another direction to the famous Baldwin ranch; saw orange and lemon orchards. Next day being Mrs. Learned's birthday, she gave a party which was thoroughly enjoyed. The next day we went to San Pedro, 25 miles by electric car, thence by steamer 25 miles to Catalina Island; took dinner and then went in the glass-bottom boat, which was grand; got back to Los Angeles at eight o'clock. Next day Mrs. Learned and Mrs. Braasch went to Long Beach again to visit Mrs. Edgerton, formerly of St. Johns; think they know that Oregon is the best place on earth.

May 17 left for San Diego arriving at two o'clock. Took lunch and went to Coronado, a fine beach, and the beautiful Hotel Del Coronado. Next morning went to La Jolla, saw the church and home where Ramona was married and the old mission and cave, then returned in time to take the 1:30 train back to Los Angeles. Sunday we attended Congregational church and then a few trips in an auto around the city ended our stay in Los Angeles.

May 20 started on our return trip. After a half day train ride we arrived at Santa Barbara. At the Hotel Potter, which is fine, we enjoyed a fine salt bath, and part of the crowd had a plunge bath in a fine bath house. In the afternoon went to the mission founded 121 years ago. The 21st left for Monterey where we arrived at midnight; after a few hours sleep had breakfast, then went with a tallyho party, some of whom were from Salem. After a three hour's ride visiting points of interest, got back for lunch then took train for San Jose, where we remained a week. San Francisco was the next point, with a few hours' stop-over at Stanford University. Arrived at San Francisco, took a one-hour wagon to the ferry. As the strike was on we did not want to stay in San Francisco so went over to Oakland. From there we took in Berkeley and different parks, and went to Golden Gate Park and museum. After seeing all we wanted to of California, took the train without accident for Portland all O. K.

ONE OF 'EM.

Best Medicine in the World for Colic and Diarrhoea. "I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirm, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by St. Johns Drug Store.

Wanted. Hand ironers at the West Coast Laundry. Apply at once.

YOUR LIVER

is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. A positive cure for Constipation, Dyspepsia and all liver complaints. Mrs. F. - Ft. Worth, Tex., writes: "Have used Herbine in my family for years. Words can't express what I think about it. Everybody in my household are happy and well, and we owe it to Herbine." Sold by St. Johns Drug Store.

NOTICE OF SALE.

To whom it may concern: I, Geo. M. Hall, City Treasurer of St. Johns, Oregon, under and by the authority vested in me, hereby give notice that I will sell at the front door of the City Hall for the City of St. Johns, Oregon, at public auction to the highest bidder, cash in hand, on the 15th day of July, 1907, at 10 o'clock a. m.

Block four (4), lot fourteen (14), St. Johns highlights addition to the City of St. Johns, Oregon, or so much thereof as may be necessary to pay the sum legally assessed against the said lot, to wit: the sum of \$75.81, together with interest and costs of sale.

That said total sum of \$75.81 is due by reason of an assessment placed upon the city lien docket of the said City of St. Johns, Oregon, on the 29th day of September, 1906. GEO. M. HALL, City Treasurer of St. Johns, Ore.

By C. A. Wood, Deputy. Published in the St. Johns Review June 21, 28, and July 5, 12, 1907.

IN THE CIRCUIT COURT OF THE STATE OF OREGON, COUNTY OF MULTNOMAH.

E. R. Hogan, Plaintiff vs. Mary Hogan, Defendant.

To Mary Hogan, Defeniant: In the name of the State of Oregon: You are hereby summoned and required to appear and answer the complaint filed against you in the above entitled suit on or before the 31 day of August, 1907, which is after six weeks have expired from the date of the first publication of this summons. It is prescribed in the order for the publication of summons that the summons be published for six successive weeks, and said order was made and dated the 14th day of June, 1907, and the first publication thereof is made the 21st day of June, 1907, and if you fail to appear and answer, the plaintiff will apply to the court for the relief prayed for in his said complaint, to-wit: that the bonds of matrimony heretofore and now existing between the plaintiff and defendant be dissolved, and for such other and further relief as shall seem equitable.

This summons is published once a week for six successive weeks in the St. Johns Review by order of the Honorable Judge Cleland, Judge of the above entitled court, and made the 14th day of June, 1907.

H. DESLINGER, Attorney for the Plaintiff, 414 Chamber of Commerce.

First insertion June 21, 1907; last insertion August 2, 1907.
