The high school booklet printed by an Oregon City concern is no credit to the printer. While the price was high, a sense of cheapness—poor paper, poor ink and presswork—permeates it throughout. The contents, however, are interesting and reflect credit upon those responsible for its publication.

Misses Edna and Bessie Fountain, granddaughters of Mrs. M. A. Bitgood, who have been in attendance at James John high school during the year just closed returned to their home at Walkerville, Ore. ## The Truth

A man came into our store last week and asked for a dollar bottle of a certain medicine. He received it, threw down the dollar and started out. He was called back and given thirty-three cents in change. He remarked he was better off than he thought he was, and asked the reason of the change back. He was told that the article which he had purchased was included in our list of weekly cut rates at sixty-seven cents. The man was very much pleased. This incident, no doubt, will make him a regular customer at our store. Can you appreciate the force of the foregoing? Would he or anybody else have received any change, had they gone to some other store for their purchase? The worst that can happen if you trade with us is to be charged what others charge, but even this don't happen very often.
