Keep Bright and You WILL KEEP BUSY

Electric Light is the magnet that draws trade. The bright store is the "hypnotic eye" of business. People can no more resist the attraction of a brilliant, electrically lighted store than they can resist the clarion call of a brass band. Is your competitor with the electrically illuminated show windows, bright interior and sparkling Electric Sign getting an advantage over you? The moth never flutters around the unlighted candle! Up-to-date stores nowadays consider shop-window lighting a necessity, whether they remain open after dark or not. Competition forces modern methods. A show window brilliantly illuminated with Electric light will make many a sale "the night before." Electric light compels attention, makes easy the examination of your display, shows goods in detail and fabrics in their true colors. And don't neglect the Electric Sign. It is soliciting "tomorrow's" business every moment it is lighted—burning your name in the public mind. It is a solicitor that never becomes weary—never stops work—costs little.

Save Up Your Rocks.

The Atlanta Constitution is generally rotten, but it does once in a while get off something pretty good and just now, considering the financial situation, the following is especially good advice and given in a way that does not give offense:

When the world is sunny,
Save up your rocks!
When you're out of money,
Nothin's ever funny—
Not a bit o' honey,
Save up your rocks!

Time has got a sickle—
Save up your rocks!
If you need a nicker,
You'll be in a pickle;
Won't laugh when they tickle—
Save up your rocks!

Take what life is bringin'—
Save up your rocks!
See the flowers a-springin';
Arms of love a-clingin';
Hear the birds a-singin';
"Save up your rocks!"

The St. Johns Apostles and the Albina Wanderers hooked up in the mud at Athletic Park, St. Johns, Saturday afternoon, and in spite of the threatening weather, a fair-sized crowd witnessed the St. Johns team win a 7-to-3 victory over Helsers' bunch. There were not many features to the contest, which was somewhat slow in spite of the efforts of Empire Rankin to hustle the players. St. Johns is now in second place in the Tri-City League race and next Sunday the team is scheduled to meet the leaders in a two-ply matinee at St. Johns.

After next Sunday the Apostles will likely lose their star pitcher, Wakefield, who wishes to return to his home at Elma, Wash., and pitch for the team at that place during the summer. He will pitch one, and possibly both of the games against the Frakes next Sunday. Philbrick and Brown, of St. Johns, and Burns and Geil of Albina, played the best game yesterday.

More University Matter.

(Continued from first page.)

education in Oregon over to the meat packers' trust as soon as its Portland plant is completed? Their motto is "no higher education except for those who can pay for it." Let the rich have a monopoly of college education, and the poor man do without. Let the rich furnish all the judges and lawyers and legislators, and leave the interests of the people in their hands.

Shall we stand for it, or will the people of Oregon support a university where the sons of the plain people can get an education just as good as young Rockefeller got at Brown? This country has turned its resources and business opportunities over to the few with hardly a murmur. Will it turn its education over to them, too? Will it adopt the theory that all a poor man needs is education enough to read what the trusts think best to print for him? Oregon will, if Eugene Palmer and Cyrus Walker can persuade it. But who is putting up the money for their campaign?

The editor of the Eugene Guard has touched the keynote in the above editorial in that up to date paper. Not satisfied with exploiting the markets, Coal Oil Johnnie and his coteries are gobbling up the universities and other principal seats of learning, where the principles of plutocracy may be embodied in the education of the young. It is up to the people to keep our boys and girls out of their hands and to provide liberally for the state university that it may be competent to care for the education of the farmer's sons, the sons of the mechanic and laboring man; that they may be taught to respect labor, reverse the principles of government instituted by the fathers. In this way may we hope to control the trusts, for by this method we can prepare our

young men for the legislative halls imbued with principles which will uphold a government of the people for the people and by the people. Vote for the university appropriation and a strong support of your state university. Do not vote to kill the university, which means to vote to send our boys to the Rockefeller, Carnegie, Stanford or other trust supported educational institutions to have them trained up into tools for the trusts and make more difficult the hard fight for equal justice between the plutocrat and the common people.

Where Did you Get that Hat?

My scat!
Where did she get that hat?
Who ever did
Invent a lady's lid
Like that?
Who had the nerve to roll it out
And stretch it more and more,
From centerpiece to rim, until
It spreads from shore to shore,
And likewise lifts its summit up,
On birds and other wings,
Above the earth until it scrapes
The clouds and other things?
Who added to the wondrous width
Of brim, so that the space
Could easily accommodate
An automobile race?
Say, who done that?
Who built her hat?
Who made it something never seen
On earth or in the sky.
A flat of wide extended plain.
A mountain towering high?
Cut wider doors for her to get
Inside of any place,
And put the ceiling on the roof
To give her nodding space.
Push up the clouds to let her stand
Erect upon the ground,
And shove the wide horizon back
To let her turn around.
Oh, weirdly, witching, woozy hat
That flattens out and towers—
Who ever saw a thing like that—
A pancake piled with flowers?
A hat contagious—spreading? Yes,
That names the Merry Wid.;
And she who fails to catch it
Should slip out and change her lid.
Gee whiz!
What a wonder woman is!
And my scat!
Where DID she get that hat?
"Aw! come off," she smiling said,
"you rogue,
I bought my lid from Stucker at
The Vogue."

Editor Review: Upon what theory of government is the ordinance based requiring building permits outside the fire limits in St. Johns at a cost of \$1. As the law now stands a poor man buys a lot on the installment plan and erects a two-room house because he cannot afford to build larger; building permit \$1. Next year he is able to put a porch in front, building permit \$1. Now what does the city give him for these dollars he has been compelled to hand out. Nothing. Absolutely nothing. It is not a tax because the state constitution requires all taxes to be equitable, but it costs just as much to get a permit to build a \$50 shack as a \$10,000 mansion. It is not a license like a saloon or drayman's license because it does not give you a monopoly of the business, and a chance to form a trust. Taxes are supposed to be levied for the support of government, for the protection of life and property. Does that \$1 building permit afford you any protection? Not that anybody can point out.

Now, the remedy. The man that kicks without being able to offer a remedy has no standing in court. First repeal the present ordinance. A permit to do a thing always implies a restriction, therefore pass an ordinance prohibiting the erection of fire traps in any part of the city and let the permit to build carry with it an inspection of flues, prescribing of what material and how the flue shall be constructed, as a protection against fire. As matters now stand there is nothing to prevent the erection of any kind of building (except in fire limits) with a stove pipe running out through the roof or side wall, right beside some other man's house worth one hundred times as much, endangering his property by fire. I think this \$1 charge for building permit, under the present ordinance, is the cause of more "cussing" than any other law up on the books. I have had occasion to take out building permits for several parties during the last year, and in every case there has been a kick made, and when asked what benefit they were to receive for the \$1 I was forced to either lie to them or answer none, and then you ought to hear them swear. They would cuss everybody from the president down to the real estate agent that sold them the lot. The whole cost of a building permit and inspection of flues in an ordinary building can be covered by \$1. The permits should only cost the city the paper on which they are written. We have a man that has undertaken to do the clerical work for the city for \$100 per month and I think the chief of police would inspect the flues in any building in town for the other 98 cents.

Yours truly,
S. C. Cook.

RESOLUTION.

Resolved, That the City of St. Johns, Oregon, deems it expedient and necessary to improve Richmond Street from the Southern line of Portland Boulevard, to the Northern line of Willis Boulevard, a distance of 920 feet, in the following manner, to-wit:
By grading same to the established grade, and sidewalk, 12 feet curb and feet walk with such timber and stringers have been used by the council of said City, together with regulation cross walks. Said improvements to be made in accordance with the Charter and ordinances of the City of St. Johns, and the plans, specifications and estimates of the City Engineer filed in the office of the City Recorder of the City of St. Johns, which said plans, specifications and estimates are satisfactory and are hereby approved.
The cost of said improvement to be assessed as provided by the City Charter, upon the property especially and particularly benefited thereby and which is hereby declared to be all the property (land) between the term of such improvement abutting upon, adjacent or proximate to said Richmond Street from marginal line of said street back to the center of the blocks or parts of blocks abutting thereon, adjacent or proximate thereto.
That all the property included in said improvement district, as aforesaid, is hereby declared to be "Local Improvement District No. 4."

The City Engineer Estimates of the probable total cost of said improvement of said Richmond Street is \$2,434.00.
The cost of said improvement Street to be assessed against the property in said Local Assessment district as provided by the City Charter of the City of St. Johns.
Adopted by the City Council April 28, 1908.
A. M. ESSON,
City Recorder.
