He is familiar with the needs and requirements of this section of the state, and therefore would be in a position to render valuable and efficient aid in securing those needs. Before you get lost in the mazes of the extraordinary ticket that will be presented to you at the polls, pick out Valentine's name and make a cross between it and the number.

### Council Proceedings

The regular meeting of the city council Tuesday evening found all members present with the exception of Alderman Hill; Mayor Muck presided.

A communication from President Platt of the Peninsula National Bank stated that the lease held by the Whitwood Quarry Co. on the city quarry and utilities at Whitwood Court had been taken over by the banking institution. The quarry has not been in operation for several months.

A communication from the Portland Railway, Light & Power Co. accepting a franchise to erect poles, etc., on Dawson street was received and ordered filed.

The St. Johns Lumber Co. entered a protest against small vessels occupying space in front of the city dock, to the detriment of other freight bearing vessels making a landing and discharging cargo. The company had been given assurance that the O. W. R. & N. steamers would make the local dock if it were kept clear. The city attorney was directed to draft an ordinance prohibiting and penalizing owners of vessels for using the dock for unduly lengths of time.

Former Councilman Chas. Bredeson recommended that the steps on Tyler street leading up from the river front be repaired and kept in first class condition by the city, as many workmen were in the habit of using the steps, and which were now in a dilapidated and unsafe condition. On motion of Alderman Wilcox the chairman of the street committee was authorized to have the matter attended to.

A. Wymore objected to the newly laid sidewalk on Central avenue, claiming that it was unstable and not up to specifications. He wanted to be safeguarded by maintenance bonds of the contractor before bonding his property in payment of his proportion of the cost. It was decided to require suitable bonds before accepting the work. A couple of remonstrances against the assessment of the South Ivanhoe street improvement were overruled by the council on the grounds that they were justly and suitably assessed.

The committee appointed last week to report on the advisability of purchasing the local water plant and utilities, stated that they had decided to await the return of H. L. Powers, the principal owner of the plant, from Idaho before calling a mass meeting of the citizens to get a public expression of sentiment regarding the proposed purchase. Mr. Powers will be invited to meet with the citizens upon his return some time next week.

The matter of street improvement around the new library site on Charleston street was broached, and the attorney stated that the engineer was busily engaged in preparing the necessary data for such improvement.

The improvement of South Ivanhoe street from Polk street to the city limits was accepted on motion of Alderman Valentine, and an ordinance providing for assessment of its cost was passed on motion of Alderman Horsman.

As next Tuesday evening falls on election day, it was decided to meet then and adjourn to the following Thursday evening.

Senator Bourne's work on the Committee of Postoffices and Post Roads will be a lasting monument to him and a positive blessing to the country. I am a Democrat and he is a progressive Republican, yet I feel that his absence from the U. S. Senate would be a positive loss to the country.—James E. Martine. ### VOTE for MILLAGE BILL Number 320 X Yes

It provides six-tenths of a mill tax for support of Agricultural College and University of Oregon, giving them permanent support and taking them out of politics. It also provides one Board of Regents, thus solving the problems of so-operation, consolidation, division of sources and economy of management.

It does not increase the average rate of taxation.

It repeals the \$500,000 University appropriation bill.

The bill is endorsed by Governor West: "This Bill is in the interest of good business and should pass."

By L. N. Alderman, State Superintendent Public Instruction: "Experience in other states shows millage bill principle to be correct."

By Will H. Daly, President, Oregon State Federation of Labor: "No argument can successfully combat the benefit to the state that will follow the adoption of the millage tax plan."

Endorsed by Portland Tax Payers League.

Bill prepared by committee of Governor's Commission, Boards of Regents, and administrative officers of the two institutions.
