VOL. 5

ST. JOHNS, OREGON, FRIDAY, NOVEMBER 13, 1908.

NO. 1

LOCALS WIN AT FOOT BALL

High School Lads Defeat Portsmouth in a Well Played Game Here Friday Afternoon

Conditions were fine for a game of football Friday afternoon of last week when the Portsmouth aggregation came up to show the St. Johns high school boys how to play.

As near as we could learn from the boys the lineup was as follows:

St. Johns	Portsmouth
Arthur Clark	Earnest Stanford
Kohf Anderson	rg Fred Carleton
Emory Gilmore	lg Fay Durlay
Jerome Whistler	rt Frank Turland
Archie Smock	lt Fred Griawold
Brick Doyle	re Wm. McCarty
Harry Mount	le Homer Ferguson
Will Magone	rh Forest Martia
Alex Kerr	lh Walter Perry
Clyde Teeling	qb Geo. Yosd
Earnest Crouchley	fb San Carlender
Frank Crowell	Umpire; Tom Carroll
referee; "Terrible Ted" Crouchley,	timekeeper; Cecil Magone, head
linesman, Elly Woods, assistant	linesman.

It was a spirited game throughout. In the first half Teeling with the assistance of Crouchley covered a punt and made a touchdown.

Brick Doyle caught the first forward pass and made 20 yards before he was brought to grass. Brick did excellent work throughout the entire game, and the high school boys were making it warm for the visiting eleven when "Terrible Ted" called time.

The last half of the game was a more even struggle, some times the visitors were near their goal and again the St. Johns lads would crowd them back almost to a touchdown.

Earnest Crouchley made a splendid kick off. The Portsmouth lads fouled the ball and were penalized 15 yards, but pluckily started in to win them back. The "Saints" were too many for them, however, and it was a sore point to the home team when time was called, for they were just reaching out for another touchdown. With true American spirit the home team cheered their defeated opponents after the game.

The team shows the effect of careful coaching by Tom Carroll and there will be a number of excellent games during the season.

The boys feel grateful to the girls for their loyalty in giving encouraging high school yells and "rooting" for their home team.

There was a fine attendance, the grand stand and bleachers being full to the limit. Nearly if not all the faculty of both schools were present which added not a little to the vim with which the boys played. There was a good attendance from the citizens outside the schools and the football boys wish us to thank the business men and others most heartily for the interest manifested in this team and their game and promise to spare no pains or labor to give them the best game they are able every time it comes their way.

The Review will give publicity to all the games the boys engage in and hope they may be as fortunate in all of them as they were in this game. The lads look fine in their bright new suits and the game was well worth seeing.

DOINGS OF THE CITY COUNCIL

The City Dads Convene and Transact Their Usual Budget of Municipal Business in a Satisfactory Manner

The adjourned session of the city council met Thursday evening all being present except Hunter still absent from the city.

After reading the minutes the recorder read a communication from the Pacific States telephone company signifying their willingness to cooperate with the city in their Police signal as indicated in last week's Review.

Report of Ferry company was received for October with a check for \$7.25. The report showed that the ferry had handled 8193 foot passengers, 150 single rigs and 125 double rigs during the month. On motion of Davis report and check were accepted.

Mr. Bickner presented bid for \$1000 worth of improvement bonds which was accepted on motion of Davis.

Petition for improvement of Monteth street was read and accepted on motion of Johnson and the engineer instructed to furnish a profile of the proposed improvement.

The matter of the South Jersey street improvement was tabled for a week and an endeavor will be made to harmonize the interests on that street and have the improvement made later.

The following bills were allowed on motion of Bonham:

Portland Gen. Elec. Co.	\$159.00
Columbia Elec. Co.	6.00
St. Johns Review	24.33
John Murdock work on street	
Geo. Warner labor	13.75
L. Kluge	21.00
R. Bell	16.00
W. O. McKann street cleaning	4.50
J. Baker	6.12
P. Simmons	1.11
E. Smith	2.75
J. H. Black, supplies	4.80
C. Sagert, wood for hall	16.00
C. Sagert wood for street roller	
	12.00
F. Levin labor	4.00
Chas. Foss	3.45
St. Johns Hardware Co.	2.90
Hoves & Co.	690.00
Marshall Wells	13.40
J. Langan, roddman	19.00
H. Tolliver	3.00
Total	950.87

Profile for the improvement of Hartman street will be held for the inspection of the property owners.

Petition for liquor license from Sam Downey and C. J. Anderson, Samuel Cochrane and two from E. O. Magoon were read and referred to

the city attorney for a written opinion all voting yes.

Deed of M. L. Holtbrook for certain lots was noted and held for further investigation.

Water ordinance passed the council all voting yes.

Garbage proposition was still held over for further information.

Half of the money on the opening of Willis boulevard is paid in and the council expects that all property owners will make good without the necessity of legal proceedings.

On motion of Doble the water and light committee was given authority to install the new electric police signals.

On motion of Davis the recorder was requested to take the matter of excess charges up with the Pacific States company and ascertain why they are charging higher rates than their franchise warrants. The vote of the council was unanimous or all of these propositions.

The 31st session of the city council convened about a half hour late in the council chamber Tuesday evening, with Hunter and Johnson absent and 1-1/2 in tardy, but were soon lined up and at work with a vim.

Petition of the citizens on Stafford street to improve that street from Leonard street to the city limits, was read and on motion of Bonham was accepted and placed on file.

At this time, a representative of Kerr, Gifford & Co., of Portland, addressed the council in behalf of his firm and asked that an appointment be made, or a committee appointed to meet with the firm looking to the leasing of the dock. He made some objection to the dock as not being large enough to meet their demands, but as the city has more ground immediately adjoining the dock the same may be extended. The mayor then assured the gentleman that a committee would be appointed to meet with his firm as requested.

Resolution to improve Stafford street as petitioned by grading the street and constructing a 6-foot cement sidewalk was read and on motion of Davis was adopted.

Petition for the improvement of South Jersey street was also read and on motion of Doble petition was accepted and placed on file.

Petition to improve South Stafford street from Polk street to the south line of the city of St. Johns was read and on motion of Doble was accepted and placed on file.

Profile of grade on Hartman street as presented by the city engineer last week was adopted on motion of Bonham.

On motion of Davis city engineer was instructed to establish grade on Hartman street in compliance with profile adopted.

Resolution to improve South Jersey street was adopted on motion of Miller.

On motion of Davis preliminary resolution was adopted instructing city engineer to prepare estimate for improvement of Thompson street from Myers street to Willis Boulevard with 5-foot cement walks.

On motion of Loble Hunter was granted 15 days additional leave of absence.

Resolution for the improvement of Thompson street was adopted on motion of Bonham.

Resolution to open East Richmond street instructing the engineer to furnish profile showing location, etc., from Jersey street to Willis Boulevard was passed on motion of Bonham.

On motion of Bonham the city attorney was instructed to prepare a waiver of the remonstrance against the improvement of Pittsburg street and an agreement for the city to keep the improvement of this street in good repair for the space of five years. All voted yes but Doble, who voted, No.

On motion of Doble it was determined to readvertise East Burlington street.

The following bills were allowed on motion of Bonham:

L. Kluge, labor	\$ 4.95
Portland Sub. Ex.	.75
Claud Poff labor	4.00
R. Bell labor	6.00
Sol Coppel labor	8.00
H. Rasmussen labor	2.00
W. O. McKinney labor	6.00
W. R. McKinnon labor	1.00
J. Plum, labor	7.25
J. Baker, labor	19.00
Geo. Warner, labor	25.50
E. L. Nickel, labor	12.00
J. S. Downey	1.00
C. J. Anderson	3.00
Jack Langan, rod man	12.00
R. McKinney Spl. Service	1.50
Geo. Ethridge, fumigating	3.00
O. K. Restaurant, meals	8.40
St. Johns Planning mill material	1.48
M. Wills & Co., supplies	11.46
J. E. Hazlett, labor	29.26
Total	\$147.30

SHOULD AID OUR INDUSTRIES

All the Encouragement Possible Should Be Used in Keeping Enterprises in Our City

We are howling, the most of us for more factories and business enterprise for St. Johns, and we think it is right to make a "howler" in this direction, it is music to our ears; but there is another thing that we should "watch out" for and that is to take good care of the ones we have. Of course the city cannot do everything and cannot do most things just as quickly as many would like. There is some danger of losing the Hollow Concrete Block factory of W. N. Mason, which is giving employment to about a dozen men and is growing rapidly, bidding fair to become quite a manufacturing institution. Mr. Mason tried to buy crushed rock from the city. The price asked for it, however, at the crusher, \$1.25 per ton was prohibitory. As to that we have nothing to say. It may be too high, the city may be able to make a profit at half the price, or it may be right and just, we do not know; but it does seem that the city could sell to Mr. Mason at the same price as to the contractors, 89 cents per yard. Failing to get a price that would justify him in using the crushed rock Mr. Mason now pro-

poses to ship in gravel, install a small crusher in his factory and crush his own stone. The only obstacle in the way of his doing so is finding a suitable dock. Mr. Mason says if he cannot get a suitable dock here he will be obliged to move his factory away from St. Johns to where he can get such an accommodation. It appears to us that the city might lease Mr. Mason the Richmond street dock as soon as the new dock is finished, for undoubtedly almost the entire business of the city will be done over the new dock, and there will be but little if anything to do on the old dock. If Mr. Mason can secure dockage he will keep on hands at all times sand and gravel so that any quantity may be obtained at any time for the improvement of our streets and sidewalks. This will not only prove a convenience to Mr. Mason but to the city also when the people may need sand for the sidewalks, or for sand binder on the streets. We believe it would be doing a good thing if the city fathers would strain a point and lease the Richmond street dock to Mr. Mason if possible.

K. of P. Will Erect a Building of Their Own

Homes Lodge 101 Knights of Pythias has the reputation all over the state of being one of the most practically one of the strongest if not the jurisdiction; having made the most rapid growth, manifested the strongest fraternal spirit, and is financially one of the strongest if not the strongest lodges in the city.

Their latest move is to acquire a lot and erect a building with a hall on the second floor and business rooms on the first. A building association has been incorporated under the laws of the state for this purpose and the stock is being rapidly taken by the members and others. Proposals for bids on a lot 50x100 or larger is being advertised for in another column and the time set for opening the bids is set for Friday night, November 27. The building when erected will be a credit to St. Johns and a splendid home for the lodge.

A Big Help if Money Was Kept in St. Johns

Several of our business men have spoken to us in regard to the fact that about 75 per cent of our teachers in our two fine schools live outside of St. Johns. This is something that we do not know any thing about. They make the claim that we are paying out about \$2000 a month to our teachers, and about \$1500 per month of that goes outside of St. Johns direct, to say nothing of a healthy portion of the other \$500 that keeps it company. Even if it is true we don't see anything that can be done about it at this time. When the new teachers are to be employed, however, there might be something done to prevent this by making it a part of the contract that the instructors must make their home in St. Johns during the term of their incumbency. This would be perfectly legitimate, and we do not think the teachers would object to such an arrangement.

A Trying Experience

J.-G. Helms who had the misfortune to get his arm broken some time ago, underwent another surgical operation a week ago last Saturday. Several weeks ago the surgeons cut his arm open and placed the bones together and wired them up, thinking they would knit together, but the bones would not grow together and after some time the arm was again opened last Saturday, a week, and the bones cut back to the good, sound, green bone and again wired up and put in the plaster cast. Mr. Helms says the bones will knit together and make a sound arm. It is sincerely hoped that they will for he has had a very trying, serious time with his arm.

Getting Along Nicely

A letter recently received by City Attorney Collier from C. W. Potter states that Mr. Potter is in the finest of health, working hard every day and weighing over 200 pounds, all of which would indicate that the Medford country agrees with him nicely. A few weeks ago Messrs. Potter and Gould sent the Holmes lodge K. of P. a box of the most delicious Buerre d'Anjou pears which the boys did full justice to, at the same time the smiling countenances of these good brothers were visible "by faith" and enjoying the feast. There is only one thing that would have pleased the boys better than the box of pears and that would have been to have the donors step into the hall in person. May their "shadders" never grow less.

Long Wedded Life

Rev. and Mrs. Chester Paul Gates of the Evangelical church went to Dallas last Tuesday to visit Mr. Gates' parents, and returned to McMinnville today, where they will attend the 57th wedding anniversary of Mr. Gates' grandfather and grandmother Hoberg. This is a wonderfully long married life and the many friends of Mr. Gates and his grandparents will join us in wishing these good people many more felicitous years here before they go to their reward.

Construction is under way on eleven miles of paved paths and drive-ways at the grounds of the Alaska-Yukon-Pacific exposition.

St. Johns Leads All

E. B. Putnam of South Dakota, who has been making a tour of the coast stopped a day or two with his old friend, J. F. Hendricks. Mr. Putnam is a wealthy farmer near Artesian, S. D., and state to his friends here that in all his travels he had seen nothing that looked so good to him as St. Johns. Mr. Hendricks took him over the town and showed him the water front with its busy industries and the many locations for other such institutions, and the visitor was deeply impressed with the prospects for the future greatness of St. Johns.

Save Your Coupons and Vote for Mrs. Valentine

"Now is the time for every good man to come to the aid of the party" is a maxim we used when a boy learning to use the typewriter. We wrote that until we could see the words with our eyes shut, but just now it is for another purpose. There is a contest on between St. Johns, Oregon City and Vancouver, Wash. The Telegram has offered to send a lady from one of these cities to Alaska to see everything worth seeing there and to take in the Alaska-Yukon exposition.

Mrs. F. W. Valentine has consented to enter the contest as a candidate and if we had looked the city over we do not know of one who would make a better one. Mrs. Valentine is a very popular lady and worthily so, for she is a most excellent lady in every walk in life. She is a model housekeeper, is an energetic worker in her lodge and in all the circles in which she moves. She is the personification of kindness and gentility and is always the same. She does not meet and greet you with smiles one time and then, when in "big company" ignore you as the manner of some is. She is known by almost every one in the city and liked by all who know her, hence we predict a phenomenal vote. Please watch your Telegrams, cut out the coupons and vote early and often for Mrs. Valentine. Don't miss a ballot. If you are in the habit of subscribing by the year or month be sure to make a long distance subscription ahead so as to capture a larger number of votes. Let us send our candidate to the famous gold regions. It will cost us nothing extra and will give her a vast amount of pleasure. The beauty of it is that

Should Realize Easily 12 Per Cent from Dock

The Telegram recently remarked that it was expected that the city of St. Johns would realize \$3500 a year rental for their new dock. We do not know how the brilliant journalist secured his information or arrived at his conclusion if it was a surmise, but he certainly is way off. The city paid out \$60,000 or will have done so when the dock is finished for this fine piece of property. It is paying six percent on the dock bonds, four per cent for wear and tear of the dock is little enough, they if the dock is leased there should be a small percentage of the profits of operating the dock accrue to the city, we therefore think that \$750 or \$800 per month would be small enough rental for a term of ten years lease. Docks no larger than our new one in Portland are taking in \$4000 a month and upwards dockage charges. St. Johns cannot afford to give a long lease for nothing. There may not be so much in it for the first year or two but it will more than make up for it during the later years of the lease.

she deserves it, else we would not urge the voters. Please remember when you get the Telegram to cut out the ballot.

The C. E. society of the Christian church will give a box social Friday of next week November 20th. Place will be stated elsewhere. The Peninsula band will be down and furnish the music for the occasion. Come out, buy a basket, have a good time and help a worthy young society to prosper. It will do you good to get acquainted with these young people.

Matrimonial Catechism And the Trite Answers

What is marriage?
Marriage is an institution for the blind.

Why do some people never marry?
Because they do not believe in divorce.

When a man thinks seriously of marriage what happens?
He remains single.

Should a man marry a girl for her money?
No. But he should not let her be an old maid just because she's rich.

When a girl refers to a "sad courtship" what does she mean?
She means that the man got away.

In selecting a husband, why does a girl prefer a fat man?
Because a fat man finds it hard to stoop to any thing low.

When asking papa, how should a young man act?
He should face papa manfully and never give him a chance at his back.

When the minister says, "Do you take this woman for better or for worse?" what does he mean?
The bridegroom's people construe it one way, and the bride's family interpret it another. It is very sad.

When a man says he can manage his wife, what does he mean?
He means he can make her do any thing she wants to.

Is an engagement as good as a marriage? It's better.

When a child is smart and good, to whose family is it due?
To its mothers.

When a child is bad and stupid, to whose family is it due?
We refuse to answer.

Is it possible for a married man to be a fool without knowing it?
Not if his wife is alive.—United Presbyterian.

Edison is One of the Few Honest Rich Men

And it is clean greatness—Edison's He wears by rights the look of a contented man. He has robbed no widows, crushed no competitors, stolen no franchises, taken no rebates. He is rich not because he gambled in the stock market; nor employed children and woman at starvation wages; nor awaited, doing nothing himself, for the rise in the price of land or corn or cotton. He is famous not because he manipulated an election, or bribed a legislature. There is nowhere in his career any record of success which came of devious or deceitful ways. His is indeed a clean greatness. He has worked for what he won, and everything that he has done has been in the direction of making this a better world for mankind to dwell in.

Men will toil all their lives for themselves alone grow tired; they want to stop and "get something out of life." Of course they do; but they are tired, not of work, but of their own inadequate and selfish lives. But a man like Edison does not get tired; you see that in the youthful look in his eyes. Money doesn't pay him. His enthusiasms are far otherwise, and external to himself. He has lived with the abstemiousness of a monk, having few personal wants, and the wants he had were gratified with the simplest things. He has never stopped to enjoy lengthy honors, though honors have been showered upon him from every part of the world, because he has been so busy all the time with new concerns. There is nothing, indeed, in this world which keeps a man young, joyous, simple, like the unselfish pursuit of truth.

Surely there is no better or more useful model for struggling, limited youths than this man Edison. Not that he has risen from a poor boyhood to a rich and famous inventor, but because by steady work through many years he has become a fine, simple-hearted, generous, useful old man.—American Magazine.

Evangelical Ladies' Aid Entertainment

The Ladies Aid of the Evangelical church gave a very successful entertainment in Bickner's hall Friday evening of last week. The following program was rendered:

Piano duet.....Misses Edmondson and Plaskett.

Recitation.....Ruth Edmondson

Song.....Georgia Bilyeu

Reading.....Dr. Vincent

Ladies quartet.....Selection

Reading....."The first call on the butcher". Miss Josie Beach.

Calisthenics.....Clus Swinging

Solo.....Myrtle Harrington

Duett.....Marie Marey and Georgia Bilyeu

Do-fanny..... Mrs. G. M. and Verne Hall

Recitation..... Verne Hall

Piano solo..... Miss Finch

Dialogue.....That Heart Affection

Reading..... Miss Nettie Marey

Piano duet..... Misses Castie and Cox

The program was well rendered throughout and was received enthusiastically by the audience. The attendance was fairly good there being something like 180 in the hall. Dr. Vincent's reading was especially good and the duett by Misses Marie Marey and Georgia Bilyeu was a splendid number; Mrs. Hall's part, too, as always, was "up to snuff." The dialogue, that "heart affection", was one of the best and the parts were all well carried. The irrepressible Miss Della McKinney, the French lady from Cork, was the whole life of the play. The receipts were increased by the sale of a cake recipe with a sample of the cake thrown in so the buyer would know when they went according to directions what they would get. These good people made their entertainment a success financially and socially, and feel well repaid for the trouble and expense.

Carnivalians, Attention!

W. J. Peddicord, president of the Peninsula Rose Carnival association has called a meeting of the association to be held in North Albina Tuesday evening, Nov. 17. All members are requested to be present and all persons who wish to take membership with the association on this date. The only thing that is necessary to become a member of the association is to sign the roll. Every energetic wide awake citizen on the Peninsula should be on this roll. It should be considered a roll of honor and every one who has the advancement of the Peninsula at heart should have his or her name on the roll and work with the live bunch of people who have started this movement. It means much more to the Peninsula than one would at first think. Come and see for yourself.

Note the label on your paper.

Hicks' Almanac

For 1909, ready Nov. 15, 1908, best ever sent out, beautiful covers in colors, fine portrait of Prof. Hicks in colors, all the old features and several new ones in the book. The best astronomical year book and only one containing original "Hicks' weather forecasts." By mail 50c, on news stands 30c. One copy free with World and Works, the best \$1. Monthly in America. Discounts on almanacs in quantities. Agents wanted. Word and Works Pub. Co., 2301 Locust Street, St. Louis, Mo. Every citizen owes it to himself, to his fellows and to Prof. Hicks to possess the "Hicks' forecasts"—the only reliable.

Cameras will be admitted to the grounds of the Alaska-Yukon-Pacific exposition. The size limit has been fixed at 4x5 or 3 1/2x5 1/2. Permits must be secured from the manager of concessions, but no cost will be attached.

Note the label on your paper.
