One fact very patent to all is that St. Johns should have a burying ground. From a financial standpoint it would undoubtedly prove a paying proposition for a company to organize and secure the necessary ground for such a project. Lots could be sold to private individuals in paying numbers, and as a convenience to our citizens its worth would be hard to estimate. Let us have a cemetery.

Following is a letter from a former well known citizen of St. Johns, who recently moved to Pennsylvania, but is now located in Minnesota. It speaks for itself:

Editor: Please send the indispensable Review until further notice to Red Lake, Minnesota. I have retired from the farm and have re-entered the U. S. Indian Service. The only question seemed to be what part of the West. Respectfully, J. E. Kirk.

Pointers for our Patrons.

We do not allow any printer to put out nicer work than we do and we put the best stock into our jobs.

The difference between poor stock and first class stock on a job is a small item when you consider the value of the job. It is the price of a satisfied customer. It is better to make 50 cents less on a job and have a customer who will come back, than to use the flimsy stock, make the extra 50 cents and lose your customer. That is the way we figure it.
