Local News.

If you are interested in Bible study hear Rev. Brenneison in M. W. A. hall Sunday.

Clement Wolf of Salem visited with his sister Mr. J. B. Cambell Thursday of last week.

The handsome residence of Gilbert Goodhue on South Jersey St. is rapidly nearing completion.

Mrs. M. Carl of Washougal, Wash., was a guest of Mrs. G. Ward the greater part of last week.

L. A. Crane, who has been employed at Bandon for the past year where he aided in the construction of a large saw mill, returned to this city Tuesday.

O. P. Wolcott, the rent man, besides elongating his building on Jersey street, has erected a stable at the back end of his lot for the housing of his steed.

W. D. Huntington and wife who have been spending the past week or so at the residence of Eugene Wright in this city, left for their home near Kalama Monday.

W. H. Hamilton has a quantity of nice squashes and pumpkins to sell. Any one desiring vegetables of this nature should call at his residence at 214 Fillmore street.

Adam Kaemlein and his best friend spent several days at Gaston the past week. Adam promised to bring home a number of China pheasants, but failed to redeem his promise.

A letter from D. C. Rogers states that he is now in Chicago undergoing treatment for his hearing, and that he is being greatly benefited thereby. It is likely that he will once more become a resident of St. Johns in the near future.

Any one having use for a couple of small wooden buildings would do well to consult an advertisement in this issue. The city of St. Johns has no further use for such buildings and are offering them for sale. The highest bidder gets the goods.

Janitor Clark has made complaint about the number of boys who are not pupils that gather around the North End school house during the dinner hour and use profane language. He says if it is not soon stopped there will be something doing in that neighborhood.

The Portland & Suburban Express Co. is doing a great business these days. Piles and piles of goods are received daily over their line. The management is very accommodating and the prices charged are quite reasonable. St. Johns would have a hard time getting along without this service.

Mrs. M. E. Scott has taken possession of her new rooming house on the corner of Leavitt and Ivanhoe streets. This building has been remodeled and thoroughly overhauled, so it is now one of the finest and best located rooming houses in the city.

Somebody, who evidently neither "fears God nor regards man" has been appropriating fowls in a foul and felonious manner in North St. Johns lately. We know two or three citizens in that district who are sleeping with one eye open and one hand on a shot gun loaded for bear. A word to the wise is sufficient.

The government snag boat Mathlomag pulled into port at the government moorings across the river Monday. This boat is employed in pulling snags along the upper Willamette. Old roots and stumps that may be lodged in the waterways are pulled out, sawed up and thrown upon the beach. The boat will return to work in a few days.

L. B. Hile attempted a true western mining town act Monday evening. He tried to make the horse he was riding go into the Central bar room, but a cold hearted and unromantic cop nailed him before he had accomplished his purpose. He was taken before the municipal magistrate, who unsympathetically fined him ten dollars.

J. A. Green and wife of Albion, Neb., are visiting at the home of W. H. Hamilton this week. Mr. Green made a visit here ten years ago and is amazed at the growth of the city since that time. Both he and his wife are greatly impressed with this part of the world, and it is likely they will invest in St. Johns realty before leaving for their home.

After a newspaper man has yelled himself hoarse, says an exchange, in an effort to persuade people to patronize home merchants and accidentally stumbles on to the fact that some fellows he is trying to protect are sending away for their job printing or are using printed matter sent out by patent medicine houses, soap factories or other concerns, it rather shakes his confidence in mankind, and makes reciprocity look like a lead dime with a hole in it.

St. Johns day at the Gresham fair was only a partial success. Efforts were made to secure special cars to carry the crowd to Portland and from thence to the grounds, but Manager Fuller paid no heed to the request of the committee for such transportation, and as a consequence our people had to run chances on the regular service. As a result less than half the number attended that otherwise would have done so yesterday.

W. H. Hamilton, jr., of Vancouver, spent several days with his parents here the past week.

Mrs. Sophia Cole left last Friday for a couple weeks' visit with her son, Elder J. M. Cole at Salem.

A new warehouse is being constructed at the government moorings. This will furnish Captain Batter with room that is badly needed.

The subject of Rev. Brenneison's lectures Sunday are 3 p. m.: "The Three Worlds of the Bible;" at 7:30 p. m.: "The Three Ways of the Bible."

Second growth of vegetables in St. Johns is getting to be a common thing. Many of our residents are now using their second crop of berries, peas, beans and potatoes.

In our last issue we erroneously stated that Mr. Stanford was one of the originators of the Oregon Corn Flake Co. Mr. Page informs us that he alone is the proprietor of this project.

A sermon, illustrated by stereopticon slides will be given at the Congregational church Sunday evening. There will also be special music. The public is cordially invited. G. W. Nelson, pastor.

Miss Nettie Marcy and Mrs. Belle Thayer, who were sent as delegates to the K. L. C. E. convention at Dayton, spent a few days visiting at the home of Rev. E. E. McVicker and family at Lafayette.

A large force of men is now at work on the grounds of the Alaska-Yukon-Pacific exposition at Seattle. All of the grading will be finished by January 1. In the meantime several exhibit buildings will have been started.

Mrs. Eugene O'Hara returned Wednesday evening from the Portland Sanitarium where she had been for the past three weeks undergoing a serious operation. Her many friends are glad to see her home again and feeling better.

Portland, Oregon, is planning to erect a building at the Alaska-Yukon-Pacific exposition, and install therein a municipal exhibit. Spokane, Tacoma, and several of the other large cities of the Pacific Northwest will also do the same.

Sunday at the United Evangelical church these subjects will be considered. At 11 a. m., "A Spiritual Earthquake." At 7:30 p. m., "Tongues of Fire; the Untamed Member." All are cordially invited to attend. Chester P. Gates, pastor.

M. W. A. Initiate Members.

A midnight session of the Modern Woodmen of America was held last Thursday evening. A class of candidates were put through the initiatory agony, and a large number of Portlandites were present to assist in handling the fractious goat. Oregon Grape who put on the work, came down with forty odd members and Spruce Camp, also of Portland, was represented by fifty strong. Almost the entire enrollment of local members were present. Refreshments were served and cigars handed out with a lavish hand. The affair was an enjoyable one for all concerned, and aroused much interest in M. W. A. circles.
