It looks good to see one of St. John products on the shelves and counters of our stores. We notice the corn flakes of the Oregon Flake Food Co. in a number of our stores and these flakes are the best ever. They should be and when their merits are known we believe will be in every home in the city.

Charles E. Hicks, editor East Side Enterprise, was a St. Johns visitor Tuesday. Mr. Hicks is an old newspaper man of Oregon, but a recent purchaser of the Enterprise of Independence. His newspaper field is in the hop center of Oregon and right now is the picking season of hops. There are 10,000 hop pickers employed in harvesting the crop. The cost of picking alone is nearly a million dollars annually.

E. C. Monich, former well known resident of this city, but who threw his paint brush away to take up the life of a country gentleman near Selco, was awarded four of the principal prizes for fancy apples at the Linn county fair last week. He has two or three machines in his office and contemplates installing two like ours in the near future.

Readin' and writin', and 'rithmetic Taught to the tune of a hickory-stick You were my queen in calico, I was your bashful barefoot beau, And you wrote on my slate: 'I love you Joe' When we were a couple of kids."

### NEW PUSH CLUB.

A number of our enterprising citizens of the north end put out hand bills Wednesday calling a meeting at the city hall to consider ways and means to further the improvement of Fessenden street and also to see a little into the matter of a public park.

The meeting was of a rather informal order and temporary officers only were elected. A meeting was arranged for next Wednesday night to effect a permanent organization. The gentlemen at the head of the movement are of our best citizens and it means progress for St. Johns. It is a movement that has been wanted for a long time and we have mentioned the need for it, but there are few who wish to take the lead in a matter of this kind because it means much sacrifice of time on the part of the leaders. We congratulate our people in the start they have taken and hope they will make the field of their operations include all of St. Johns. If there is anything that the Review can do to help the cause along we hope the lads will not bestow to make a hole, for we are with them first, last and all the time for anything that is good for St. Johns.

One of the most interesting games of ball of the season was pulled off at Chehalis Sept. 13. The game was between the St. Johns team and the Chehalis boys. The latter club is composed of old league players and they all know how to play ball. The game lasted for 1 1/2 hours, and the Apostles lost by a score of 4 to 3. The Chehalis umpire was quite a factor in the game as he gave all close decisions to the home nine. Another contest between these clubs will be pulled off in the near future when the Apostles will have several of their weak points strengthened, notably the third base and catcher. Manager Valentine expects to secure Whaling of the Portland team or some other good man to play behind the bat. If he does he will give the Chehalis kids the worst Whaling they have been up against since their dad interviewed them in the woods.

Contracts for improvement of Bush ana streets and work will be called for by the city council and work will commence on same without delay. This will furnish employment for quite a number of men and teams.

## Keep Bright and You WILL KEEP BUSY

Electric Light is the magnet that draws trade. The bright store is the "hypnotic eye" of business. People can no more resist the attraction of a brilliant, electrically lighted store than they can resist the clarion call of a brass band.

Is your competitor with the Electrically illuminated show windows, bright interior and sparkling Electric Sign getting an advantage over you? The moth never flutters around the unlighted candle! Up-to-date stores nowadays consider shop-window lighting a necessity, whether they remain open after dark or not. Competition forces modern methods.

A show window brilliantly illuminated with Electric light will make many a sale "the night before." Electric light compels attention, makes easy the examination of your display, shows goods in detail and fabrics in their true colors.

And don't neglect the Electric Sign. It is soliciting "tomorrow's" business every moment it is lighted—burning your name in the public mind. It is a solicitor that never becomes weary—never stops work—costs little.
