District Attorney Cameron says he does not know gambling when he sees it. Rather a strange confession for a prosecuting officer to make.

It may be that not every country has spoken, but so far as heard from, Canada is the only place where the increased cost of living is popular.

It is gratifying to note that those who have been most persistent in knocking St. Johns and continually speaking ill of it, are, one by one, leaving for other and more verdant fields. No tears are being shed over their departure, only waves of sympathy for the other points they decide to locate in.

We very much favor the enforcement of the curfew ordinance. It has been in force in many of the cities throughout the country for years, and in every case has been found to be most beneficial. The curfew is productive of better men and better women. Upon the streets after dark is no place to raise children. Let the curfew ring out, and let it be heeded.

Any society is making a mistake when it passes resolutions against the boy scout movement. No standing army thought is behind it, no menace to any legitimate thing. The purpose is to train the boys to master necessary branches which will make them perfect men; how to bear themselves; how to cook for themselves if ever necessary; how to handle arms--how to make men of them, men equipped for life's duties. It is what should be included in the education of every boy after he passes his twelfth year in the public schools. Continued in our schools for ten years and the knowledge of it told in foreign countries would be the greatest safeguard against war that our country could provide. It is exactly the discipline needed, and opposition to it can only come from such people as do not understand the purpose behind it.

Paschal Hill left Wednesday morning for the wilds of Nehalem country. It is his avowed intention to bring a deer or two home with him. Venison will no doubt be plentiful in St. Johns when the doughty councilman returns.

When the chest feels on fire and the throat burns, you have indigestion, and you need HERBINE to get rid of the disagreeable feeling. It drives out badly digested food, strengthens the stomach and purifies the bowels. Price 50 cents, Sold by St. Johns Pharmacy.

The Bachelor club gave its October Dancing party in the rink Tuesday evening. One of the largest crowds of the season was in attendance and the usual joyous time followed. The Bachelors certainly know how to provide a good time for their friends.

Petitions are being circulated requesting the county authorities to name the new free ferry boat "K. C. Couch," in recognition of that gentleman's untiring efforts in behalf of a free ferry. The petitions are being numerously signed.

Stories of Success

ALBERT A. POPE

When Albert A. Pope went to the Centennial exposition in 1876 and saw a crude bicycle he at once realized the possibilities of the machine. What was more to the point, he had been a frugal youth and had the money to seize the opportunity.

Born of poor parents in Boston 30 years before, he was forced to leave school at an early age. At 16 he peddled fruit on the street. His rule then was to pay every debt when it was due and keep his expenses lower than his earnings. By adhering to this plan he was ready when his chance came.

The name of Albert A. Pope will live forever in American history as the greatest figure in the bicycle world.

Every young man sees opportunities to advance, but few have had the foresight to be ready. A savings account in this bank will help you. A dollar starts an account and you will be interested in watching the growth.

A happy Surprise

Members and friends of the K. L. C. E. of the United Evangelical church pleasantly surprised Mr. and Mrs. J. E. Kilkenny in their new home, at 1020 Dawson street, Monday evening.

They were the recipients of a beautiful silver coffee and tea set, presented by the society of which both are active members. Lively games were played after which delicious refreshments were served. After bidding the happy couple good night, all departed, declaring they had spent one of the best evenings of the year.--Cor. Sec.

Biliousness is due to a disordered condition of the stomach. Chamberlain's Tablets are essentially a stomach medicine, intended especially to act on that organ; to cleanse it, strengthen it, tone and invigorate it, to regulate the liver and to banish biliousness positively and effectually. ST. JOHNS HARDWARE COMPANY

BULLETIN NO. 2

This Bank has just received the approval from the United States government to become Depository for Postal Savings Funds.

This means that any funds placed with the local postal savings bank, will be deposited with this bank in whatever proportion it is entitled to same.

We feel, this new venture of the government is a good one, in as much as it will bring out any money which might be in hoarding and that of a certain foreign element.

To the business man, the professional man, the man with a checking or saving account, it means nothing.

The business man could not and would not patronize a postal savings bank, the man who needs financial assistance will not have the bank, because he cannot get any accommodation from Uncle Sam. The savings depositors is also going to stay with the Bank, because he receives more interest and can get his money at any time without sacrificing all of his interest.

This bank will in the future, as it has in the past, take care of its customers.

You Can't Lose--

Alveolar Dentistry

Is Guaranteed for Life--It Does Away Entirely With Plates and Bridge Work.

DIGEST THIS PLEASE

Our guarantee is such that you cannot possibly lose. Most patients that come to us have been told by other dentists that they must wear a plate for the rest of their lives. As bridge work cannot be done where you haven't teeth at both ends to anchor the bridge to, in such cases as well as all cases where bridge work is possible, we can supply your missing teeth with beautiful, artistic, clean, comfortable Alveolar teeth, and guarantee them to last for life.

If for any reason the work proves defective or unsatisfactory, we repair or make it over free of charge. If neither can be done, which is SELDOM, but sometimes the case, we then make you the best plate possible. Our guarantee simply means that instead of destroying your natural teeth to which we anchor, we prevent their destruction, thereby assuring the patient and ourselves that the Alveolar teeth, in 49 cases out of 50, are going to last for the remainder of your natural life; if not, then No. 50 gets what the other dentists told you was your last resort before you came to us--a plate--and the best that can be made. Our Alveolar teeth are the most beautiful and natural looking teeth imaginable. They cannot be told from nature's product. We can imitate nature so nearly that we defy anyone, dentist or laymen, to tell them from the most perfect natural teeth. Each tooth is set in its own socket, separate and distinct, spaced like natural teeth where best to do so, lapped in other places. The cusps occlude with the opposing teeth and in some cases we put them in crooked purposely to match and occlude with your other natural teeth. The work is so remarkable and so perfect that we cannot do it justice by a written description, nor could you believe it. It sounds too good to be true, but we can show you samples.

counterparts of the work. Let you see for yourself what it is. There are 12 Alveolar Dental Co. offices in the West. About 80,000 people in the United States are wearing Alveolar teeth. About 50,000 were supplied by the Alveolar Dental Co. About 2000 people of this city and state were equipped in this office; 99 per cent of these, if not all, will tell you that they are delighted and that it's the best investment that they ever made, if asked. We will gladly refer you to as many as you care to see.

Alveolar Teeth, Where Bridgework is Impossible.

If only your front teeth are left, say three or four or more, we can replace all of those that have been lost on both sides clear back with perfect Alveolar teeth, while bridgework would be impossible even if you have eight or ten front teeth to tie to.

If you have only two back teeth on each side, say molars, we can supply all the front teeth that are missing with beautiful, serviceable, lifelike Alveolar teeth. This could not possibly be done by the bridge route. And where bridgework is possible, there is no comparison between the two. A very large percentage of our work is taking out bridgework put in by supposedly high-class dentists and replacing it with the beautiful and artistic Alveolar teeth. And unlike bridgework in another respect, it is practically painless. No boring or cutting into the gums, nothing to be dreaded. Now then prices being equal, which would you choose?

Curing Pyorrhea (loose teeth) a disease given up by other dentists as incurable is another of our specialties. We cure it absolutely. It's a beautiful statement to make, but we can do anything that is possible in dentistry, and what we do is always of the very highest class. Our toothlets, Alveolar Dentistry, are free. Write for one if you cannot call. We have samples of our work to show at all times.
