A record of 1,650 failures out of 1,686 journalistic ventures would seem to prove that there are more profitable fields of enterprise than starting newspapers.—Ex.

The Vale Chamber of Commerce is taking care of the boys of the city by allowing them the use of the handsomely appointed club rooms twice a week. This is probably the first city in the state to take the rising generation into partnership in its development work and is a move that is certain to have good results.

The Civic Betterment league, with a membership of 100, has started a campaign for a more beautiful St. Johns. **Reduces Fire Insurance**

Lee Cormany, Fire Chief, is in receipt of the following communication from the Underwriters' Equitable Rating Bureau, which explains itself:

Dear Sir: In response to your favor of the 6th inst., inquiring the amount of reduction in fire insurance rates in St. Johns, provided combination hose and chemical automobile fire truck is placed in service, with two fully paid firemen to man same, beg to advise as follows:

It has been our experience that two men are insufficient to handle such a piece of apparatus with any degree of efficiency. During meal hours, if only two men were employed, there would be but one on duty, and it is very evident that one man cannot handle the apparatus referred to. We would, therefore, ask that not less than three fully paid firemen be maintained at headquarters house.

The approximate reduction, provided our request is complied with and the apparatus purchased is satisfactory, would amount to from EIGHT to TEN PER CENT.—Signed, James N. McCune, Secretary.
