BIG DOINGS IN ST. JOHNS

Mob Chases Hindus from City in a Hurry

St. Johns was in a condition of great excitement about nine o'clock Monday evening. As a result of a minor disturbance that had occurred in the neighborhood, considerable excitement had prevailed among the residents on the Ave. at the St. Johns Junction. The St. Johns police were called in to order matters, but it is understood that no report has been filed at the station. They have not been able to find any substance to the story that the St. Johns police were replaced by these troopers to guard the city as they were doing in the other districts.

In St. Johns, the Hindus are an unknown element of citizens by reason of the differences in their mode of living and creed. It is reported that they are in possession of a large house in the city, and that it is necessary to guard the house in order to prevent any disturbance. It is stated that the Hindus are not interested in the present event, and that they will take no part in it. It is feared that the Hindus may become the nucleus of a larger disturbance if proper measures are not taken to prevent it.

The proposition of a high bridge at St. Johns should not be left to the judgment of the public. The present position of the bridge is the result of a careful study, which has been made by the engineers. It is impossible to receive the public judgment on the bridge without an adequate provision for its support. The public is expected to begin the construction of the bridge immediately. The bridge will be ready for use in a short time.
