FRIDAY, JANUARY 21, 1901.

A pessimist is one who fears that the hole in the doughnut is larger than he thinks it is.

The name of the new Chinese minister, Chin Yin Tang, sounds like three jingles of a sleigh bell.

Dr. Cook has discovered that everybody is from Missouri when it comes to that North Pole visit of his.

A Chicago woman holds that large feet are evidence of great brains. Perhaps so, but it's a poor place to keep them.

A Boston paper informs us that Zelaya's name is pronounced 'Zeliah.' And he is one, too, when he says he can do up Uncle Sam.

And yet no movement has been inaugurated toward establishing a cemetery in St. Johns. Somebody is passing a paying proposition up.

A Portland man has purchased an aeroplane and expects to have it floating around in the air in this section in a couple of months. Portland is ever prone to keep abreast of the times.

Sky scrapers are being erected in Portland at an amazing rate. Every week announcement is made of one or more being planned. Portland has only two ways to grow—up in the air and out upon the peninsula.

We are surely deserving of an early spring and a prolonged spell of nice weather to compensate us for what we have suffered during the past couple of months. But the question is, will we get it?

When you trade at your home store you can demand prompt service and courteous treatment.

In a very fast game of basket ball last Friday night at the rink, the Fireman's Athletic Club defeated the Y. M. C. A. of Portland, 8 to 7. It was an exciting game throughout, neither team having any advantage over the other and was full of spectacular plays. The local boys have improved in their playing since their last game, and are putting up a better argument every game. The playing of Poff at right guard was exceptionally good, and as this was his first game, he may be expected to show up well later in the season. Stiglich at left guard played his usual good game and had his man scared stiff after the first three minutes of play. Goheen and Manning divided honors on basket throwing, each securing two field baskets. Walker at right forward showed up well and was in the game all the time, his headwork at times was excellent. A small but enthusiastic crowd was present and were perfectly satisfied with the game. The dance after the game was voted a success by all present. The lineup is as follows:

F. A. C.	Y. M. C. A.	
Goheen	c	Boyles
Walker	r f	Alcott
Manning	l f	Stone
Poff	r g	Toomey
Stiglich	l g	O'Shay
Referee—Scales.		

The following bit of "potry" was picked up on the floor of the high school building the other day by a couple of pupils, who judged it worthy of publication, and so brought it to the Review. They claim it emanated from Howard Brice's facile pen. However that may be we give it space for what it is worth:

O look! Behold the falling flakes,  
They cover earth, are lost in lakes,  
They seem to flutter from on high,  
Like feathers falling from the sky.  
They flit along in misty clouds,  
And dress the trees in pure white shrouds.  
They make some people very glad,  
But me, By gosh! They make me mad.

Rare bargain—Fine six-room house, well finished, concrete basement, lot 100x100, perfectly level, nicely fenced in, fruit, flowers, etc., splendid view of the river, well located. Can be purchased for \$750 cash, balance on easy terms. For particulars, call at the Review office.

Lost—An abstract of Lot 4, Block 11, of Alberta, city of Portland. The finder will be rewarded by leaving it with J. H. Fletcher, 823 Willamette Boulevard, St. Johns, Oregon.

When you order printing done from amateur printers, be sure they can do good work before doing so. A poorly displayed, poorly printed and badly constructed job of printing is not cheap at any price. A good business man never uses shoddy printing. He knows it is not effective with the masses of people, and it is just money thrown away. A man who accepts bad printing, even if the price is commensurate with the work done, is generally supposed to be on a par with his printing—poor. It stands to reason that a printer who has spent a life time at the business and depends upon his work for a livelihood dare not turn out bad work; but a man who enters the printing business as a side line and for a little diversion from his regular business, with little experience and indifferent taste, cannot do good work. Therefore, when your job printing is solicited, be sure the work will be done by a PRINTER before you give the order.

THE tri-color feature of the Smith Premier Typewriter is recognized as the greatest improvement in modern typewriter construction—yet in providing it, none of the strong fundamental features, for which the Smith Premier has always been noted, have been sacrificed. Complete literature on request.

The plans have been completed for the large Killingsworth hospital at Kenton, and work upon its construction will speedily begin. Such an institution is badly needed on the peninsula, and it is gratifying to note its coming.

The climate of St. Johns may be a little disagreeable at times, but when one compares it with the kind being doled out to our Eastern brethren we cannot help but realize how infinitely better it is in good old Oregon.

When the tongue of trade is coated, when the eyes and limbs of the clerk are dull and languid, when the raging fever tackles the empty vitals of the till, when the spider roosts in the cashbox, and boquets of decay are on the chandeliers, it is conclusive that the advertising doctor has not been consulted.—Exchange.

"I would compel every child that goes to school to wear a uniform. There should be no inequality in dress. A uniform would do away with envy and strife. The mothers would not have to struggle so hard to keep their children dressed in such a way as to keep them from being ashamed to go to school because their companions considered them inferior for wearing plain materials."—Says Mrs. May Arkwright Hutton of Spokane, president of the Washington Political Equality League.

**Cured of a Severe Attack of Bronchitis by Chamberlain's Cough Remedy.**

"On October 18th, last, my little three year old daughter contracted a severe cold which resulted in a bad case of bronchitis," said Mrs. W. G. Gibson, Lexington, Ky. "She lost the power of speech completely and was a very sick child. Fortunately we had a bottle of Chamberlain's Cough Remedy in the house and gave it to her according to the printed directions. On the second day she was a great deal better, and on the fifth day, October 23d, she was entirely well of her cold and bronchitis, which I attribute to this splendid medicine. I recommend Chamberlain's Cough Remedy unreservedly, as I have found it the surest, safest and quickest cure for colds, both for children and adults, of any I have ever used."
