He says the land there at present is worth at least \$200 an acre.

Plans are being prepared for an up-to-date depot at East St. Johns. The structure will be of brick and entirely modern in every respect. Business at this point has been far greater than the North Bank officials anticipated. The building will be commodious enough to accommodate all business for some time to come. Now if the O. R. & N. would take a tumble and erect an appropriate depot here it would not come amiss.

The new high school building, as far as constructed, will have to be torn down and reconstructed, or at least the greater portion of it will. The unprecedented and severe weather of the past four or five months has played havoc with the work. The school board is fully safeguarded, and will see that the work is fully up to the specifications and requirements before the same will be accepted and the bondsmen released.

An Up-to-date Grocery

Having purchased the grocery stock, fixtures and good will of J. F. Hendricks on Burlington street, I solicit a continuance of the trade accorded the store in the past and invite the general public to visit my place of business and get acquainted with the prices and quality of goods I carry.

Being thoroughly familiar with the grocery business, I will at all times keep an up-to-date stock of staple and fancy groceries, and if courtesy, fair dealing and honest treatment have any merit it will in all cases be accorded to all. Norwegian patronage especially solicited.
