--A PUZZLER--

The following incident is recited to show our peculiar business disposition.

A lady came into our store and asked for a dollar bottle of an extensively advertised Eczema Remedy. As it was being wrapped up for her, she asked if we thought it would be good for her Eczema.

We answered, "Well, Madam, it will probably arrest the spread of your Eczema, possibly it will cure it—the maker thinks it will. We are not very familiar with the results of its use. But, we have an Eczema Ointment that to our knowledge has accomplished cures, and, anyway, the maker directs us to refund the money to all dissatisfied purchasers. It is fifty cents a box."

The lady took the fifty cent box, instead of the dollar bottle, on our advice. As we handed her the wrapped package we noticed, she seemed to be in a deep study which puzzled us, until she spoke thusly: "My intentions were to spend a dollar when I came in here, but you have persuaded me to spend only fifty cents, but you will find me back here whenever I want anything in the line of medicine."

Some might ask, "by turning dollar sales into fifty cent ones, where do you get off at?" We answer "by those return visits the lady has promised to make."

The soap that deals death to the Eczema Germ. Used generally in connection with Dr. Hobson's Eczema Ointment.

EGG-KEEP

Egg-Keep is one of the greatest recent scientific discoveries. It will accomplish wonderful results. It will not accomplish impossibilities. It will not make a bad egg good. It will not make a poor egg better. It will do one thing and one thing only—keep a good egg good. In using Egg-keep care should be taken to select good eggs only, and to follow directions.

The shell of a new laid egg is rough and contains an albuminous, mucilaginous substance which nature has provided to prevent the entrance of air, which, if kept for a short time only. In a little while the shell becomes smooth, the pores begin to open, air is allowed to enter, decay begins and the egg spoils.

Egg-keep adds to the natural shell and coating, seals up the insensible pores in the original shell, keeps out the air and prevents the decay for an indefinite time. We guarantee Egg-keep to keep good eggs good or we refund the money.

'TABLOID' TEA

This brand of Tea possesses the following among other points of superiority:

The Tea is absolutely pure and of the finest quality.

There is no waste and therefore greater advantage in use.

Exactness and equality in strength and flavour.

Convenience and portability render it especially useful for travelers, etc.

The Tea provides travelers, sportsmen, tourists and others with the only available means of carrying the material for obtaining a cup of freshly-prepared tea of the finest quality at any time and in any place.

Its purity, fine flavour, delicate aroma and the fact that it produces a fresh infusion of uniformly excellent strength and flavor have led to its adoption by those who are judges and connoisseurs of fine teas.

Its convenience in use has attracted the attention of housekeepers in large colleges, factories and institutions.

The convenient pocket-cases contain sufficient for 100 cups of tea. Box of 100 'Tabloids' for 25 cents.

The fire department voted \$10 for a wreath of flowers to help decorate the bier of Fire Chief Campbell at Portland. The order was left with a prominent florist, but he neglected to deliver the order for some reason. The local firemen had a keen admiration for the late lamented chief—the best that Portland ever had.

Miss Carrie Chambers and Mr. W. W. Sale were married Wednesday, June 25th at the home of Mr. and Mrs. K. F. Johnson at Young's River, Wash. The friends of Mrs. Sale, which means every one who knew her, will all wish her a long, happy, prosperous life. We understand the young people will make their home in Astoria.

That the whole state will be represented in framing proposed good roads legislation is assured now that Governor West has named a commission of prominent men from all parts of Oregon to assist in the work. It is believed this will prevent a flood of hasty legislation at the next election and will give the entire state just what is needed for highway betterment.

Surveys of the mouth of the Columbia river, completed during the past week are expected to show an increased depth of the ship channel at the mouth of the river. A gain of 18 inches, or a total depth of 27.5 feet, is unofficially reported. The measurements just made show that the sweep of the river, current and the tides are effective when confined to the channel and the increasing depth demonstrates the value of the jetty work at the mouth of the river.
