CALORIC DEMONSTRATION

You and your friends are invited to attend October 2, 3 and 4, and partake of the many good things prepared in the CALORIC FIRELESS COOK STOVE. You will be amazed at the seemingly impossible things it does. It roasts food in its raw state, without first partially cooking it on an ordinary stove, or reheating it before serving.

The Caloric saves fully 75 per cent in fuel alone and nearly all the time, work and bother. It requires no attention after the food is placed in it and there is no danger of burning or the food being overdone. The Caloric will pay for itself many times over. After using it, you would not be without it.

Come to our store on the above dates and you will learn how to reduce your meat and grocery bills.

Bring something for Mrs. Strong to cook for you with a Caloric.
