FRIDAY, NOVEMBER 5, 1909.

A young lad in Portland has set the natives all agog over a peculiar power he seems to possess. Chairs, tables, stands, etc., perform the Highland fling whenever he goes into the same room in which they are contained. The city papers have been making great capital over the lad's supernatural power, but it is still a question with many people whether or not the whole proposition is a large-sized hoax.

After advertising and readvertising for bids for the improvement of East Burlington street council was successful Tuesday evening in securing a bid, which was at once accepted. Every winter this street has been a veritable mud hole, and it is with a great deal of satisfaction that the people who are compelled to do hauling from the Portland & Suburban Express Co.'s ware house learn of its ultimate improvement. Thos. Cochran received the contract.

Rev. Mr. Muckley says he baptized eleven Chinese one night. True, no doubt; and if he will give each of them a pretty, young American girl for a teacher, he can baptize Chinese in squads of eleven, right along. Nature is insistent on perpetuation of the race, and mixes up things wonderfully—if not restrained. But the religious idea, the idea of propagation of the gospel, mustn't be permitted to triumph over common sense. There is one instinct of Nature that—unless restrained—will triumph over all the rest. Even the religious instinct is powerless before it. But it will use the religious instinct—if it can—as a means to an end. Judicious observers don't think much of Mr. Muckley's eleven Christian baptisms of Chinese. The motive of the convert is not found in the abstractions of Christian faith—Oregonian.

The following letter in response to a request of the Commercial club through its secretary, O. P. Wolcott, in regard to heating the St. Johns

sive but it is due to the consumption of current and up to this time there has been no heater invented for street car use which may be considered reasonably economical for heating purposes. It is in this particular point which effects the St. Johns line as it is a long line and the loss of power in transmission, transformation and distribution, is so great that it would not be possible to install heaters at the present time without affecting the car service.

I trust you will appreciate the arguments in my letter as to the position we are in and why we cannot grant your request at this time.

Yours very truly,  
C. J. Franklin,  
General Superintendent.

**GOT SOME PRIZE WINNERS.**

Harry Hunter was one of the visitors at the Albany Apple Fair. He and his partner purchased 14 boxes of the prize winners, costing them \$4.00 per box delivered at Portland. They are going to use them for display purposes to show that the land they are offering for sale is capable of producing apples equal if not better than the famous Hood River product.

He has a series of 17 photos that were taken of the farm that they are selling in 5 acre tracts, and they certainly show some rich farming land. One of the pictures shows a steam plow drawing 12 disc.

His proposition with the land and people to back it up is certainly a winner. They have sold nearly 600 acres during the past 75 days.

Harry states that they have never taken a party to see the land who have not purchased. Even the Professors of the O. A. C. who examined the soil for them purchased 40 acres. You will find Harry Hunter at his office 302-303 Lumbermens Bank Bldg., 5th and Stark, Portland.

A great many pious people would probably prove a far greater blessing to humanity if they would worry less about their wings and work more diligently with their hands and their heads, if they would wonder less about playing golden harps in heaven and give more thought to gladdening earth with tender symphonies played upon the golden strings of love stretched on human hearts, if they would have less anxiety about the exact nature of the spiritual body and greater concern for the natural condition and healthful care of the physical body. We all ought to long to dwell in a glorified body in the world to come; but we ought also to strive to glorify this body in which we are living in the world that now is. —From November Physical Culture.

**IS YOUR MEAT PURE?**

While the people of Portland are being agitated over the impure milk proposition, it would be well for our people to look to the quality of meat they are using. It is of just as vital importance that the meat used should be pure as the milk, and it is likely that as many deaths are caused by diseased meats as from impure milk only it is more difficult to trace. Therefore, why buy your meat where any question might be raised as to its purity? Go where it has been proven beyond peradventure of a doubt that only good, wholesome meats are sold. You owe it to your family and you owe it to yourself. There is now more sickness in this city than ever before, and who can say that poor meat does not have its share in this deplorable state of affairs? There is one market in St. Johns where you can get the best, and nothing but the best in the meat line. That is at BITGOOD & COLE'S new market on North Jersey street. Try them and see.

Group Cured and a Child's Life Saved.

"It affords me great pleasure to add my testimony to that of the thousands who have been benefited by Chamberlain's Cough Remedy. My child, Andrew, when only three years old was taken with a severe attack of croup, and thanks to the prompt use of Chamberlain's Cough Remedy he was saved and today he is a robust and healthy boy," says Mrs. A. Coy, Jr., of San Antonio, Texas. This remedy has been in use for many years. Thousands of mothers keep it at hand, and it has never been known to fail. For sale by all good druggists.

Good Cough Medicine for Children and Grown Folks, Too.

"We could hardly do without Chamberlain's Cough Remedy," says Mrs. Flora Despain of Boyd, Ky. "I found it to be so good for the croup and have used it for years. I can heartily recommend it for coughs, colds and croup in children and grown folks, too." The above shows the implicit confidence that many mothers place in Chamberlain's Cough Remedy, a confidence based on many years' experience in the use of it. No one need hesitate to use this remedy for it contains no chloroform, opium or other narcotics and may be given to a child as confidently as to an adult. For sale by all good druggists.

cars explains itself, and shows that we may expect no heat on the cars the coming winter. It follows:

"Your letter to Mr. F. I. Fuller, our Vice President, has been turned over to me for investigation and reply.

While heaters are installed on many lines in the East where the weather is extreme and gets down to a few degrees above and in a number of places below zero, it is a question that we have had up quite frequently on the coast, both in Portland and the Sound cities, as to heaters on the long runs and on account of our moderate climate, we have not been able to see the necessity of it up to the present time. In a number of cities in the East where they have heaters, they keep them cut off except in the morning and evening when the thermometer gets below 30 degrees. You can see if we adopted this practice in this part of the country, which in the East is accepted as a reasonable one, there would be little or no use in putting heaters in the car.

Last winter, of course, was an extreme case and the most severe, as far as statistics show which I am able to gather, that we have had in the neighborhood of 15 years and while I think your request is largely based on the experience of last winter, I do not think it is fair to take an exception of this kind as a basis for your request.

I also wish to call your attention to the heater situation in a number of Eastern cities where, independent of the cold weather, during the rush hours the heaters are turned off and only allowed to remain on during the middle of the day for the reason that the consumption of current is so great at the peak load, when most of the cars are out, there is not enough left to run the cars successfully. It is not the cost of heaters themselves that makes them expen-

Rev. C. P. Gates closed his interesting series of sermons on "Isms" last Sunday evening in the Evangelical church. The series were well attended throughout, and many new thoughts and facts were brought out. During the month of November the reverend gentleman will conduct another series of sermons taking his subjects from base ball phraseology. The first sermon next Sunday evening will be on "The Man at the Bat." All lovers of the national pastime should attend the series, as much food for reflection from a base ball point of view will be advanced. Rev. Gates is an ardent and expert ball player, which will make the series more than usually interesting.

The management of the National Apple Show to be held in Spokane, Wash., beginning Monday, Nov. 15, requests that the opening announcement be made simultaneously in every city, town and hamlet where apples are grown by the blowing of whistles and the ringing of bells for five minutes, commencing precisely at 10 o'clock a. m., Pacific time, when President Taft in the White House at Washington will press a golden key to a Western Union wire running direct to the mammoth apple show buildings in Spokane. This request has been received by the Commercial club. Everybody with a whistle please take notice.

**HOME CURE FOR ECZEMA**

Oil of Wintergreen, Thymol, Glycerine, Etc. Used as a Simple Wash.

It really seems strange that so many people suffer year in and year out with eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure.

Old, obstinate cases, it is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderfully soothing, calm, cool sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the right proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. D. Prescription, or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago, and our long experience with this remedy has given us great confidence in its merits.
