The Debonaire club met at the home of Mrs. C. H. Boyd on Gresham street yesterday afternoon. Mrs. Boyd is an ideal hostess and all present spent a most delightful afternoon. A dainty lunch was served.

The "silver thaw" (or freeze) congested business to quite a degree Saturday and Sunday. The trolley service was most uncertain, the street lights were all out and many residences had to resort to oil lamps. The St. Johns Gas Co. and Mount Hood Ry. & Power Co., however, maintained good service. "Silver thaws" might be all right in the East, but they are not at all appreciated here.

Commercial Club

A large attendance was present at the regular meeting of the Commercial club held in their new quarters in the Holbrook block Wednesday evening. The new promotion manager, B. F. Crawshaw of Astoria, was present and impressed all with being well qualified and thoroughly conversant with the details that go to make up a successful organization. His address was a splendid one, and the ideas he advanced sound, logical and appealing. Mr. Crawshaw made a hit with the club. K. C. Couch asked for the endorsement of the club on a petition requesting the county commissioners to operate the present ferry boat, beginning Feb. 15, until the new boat is placed in commission. Endorsement unanimously given. It was decided to exact no initiation fee from new members until March 1. Mr. Couch advanced the proposition of St. Johns securing a federal post-office building in St. Johns to cost approximately \$40,000, which he believed could be secured with concerted effort. Committees to look after this matter, also express office and telegraph office for St. Johns were to be appointed by the chair on motion, and that St. Johns be given a place by itself in Polk's directory. Owing to lack of space we defer going into details of these propositions until next week, when we will also give the main points brought out by Mr. Crawshaw in his address. Promoters of a spark extinguisher asked the assistance of the club in securing a location for a plant here. This will also be dealt with next week.

The Seamy Side of Life.

Is the title of an unique and original book of poems composed by R. L. Hardin, the Kentucky poet, now located in Portland, and illustrated by Murray Wade, the well known cartoonist. For the blues it is a sure cure. On sale at the St. Johns Pharmacy; 25 cents.

The Orpheus Male Chorus of Portland, under the direction of Prof. W. M. Wilson, will give two concerts within the next four months. The first will be given latter part of this month, or the first of February, the exact date will be published later. The chorus is composed of some of the best singers in Portland and will render a program that cannot be equalled on the Pacific coast. Season tickets may be obtained of E. L. Perkins at the St. Johns Hardware Co. store. Price \$3.00, which gives you two tickets to each concert.

Street Development

At its meeting Tuesday night the city council decided to improve Burlington street, from the city hall to Bradford street, with concrete surface similar to Hassam. This improvement is of vital importance to St. Johns, as it leads directly to the water front. To our mind, however, the improvement should be continued to take in the block on Burlington between Jersey and Kellogg. The improvement as planned, in any event, will be a splendid one, and reflects great credit on the dads for starting proceedings.

At the same meeting a resolution was passed directing the engineer to prepare the data for the improvement of Fessenden street from Buchanan to east city limits in a similar manner, Holbrook brothers, the greatest boosters for street improvement that St. Johns has ever had, having agreed to take care of any excess cost over the 50 per valuation of property. Few such instances of public spiritedness are recorded in the annals of any city development. Portland is now unwinding the red tape involved in hard surfacing the extension of Fessenden street (or Edward as it is called after it leaves the limit of this city) and other streets connecting with it so that a hard surface pavement will be in force from Buchanan street clear into the heart of the city of Portland next winter.

Negotiations are now going on between the council and the Portland Railway, Light and Power Co. for the hardsurfacing of Dawson street, from Jersey street to the city limits, and it is believed a satisfactory arrangement can be made for this improvement. Portland, it is assured, will meet this hard surface next summer, giving another hard surface route to the city. Baltimore street will also be hard surfaced with concrete as soon as the weather permits. There is some talk on the part of property owners to improve Ivanhoe street with hard surface almost its entire length. Thus it will be seen that good streets in St. Johns is only a matter of a very short while.

The Review was delivered by carriers last week in an attempt to get one in every house. On account of the wretched condition of the streets and weather, the distribution was far from satisfactory. If any subscribers failed to get a copy we would be glad to have them come to the office and secure one. Or if any one desires to send copies to friends in the East they may be freely obtained as long as the supply lasts.

Joint Installation

The Odd Fellows and Rebekahs held joint installation in their hall Wednesday evening, after which an enjoyable and bountiful lunch was served in the room underneath. The meetings were open and the hall was crowded with members and friends. The work put on by the Rebekahs was splendidly done, and moved along like clock work. The degree team was in the best possible form, and their maneuvers were heartily applauded. Following are the Odd Fellows installed: T. E. Snysner, N. G.; D. N. Byerlee, V. G.; E. S. Wright, Rec. Sec.; J. T. Brooks, Fin. Sec.; Oliver Bakke, Treas.; J. E. Powell, warden; Clifford Thayer conductor; G. T. Oman, chaplain; G. W. Evans, I. G.; J. C. Brooks, O. G.

Deputy District President Mary Simmons installed the officers of Laurelwood Rebekah lodge as follows: Alda Overstreet, N. G.; Cora Merrill, V. G.; Hattie McKinney, Rec. Sec.; Effie Beam, Fin. Sec.; Amanda Whitmore, treasurer; Anna Hathaway, warden; Josephine Hendricks, conductor; Lillie Sizemore, chaplain; Nellie Benham, I. G.; J. C. Brooks, O. G.

Bank Increases Capital

At the annual meeting of the stockholders of the First National Bank of this city, held on Tuesday of this week, the increase of the capital stock of the bank from \$25,000 to \$50,000 was authorized, to take effect April 1st next. This will give that institution a total protection to depositors of \$110,000, divided as follows: paid in capital stock \$50,000, earned surplus since beginning business four years ago \$10,000 and additional stockholders' liability \$50,000, and will place the bank in a better position than ever to take care of the banking needs of this rapidly growing community.

The following directors were elected: W. E. Hauser of the firm of Grant Smith & Co., railroad contractors, Sylvester Peterson, and R. M. Tuttle of Portland, and A. R. Jobs, Perry C. Stroud, C. B. Russell and F. P. Drinker of St. Johns.

The Minerva Chapter, Order of Eastern Star, will meet Tuesday at 7:15 sharp for the purpose of installing the chapter.—Susie Rogers, secretary.

For the freshest and choicest meats of all kinds, visit the St. Johns Meat Market on Jersey street.

A Commendable Project

The suggestion on the part of Mayor Couch that the unemployed of St. Johns be furnished with employment by the city is a most meritorious one, and the beauty of it is that it would prove a benefit all around, and none would be the loser. The proposition, as he presented it to council, was that of cutting wood on the Gattson farm. Mr. Gattson, it is understood, wants his land cleared, and is willing to give the wood for having the clearing done. The city proposes to furnish the labor, and use the wood for the city hall or sell it to poor families in the city at actual cost, which would be below the present market price. There are quite a number of unemployed in St. Johns this winter, who want employment, and need employment to keep their families in any degree of comfort. This solution of the employment problem looks good from any point of view. If Portland would adopt a like method of taking care of its unemployed, destitution would be almost wholly relieved in that city.

The firm of Welton, Kibbe & Cochran was awarded the contract for the construction of a pumping plant and a three-mile supply main at Elma, Wash., the total value of the improvements to cost \$14,806. Water is to be procured by developing a group of springs located about three miles west of Elma and it will be brought to the town by the means of a pipe line. The contractors are to commence construction work at once. T. H. Cochran of this city is a member of the firm.

The goods of Lang & Co. have been removed from the Holbrook building on the corner of Philadelphia and Jersey streets, and the store room is being entirely remodeled. The front is being changed in a manner that will make a vast improvement in appearance and convenience and the interior is being overhauled and re-embellished. Johnstone, the Toggery man, will occupy the same as soon as it is completed.

First Christian Science Society:—Sunday 11 a. m., Wednesday, at 8 p. m. Reading room open Tuesday and Saturday from 2 to 4 p. m. All cordially invited to the services and reading room. Subject for January 14, "Sacrament."

Frank Test, who has been dangerously ill for a week or so, is improving right along, which will be pleasing news to his countless friends.
