Do You Cook With Gas?

If not, why not? Nothing is nicer this warm weather than a gas range or plate for cooking. No heated kitchen to contend with, no wood to chop. After using one for a few days you would wonder how you ever got along without it. Ask those 106 who are now cooking with gas in St. Johns. Why not order one now? The price is low and the terms easy. Cheaper than wood and infinitely better. Place your order now and make the life of the housewife more bearable these mid-summer days.
