Twenty thousand prescriptions on a druggist's file don't measure properly the quantity of medicine that the patients have taken, as on the average each prescription is refilled at least once, which really means then that we have dispensed at least forty thousand prescriptions since our advent, but the prescription business is and always has been a specialty with us, so after all the result is not so amazing. The sale of the big land grant of the Willamette Valley & Cascade Mountain Road company during the past week to capitalists said to represent the Hill interests, indicate to many that the reported Pacific Coast outlet for the Burlington will become a reality. It is believed Hill will build west from Billings, the present terminus, to Boise and thence westward through Ontario and across Oregon to Coos Bay. The purchase price of this big land grant will run up into the millions. If its purchase by Hill can be confirmed, and this railway is built, it will mean a great development for Oregon for it will open up the most isolated sections to settlement.

Haven't You tried an Embroidery Pattern yet?

YOU SHOULD. The Ladies' Home Journal Embroidery patterns are very easily used. A hot iron is the only tool needed to transfer them. Full directions for working and a diagram of stitches are given on each envelope.

YOU SHOULD TRY Hand Embroidery. It is a very popular training. It is also inexpensive. A touch of hand embroidery will add a personal touch to an otherwise ordinary garment. It will make a gift more appreciative.

Ladies' Home Journal Patterns are the most popular on the market today
