The operation of the corrupt practice act made a very quiet day of election on Monday. The usual button-holing of voters was conspicuously absent.

William Douglass was a guest of his old friends, Mr. and Mrs. N. J. Bailey, at dinner Friday. Mr. Douglass was pastor in Calama, Mich., eight years ago.

Harry Hunter has opened up a real estate office in the old Review office on Jersey street. His specialty is Burlington lots located along the new United Railway's line on the west side.

Willard Shepard has returned from a several weeks' sojourn at his former home in Iowa. He says that the people there are very much interested in Oregon and many of them intend visiting this section the coming summer.

Property is moving at a lively gait in Whitwood Court. With the advent of the new trolley line it will not be long until real estate on the west hillside will almost equal Council Crest property in price and excel it in desirability.

A plant for the manufacture of all kinds of tile work has secured a location and will soon erect works in St. Johns. We have been unable to learn full particulars regarding it, but will likely be in a position to do so next week.

Cedar Park will soon be a thing of the past. Workmen are now busily engaged in razing the fences and cutting down the trees. The tract will be platted to city lots. And thus another landmark will give way to the march of progress.

Geo. J. Perrine, the broadest and fairest minded Socialist that ever came down the pike, left his work at Albany long enough to vote here Monday. If all Socialists were as good all around as George Perrine the government would be in no danger were the Socialists in power.

Mr. and Mrs. Frank Beam, recently from Michigan, visited their old time neighbors, Mr. and Mrs. N. J. Bailey Sunday. They had not seen each other for thirteen years and the meeting was a joyous one. Mr. and Mrs. Beam expect to make St. Johns their future home.

If you have any property for sale do not fail to list it with the St. Johns Realty Co., which for the present will be located in the Review office. Every modern method for selling real estate will be adopted, and a large list is desired. Don't wait, but list your property now if you want it to move.

M. A. Shirley, general manager of the Pacific Stove and Range Manufacturing Co., whose plant is situated at the foot of Richmond street, has purchased the fine residence formerly occupied by Prof. Alderson on South Jersey street. Mr. Shirley has moved his family into the new home and will become permanent residents.

The people of St. Johns were very much gratified over the fact that Rev. C. P. Gates had been retained in St. Johns for another year. He has made many warm friends since coming to St. Johns, and has been eminently successful in his church work. His recent plea for a united fellowship and harmony in working for a greater St. Johns made him many new friends and the fact that he will remain with us for another year is pleasing to the great majority of our citizens.

B. U. Bickford, a former St. Johns man, but now located at Jerome, Idaho, is spending a few days in St. Johns. He is launching into the furniture business at his new location, and prospects for doing a flourishing business are very bright. While he still likes St. Johns, he believes the opportunity for making money rapidly is better in the newly irrigated district in which he is now located. It is quietly rumored that a St. Johns young lady will accompany him thither.

A young girl these times is of many days and full of foolishness. She goeth forth in the morning upon the streets and doeth nothing but giggle. She beginneth on a wad of gum in the morning and when night cometh, lo she still cheweth. She waiteth for her mash on the corner and bloweth him for ice cream and 'sundries' until he hath not a shekel left. She lieth abed until a late hour while her mother humpeth around and doeth the housework. She dreameth of marrying a man with a mustache and wealth, but getteth a yap who hath not a bean and payeth not for his home paper. —Rx.

MIXING IT UP—THAT IS OUR BUSINESS.

Do you realize that the mixing of medicine is a particular job? There are many ways in which medicine can be mixed, but there is only one right way.

Oil and water are pretty hard to mix, but the druggist who knows his business can mix oil and water into an emulsion as smooth as the oil itself.

We know the drug business thoroughly and would be glad to mix your medicines for you.

BONHAM & CURRIER

Keep Bright and You WILL KEEP BUSY

Electric Light is the magnet that draws trade. The bright store is the "hypnotic eye" of business. People can no more resist the attraction of a brilliant, electrically lighted store than they can resist the clarion call of a brass band. Is your competitor with the Electrically illuminated show windows, bright interior and sparkling Electric Sign getting an advantage over you? The moth never flutters around the unlighted candle! Up-to-date stores nowadays consider shop-window lighting a necessity, whether they remain open after dark or not. Competition forces modern methods. A show window brilliantly illuminated with Electric light will make many a sale "the night before." Electric light compels attention, makes easy the examination of your display, shows goods in detail and fabrics in their true colors. And don't neglect the Electric Sign. It is soliciting "tomorrow's" business every moment it is lighted—burning your name in the public mind. It is a solicitor that never becomes weary—never stops, work—costs little.
