TRUNKS ARE SHUT OUT

Locals Play Fine Ball Defeat Opponents with Ease

Standing of the Tri-City Teams.			
	Won	Lost	P. C.
Woodburn	15	5	.750
Frakes	14	5	.737
Kelso	11	4	.733
St. Johns	15	7	.687
Astoria	6	11	.353
Brainards	6	14	.300
Trunkmakers	5	13	.278
Brewers	4	16	.200

The St. Johns team defeated the Trunks in a rather pretty contest at Hill's grounds Sunday. The locals put up a fine article of ball and their opponents had no show whatever of winning. Charley Moore pitched a superb game, allowing only three hits off his delivery. The features of the game were splendid catches of a fly ball by Hinkle and a fowl by Catcher Otto Moore. The score was 5 to 0 in favor of the locals.

THREE IN A BUNCH

The Wisecracks' Predictions are Faithfully Fulfilled

When the fire occurred at the Smith Pharmacy Wednesday morning the weather "profits" predicted two more. How they were able to catch on we do not know, but they came in regular 1, 2, 3, order, Thursday morning the fire destroyed the fine residence of Mr. Adams and Friday evening the alarm was given for a fire at the residence of J. P. Wrinkle while we were coming down the street. We could tell the different members of the fire company. They jumped about 'seven feet high at the first tap of the bell, and so suddenly they jerked the tacks out of their boot heels and "lit a runnin'." Then there were just so many long, lean, hungry streaks of "genus calorix pueris" all the way down to the fire house.

In about four minutes from the first tap of the bell a lively procession headed by Mayor Couch and the fire department was strung along Ivanhoe street; but it was met near the residence of Postmaster Valentine with the information that the game was declared off, the cause of the alarm being a flue burning out. It afforded good practice for the boys, however, and was a wise precaution on the part of the family to call for help in time.

A Serious Operation.

George McIntosh, a prominent Hood River fruit grower, who is attending his wife in a Portland hospital where she has been operated on for gall stones, took the opportunity to run over and call on some friends here Saturday. Mrs. McIntosh was in a very serious condition and for a time her life was despaired of. So serious was the case and so far advanced the disease that the physicians found it necessary to remove the gall bladder entire. Mr. McIntosh says she is doing nicely now and he hopes she will be able to return home soon. Mrs. McIntosh's friends in Hood River and elsewhere will be delighted to receive this information. We tender these good friends our heartiest congratulations and trust the lady will rapidly regain good health.

Returns from Eastern Visit.

Mr. Ed Hurlbut, who has been visiting his brother-in-law, Bert Henderson of Green Bay, Mich., returned this week. He reports a good time and very pleasant visit with his old friends, but misses many of his acquaintances of early days because of removal from the old home neighborhood. He says Mr. Henderson, who was in St. Johns some years ago, wishes to come back and as soon as he can dispose of his property there will do so, and probably erect a paint manufacturing plant here. We trust he will be able to meet his desires at an early date.

HAD AN AWFUL TIME

But Chamberlain's Colic, Cholera & Diarrhoea Remedy Cured Him. "It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy."—Sam H. Gwin, Concord, Ga. For sale by St. Johns drug store.

THE RIGHT BEGINNING

Don't Quit After Leaving the School Work.

Hutchins Smith (I shall call him by that name here) is a friend of mine in Portland who works for an electrical company. He gets several thousand dollars a year, although not so very long ago he thought he was doing well when he got several dollars a week.

Smith, when he left school to go to work, started right. He made up his mind to know all he possibly could about electricity, and he soon discovered that the easiest and best way to do this along with his work was to read the books in the public library on this subject, to read the electrical papers as they came to the reading rooms every week, and to watch for all the new books on electricity that came to the library from time to time. In this manner Smith worked his way up from one position to another in the company. Was not that worth while? And boys and girls, young men and young women, are doing this right along in all our cities—learning more about their daily work, getting ideas from books and papers in libraries; in this way continuing their education.

You must not think because you have left school that your education is finished. This world has no use for the boy or girl who has stopped learning.

Do you think there is no opportunity for you to continue to learn from books simply because you have left school? Such a thought is a great mistake. Opportunities to learn come to everyone. They even break into jail, for some of the men in prison, with only half a chance and a record to live down, are using books to fit themselves successfully to do good work after they get out. Have you ever thought of continuing your education while you are at work? There is an educational institution that enables you to do this very thing—whatever business, trade or calling you may follow. This institution is the St. Johns Public Library and Reading Room which is being kept open all for your information and your enjoyment.

The schools teach us to read and write and a lot of the things we know. But we don't stop learning when we leave school, for the gaining of knowledge is a "continuous performance." It lasts as long as we live, and there is no end of interesting and useful things to know—about our city, our state, our nation, about science and about art; and, most of all in its immediate importance, about the very work we are doing day by day and by which we earn our living. To know these things makes life more interesting, fuller and richer in every way, and it makes us more valuable both to ourselves and to our friends.

And this is what thousands of young men and women are doing in the public libraries all over the world—learning more and more about the world and the work they are doing in it from the books and magazines and papers in the library. They are doing it right here in St. Johns. Why not you? It will afford me pleasure to talk this over with you, whether you are now using the library or not. I am sure that you, like every other boy and girl on leaving school, want to get the right start. Don't quit.

and lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine for these troubles on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." For sale by St. Johns drug store.
