MR. SELLING

Senator Ben Selling has announced his intention to contest for the Republican nomination for United States senator. For a number of years the political course of Mr. Selling and The Journal have run along much the same lines. Support of progressive methods of government in Oregon when they were badly in need of support, brought Mr. Selling and The Journal on common ground.

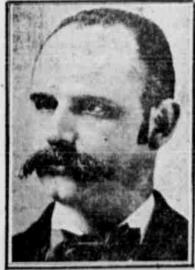

When there was need of Statement One candidates for the legislature, they were not always easy to find. There was a time when most of the higherups of the Republican party in Oregon were, and some of them still are, against Statement One. It was in such a time that Mr. Selling was a welcome addition to the forces that were striving for direct election of senator, and for elimination of disgraceful deadlocks at Salem.

Without at all entering into the support of Mr. Selling's present candidacy, it is as little as The Journal can do to thus acknowledge the aid Mr. Selling has been to the cause of popular government in Oregon, an acknowledgment that, in fairness, is also due to Senator Bourne.

SELLING IS THE PROPER MAN

"Naturally, Ben Selling would be my choice for the United States senate," said a prominent Portland German to a reporter for the Zeitung. his interests are here in the state. He knows what the people of Oregon need, and I don't believe there is a on alive better able to supply those

Right in line with that sentiment is another, very generally expressed, to the effect that while Mr. Selling has always been one of the most progressive of citizens, insistent upon the development of the state and the utilization of all its resources, he is the implacable foe of graft in all its forms Recognizing the fact that all public expenses must be met from the pock ets of the people, he stands firmly against the waste of public money,

BEN SELLING

Oregon has gone forward amazingi: in the past twenty years; and is every step of its progress Ben Selling has been in the front rank of Oregon's citizens. He has done his part. He has borne his share of the burdens and discharged his share of the du ties. He has asked no man to per form his tasks.

The men who own homes, and the mea who pay in industry for the good things of life, want to intrust their public interests to a man who has always stood shoulder to shoulder with them, who knows them and their problems, and whose citizenship is of the sturdy character which asks no special favors from any one.

Our people know Ben Selling. They have dealt with him for many years. He has been fair with them, and they can confidently trust him.-Nachrichten, a Portland German Newspaper.

Drawing Inferences. President Lincoln once told the following story to D. H. Bates, manager of the war department telegraph office: "I'm like an old colored man I knew. He spent so much of his time preaching to the other slaves it kept him and them from their labors. His master

Trapping a Tiger. The tiger is possessed at times of an almost supernatural cupning, a wonderful sense of smell and a fine instinct with regard to traps and the fike, which make him as difficult an animal to take alive as any existing Sometimes be can be snared, but not often. On one occasion the writer's untive Indian servant ran in in a great state of excitement to say tiger was trapped in the jungle half a mile away, and the entire camp, of course, at once flocked over to see the prisoner. The trap was exactly on the principle of a humble mouse trap. with a falling door, and built of strong timbers laced together with rattans The imprisoned tiger was a full grown mate, and it would be difficult to imagine anything wilder than his rage as he roared and stormed and hurled himself in futile fury on each part of the structure in turn. There he was to stay until hunger had rendered him manageable, the incident showing that the tiger can be trapped, although not often.-London Globe.

An Idol With Diamond Eyes. It is a curious fact and one scarcely known outside of Russia, and there hardly ever mentioned, that the famous Orioff diamond was once the right eye of the great idol Serringham in the temple of Brahma. This preclous gem was stolen at about the beginning of the eighteenth century by a French soldier who had made a pretense of being converted to the Hindoo religion in order to gain the confidence of the priests and admission to the temple. The F. nehman first sold the diamond for £2,000. On the next turn it was bought by a banker of Constantfnople for £12,000. The banker kept it until 1774 and then sold it to the Russian empress for £90,000 and a life pension. The gem has been in the Russion royal family ever since. SECOND SIGHT.

An Apparition That Was a Messanger

of Death. The third Lord Templetown used to tell of an extraordinary and really authentic case of second sight. His brother, Henry Upton, the second viscount, was with his regiment abroad when he and several brother officers saw an old friend wearing trousers and shirt only pass through the mess room to another room from which there was no outlet. They followed and saw nobody, and the sentry per

sisted that no person had entered. Henry Upton wrote to his brother afterward third viscount, to request him to go to their friend's lodgings in London and find out what he was do ing at such and such an hour on a cer tain day. The brother in London com plied and found that their friend had dled, but not on the day be had been seen abroad.

Later the landlady was asked on onth as to the date and hour of death and whether he had died in a white shirt with a blue check. After some demur she confessed that her lodger did not die when she first stated, but on the day when his friends had seen

him pass through the mess room. It seems the date of demise had been faisified on account of his pension, which was almost all his family had to depend upon. And he died in a white shirt with a blue check, his landlady having lent one of her husband's to him on the morning of his death.-London Court Journal.

SHE WANTED LIGHT.

So She Had the Windows Fixed

Exactly to Her Taste. The architectural feature of the new house that caused a decided domestic cupture was the windows. The man was in favor of medium sized windows, with small panes to match the rest of the house, but his wife in sisted upon enormous sheets of plate

"You are away all day and do not know whether I can see my hand be fore me at noontime or not," she said. "but I am in the house most of the time and must have plenty of light and sunshine."

So they had big windows. Before the carpenter left she ordered inside shutters put up. The family's first night in their new home was celebrated by adjusting two sets of window shades, one white, the other dark green, which served as a background for two pairs of curtains, one of silk. the other of lace. On the third day the man helped his wife to hang additional sash curtains, and on the fourth day be found a man tinkering with the outside of the window ledge.

"He is just getting ready to put up the awnings," she explained. Her husband looked at the shutters. the two shades, the two curtains and the sash curtains and the arrange ments for the awnings at each wir dow, and then he laughed, but she could not understand why .- New York

Dr. R.
