# ST. JOHNS REVIEW

Devoted to the Interests of the Peninsula, the Manufacturing Center of the Northwest

VOL. 5

ST. JOHNS, OREGON, FRIDAY, MAY 7, 1909.

# **PURCHASED**

### Big Industry for St. Johns Arm of Employe Almost May be the Result **Torn From Her Body**

Fifteen hundred feet of water front extending from the St. Johns Ship-Trust Company to William C. Baker asked and received for other frontage in the vicinity and runs the entire transaction up to approximately \$150,-600 for the land purchased. Taken to the cost of electrical power delivered in this locality, there is ground for believing that some large interests are planning to put in a big industry on this property. Surveyors have been running lines from the North Bank Bridge down Edison street to this place.-Telegram.

### **Built Upon the Sand**

The main building at the Swift Packing plant is sinking down at one end, and there are a number of cracks in the cement foundation. Work has stopped on its construction and workmen are busy with the aid of numerous jacks in an attempt to raise it up. Piling had been drive: the Swift engineers to be substanter of the stomach and the family bring its many virtues to the notice raised in the state except cotton. gree, it is a treat for any one to be appointed as chief vice Chas. ingly optimistic over the prospect, and tial enough to easily sustain the is in very poor circumstances. Much of capitalists with money at their E. C. Cokon, representative of the listen to him. He told several little Bredeson was read, and Mayor Hen- believes there is no question but that weight of the structure, but it seems depended upon the money earned by command to construct and operate Swift Packing Co., said that the pear tales about the early history of St. dricks then made the appointment, as oil in large volume underlies this that a body of quick sand underlies the girl and were it not for an ac- industrial plants of various natures, insula was the stragetic point of the Johns at the time T. Turn ing of a track to connect with the out and cheer the boys to victory. new dock reported that while the officials did not commit themselves to anything they left the impression that if the business was there the railroad would be after it.

The mayor stated that several persons had spoken to him regarding allowing a couple of trees on the line of the new sidewalk on South Hayes to remain, and he asked that council take some action in the matter. After some discussion it was brought out that one of the trees was hollow and would soon become a menace to passersly, that they interfered a holdup. On motion it was decided to have all trees removed that stand
