You can tell a farmer by looking at his wife's fruit in the closet. You can tell a slouchy woman by looking at her hair, you can tell a dry goods box statesman by the patches on his pantaloons. You can tell the poisonous serpent by the bluntness of his tail. But the easiest thing of all, you can tell the enterprising merchant by a glance at the local paper. This is not a divine revelation, but business and gospel truth.—Exchange.

City Engineer Hurlbert is making the surveys and proposed extension of Willamette boulevard from a point near Killingsworth avenue south to the approach to the Broadway bridge. The survey provides for a boulevard 80 feet wide which will follow the brow of the bluff above the river the entire distance. It will take the place of the old St. Johns road which is now little used. If this project is carried to completion it will become a portion of the proposed boulevard system of the East Side. It will provide a driveway from the Broadway bridge to St. Johns along the river, making one of the most beautiful scenic boulevards in this city. While the damage to property resulting from extension of the thoroughfare will be heavy, yet it said that the assessments will be scattered over a large district so that the burden will not fall hard on any small district. It is the general idea that when once the boulevard is opened that it will be taken over and maintained by the City Park Department.—Daily Abstract.

Are You Tired of Taking Calomel, Salts and Pills for Billiousness and Stomach Trouble?

Here's a Veronica Water testimonial right at home—Read what Mr. Jensen says—Write him, or go and see him if in doubt about what it will do for you.

I have suffered with dizzy spells, Liver and Kidney Troubles and at times I was so badly discouraged that I did not care to live. I had tried everything that the doctor and my friends had recommended, without results. A short time ago my attention was called to Veronica Water. I at once began its use. Now I have no dizzy spells and I feel like a new man; I say, in fact, Veronica Water saved my life. To my friends who knew of my condition before I began to use Veronica Water it is unnecessary for me to recommend it, but to those who do not know me, I recommend this wonderful water, and say give it a fair trial. Respectfully,

Nicholas Jensen.
