We Want the News.

It is the earnest desire of the publishers of The Review that every resident in the city take a personal interest in the paper and tell us of the happenings in their respective vicinities. It is a very difficult matter for an editor to get onto all the news in a city the size of St. Johns, however much he may desire to do so. Let each citizen constitute himself or herself a committee of one to help us out in our endeavor to print all the news as it takes place. If there is a friend from a distance visiting you drop into the office and tell us, or call us up by phone. A postal card would answer the same purpose.

Your guest would appreciate this act on your part and the same would be gratefully received by us. Do not hesitate because of any false modesty, or because you do not know how to word the item properly. We will attend to that. Just give us the name of the guest, where the party resides and how long he or she intends remaining in the city. If you are improving your property or intend going on a visit yourself kindly advise us of the fact. Any items of interest of any nature will be gladly received.

The Review intends to make a special effort to get all that is going in a news sense, but cannot do so unless we have the co-operation of the citizens of St. Johns. Remember this fact, and the next time you know something tell us and we will let everybody know.

Serious Runaway Wednesday. Charlie Leland, a 14-year-old lad, was down at Stewart's station delivering vegetables about 10 o'clock on Wednesday morning, and as he started the horse the wheel struck a stump and frightened the animal. The horse started to run and went over a little knoll, throwing the boy out on the ground. He struck on his head cutting a frightful gash in the back of his head, bruising his arm and jarring him up badly.

The little fellow was taken to the home of his grandparents, Mr. and Mrs. G. Ward on Jersey street north of the postoffice, where a physician was called and his wounds attended to. The physician said that had the lad fallen on hard ground instead of the soft dirt his injuries would most certainly have proven fatal, but as it was the boy would be able to be up again in a few days. He is an industrious little fellow and feels the loss of time as badly as he does his injuries.

For Sale. 2 lots and 8 room house at Hood River. Will take part pay in St. Johns unimproved property. B. F. Belieu, St. Johns.

The Doctor Away from Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by St. Johns Drug store.

Prescriptions

Require careful attention and only the purest of ingredients should enter into their composition.

Our Drugs are Pure

And only the most careful attention is given each prescription.

If you have not yet become a patron of our store, the next time you are called upon to have a prescription filled or in fact require drugs of any nature, give us a trial visit, and if courteous treatment, pure drugs and careful service count for anything you will come again.

IMPORTANT NOTICE

Something That Should be of Interest to All.

It is the intention of the publishers of this paper to have every citizen in this community enrolled as a subscriber for The Review, if such a happy condition can possibly be brought about. There is no good reason why the local paper should not be in every home. Its mission is to give the happenings as they occur and do all in its power to boost St. Johns. While the profit derived from subscriptions is but little, the fact that the people in general are interested enough to subscribe is a great help and encouragement to the editor.

In order that all may become familiar with The Review a free distribution will be made for the next two months. At the end of that time, or September 1st, The Review will be published semi-weekly, provided patronage justifies it.

The subscription price will then necessarily have to be raised to \$1.50 per year. In the meantime subscriptions will be booked at the rate of \$1.00 per year. This is a point that should not be overlooked. Come in and subscribe.
