

Council Proceedings

All members reported for duty at the regular meeting of the city council Tuesday evening. Petitions for an arc light in East St. Johns and a hydrant and arc light at Tacoma and Bradford streets were referred to the water and light committee by the mayor.

A petition to improve Fessenden street from Buchanan to East city limits with Bitulithic hard surface was read, and a resolution directing the engineer to prepare the necessary data for same was adopted on motion of Alderman Muck; all yes.

A vigorous protest against the proposed use of the fire bell for curfew purposes was presented by the fire department. Filed on motion of Alderman Valentine.

A communication from the St. Johns water company conveyed the information that a fire hydrant had been installed at the intersection of Hayes and Trumbull streets, being the final one ordered installed by council to date.

A communication from the school board commended the action of the council in enforcing the curfew ordinance. Filed by order of the mayor.

An appeal for aid was received from Black River Falls, Wis., where damage and destruction was reported on account of a big flood. It was the sense of council that all money for charitable purposes was needed at home, unless the need was more pressing than was believed to be the case in this instance.

The case of a destitute old soldier had been reported to the mayor. Mr. Cole had offered him free use of a small habitation in the city, and was willing to do the carpentering work and make necessary repairs provided the lumber could be gotten in some manner. The St. Johns Lumber company offered to discount the bill of \$10 for lumber one-half, and motion of Alderman Bredeson the city voted to pay the balance; all yes. While Alderman Perrine favored extending aid, was doubtful if it was not a bad precedent to establish. He would rather give a week's salary he receives from the city than to have the amount taken from the general fund.

The following bills, amounting to \$218.60, were allowed on motion of Alderman Muck; all yes:

H. A. Harrer, \$36; T. Johnson, \$30; V. O. Steinweis, \$5.90; E. W. McLean, \$36; Frank Hathaway, \$21.20; H. M. Osgood, \$3.75; Columbia Electric Co., \$9; St. Johns Laundry, \$6.75; C. A. Vincent, \$49; D. J. Horsman, \$25.

Alderman Horsman, reporting for the committee on buildings and grounds, favored enforcing the old ordinance as it stands and using the firebell as a curfew bell; he thought it better for this purpose than to ring for a smoker at midnight hour, which he thought was ridiculous; that the bell was not a plaything, but to serve a useful purpose—fire alarm or curfew. Alderman Bredeson thought the council had no jurisdiction over the bell; that it was under the control of the fire commission exclusively. Alderman Perrine dissented from this; didn't think the commission was the "whole show." Alderman Hill thought the objection to the fire bell's use was all "rot"; that other cities have been using fire alarms for curfew purposes for years, and intimated that a fireman who could not recognize the difference between tolling the bell for the curfew and ringing it for fire alarm was poor material for a fireman. Alderman Davis suggested the use of the large whistle at the St. Johns Lumber company's mill, but he was informed that this was sought at one time, but its use was refused. The high school bell was suggested, but Prof. Boyd pointed out the fact that the High did not possess a bell. Finally Mr. Hill made a motion that council request of the fire commission the privilege of using the fire bell as a curfew bell. Upon vote Alderman Davis and Bredeson voted no, balance yes; carried.

Alderman Perrine recommended the erection of a ladies' waiting room adjoining the city hall on the north between the sidewalk and building, the estimated cost being about \$175. Action stayed another week.

The treasurer reported a couple of thousand dollars in the city coffers belonging to the general fund. Report referred to the finance committee by the mayor.

Attorney A. M. Esson, in a written communication, advised that the council rescind its action in the acceptance of the Jersey street improvement from Catlin to Chicago street, for the reason that the contractors had broken conditions by making alterations after acceptance. He had prepared a resolution rescinding the former action which was read. Alderman Hill was emphatically opposed to its adoption; that his faith was not shaken in the least in regard to Westrumite; that he knew the company would make good; that it was showing its good faith by repairing or relaying portions of the street after it had been accepted; that the first streets laid by the Bitulithic company were gigantic failures; that the property owners would not suffer; that if Jersey street was not made good it meant the breaking of the Westrumite com-

pany in the West; that he did not want the company to get any money until it had made good; that instead of rescinding the acceptance, delay of assessment ordinance until the work was completed was all that is necessary, and would serve the same purpose, so far as the property owners are concerned. Alderman Perrine was of the same mind. He said the adoption of the resolution would place a very nasty club in the hands of competing companies, and he favored giving the Westrumite company all possible chance to make good, which they showed a disposition to do. Mr. Hill then moved that the resolution be rejected; all yes.

An ordinance directing the city recorder to sell \$25,000 worth of improvement bonds passed on motion of Alderman Muck; all yes.

The "clean up" ordinance passed third reading and was held over one week before final passage to make a slight alteration. It is a sweeping document all right.

Bids for the improvement of Crawford from Pittsburg to Baltimore were opened and read, as follows: Peterson & Co., \$2,309.10; T. H. Cochran, \$2,173.85; Peninsula Sand and Gravel Co., \$2,568.35; Robinson & Foster, \$2,412.98; Crawford & Co., \$2,106.62. On motion of Alderman Horsman the contract was awarded to T. H. Cochran, the lowest bidder; all yes.

Bids on South Edison from Richmond to Burlington: Peterson & Co., \$5,386.06; T. H. Cochran, \$5,432.97; Peninsula Sand & Gravel Co., \$6,008.84; Wheelock & Co., \$5,760.32; Robinson & Foster, \$5,935.02; Crawford & Co., \$6,032.35. On motion of Alderman Hill the contract was awarded to Peterson & Co.

The Library

Open Hours: 1:00 to 5:30 and 7:00 to 9:30 p. m.

Hereafter the reading room will open at one o'clock instead of at half past two. This will make it possible for people to stop in while waiting for the one o'clock mail to be distributed and spend this time in looking over the magazines and papers.

Miss Fox, head of the county department at the main library, visited the reading room on Tuesday. She was greatly pleased with the attractive furnishings which the people of St. Johns have provided for the room and with the good use they are making of its privileges.

A set of low shelves has been added to hold books for little readers and it is noticed that many older readers pause to look over the bright pages of Johnnie Crow's Garden and the Brownie Books. The doings of the pig who went to market and his family are now displayed in a picture frieze above the little folk's shelves.

Parents who are too busy to use the library themselves are urged to come in and look over the juvenile books in order that they may help to direct the reading which their children do. They will find fairy stories and story books in abundance, but also histories and books of travel told in story form, books of out door life, stories of the lives of great men and women, and books giving directions for making and doing almost all useful things possible for children to make and do.

Books added during the week: Secretarial work and practice—Nixon and Richardson. Company Law—Price. How to make rugs—Wheeler. Meaning of pictures—Van Dyke. Modern methods in church work—Meade. Boot making and mending—Harlock.

Office organization and management—Dicksee and Blain. Scientific Salesmanship—Pierce. LIBRARIAN.

George M. Hall and son, Verne, who have been visiting on the eastern edge of the continent, both in Uncle Sam's and Cousin Edward's domains, returned today and report a most delightful time, despite the job's comforters and a felon on his finger, and they both appear to be much the better for their trip. Mr. Hall says he left his aged parents in the best of health and spirits.

Gilbert Overstreet of this city and Miss Bessie Dickson of Unionville, Mo., were united in marriage at the home of the groom's mother, 109 Burr street Thursday afternoon, Rev. J. R. Johnson officiating. The young people will make their home in Portland.

Don't forget the meetings at the Christian church every night next week.

Mutt and Jeff

Editor Review: As you are supposed to answer all professional questions, I wish to cite the following instance and question: It is well established that on the 17th day of October 1911, there appeared upon the streets in St. Johns a wonder, or two of them, described as follows: One tall, limber man and a short, stubby one. They seemed to have great devotion for each other, and used the whole sidewalk regardless of man or woman, and when one would fall down the other would assist him to arise, and then the one helped the other one home. Now, Mr. Editor, what do you call that disease and what would you suggest as a remedy, as it might happen again. Answer and oblige A Subscriber.

[From the symptoms expressed, we feel no hesitancy in diagnosing the disease as barleycornis, more or less prevalent where spiritus fermenti is dispensed; seldom attacks individuals singly, but rather contagious when two or more good fellows (?) are together. Causes a distressing weakness in the victim's walking apparatus as well as in his "upper story." Short men succumb to its influence quicker than long ones, because the infection has less distance to travel to reach the stomach—the seat of the disease. Remedy—Ice water poured down the neck at frequent intervals; feet plunged in boiling water; victim laid face down over a barrel and a "2x4 scantlin" applied in a vigorous manner about the sky line. Either remedy will no doubt prove efficacious, but if symptoms reappear within one week double the dose of either or all remedies used.—Ed.]

Firemen Give Smoker

The St. Johns Fire Department entertained their Linnton brethren in the city hall Monday night at a smoker. Refreshments were served and a jolly time was had. The visitors enjoyed themselves hugely, and departed at a late hour. A few taps of the fire bell bid them adieu, and incidentally startled a number of our citizens when the tones rang out on the night air.

Short addresses were made by Chief Olson of Linnton and 1st Chief Noonan and President Ashby of St. Johns.

Members of Linnton Fire Department attending the smoker: Ernest Coleman, president; J. R. Grant, vice president; Paul Noyes, secretary and treasurer; Arnold Olson, chief, Wm. Boyce, 2nd chief; Fred Carr, Jacob Treber, Fred Kizer, Fred Roy, Walter, Frank Kizer, Geo. Grant, Frank Watson, Chas. Olson, Richard Rinne, John Erickson, C. W. Hayes, Carl Erickson, R. ORDINANCE NO. 435

An Ordinance Authorizing the City Recorder of the City of St. Johns to Draw a Warrant Against the Street Bond Sinking Fund for Purposes of Transfer.

The city of St. Johns does obtain as follows:

That whereas, under the operation of the "Rancorif Bonding Act," as the same has been adopted by the city of St. Johns, for the purpose of improvement of streets and construction of sewers, a deficiency has developed in the street bond interest fund, owing to the provision of the charter providing for the payment of interest semi-annually and collecting the same but once annually, and to the further fact that large amounts of said Improvement Bonds duly issued for such improvements are now drawing interest against which amounts no interest can as yet be lawfully collected.
