

TAXPAYERS' AND PEOPLE'S TICKET

What We Stand For

We stand for a clean business administration by representative business men.

We believe in the reduction of taxation as far as possible.

We believe in a conservative expenditure of the public funds and receiving value dollar for dollar.

We are opposed to the purchase of the ferry or any other public utility without first submitting it to a vote of the people.

We believe in all reasonable improvements which will bring St. Johns to the FAVORABLE NOTICE of the MANUFACTURING and COMMERCIAL WORLD as a SHIPPING PORT.
